TRINITY COLLEGE Governing Body, Officers and Advisers Year ended 31 July 2020

MEMBERS OF THE GOVERNING BODY

The members of the Governing Body who are Professorial Fellows or who have been in post for more than one year are the College's charity trustees under charity law. The members of the Governing Body who served during the year are detailed below. Those members who were not trustees of the College during the year are indicated by an asterisk.

		(1)	(2)	(3)	(4)	(5)

The activities of the Governing Body are carried out through five main and a number of other committees. For the current academic year, Fellows' membership of the main committees is shown above.

- (1) Academic Committee
- (2) Bursarial Committee
- (3) Development Committee
- (4) Investment Committee
- (5) Remuneration Committee

In addition to the Fellows, The Bursarial, the Development, Investment and Remuneration Committees have external members who are appointed on the basis of their experience and expertise in the relevant fields.

COLLEGE OFFICERS

The Officers of the College to whom day-to-day management is delegated are:

President Dame Hilary Boulding Estates Bursar Christopher Ferguson

Domestic Bursar Lynne Adam – Joined September 2019

Linda Irving-Bell – Interim to September 2019

Senior Tutor Professor Valerie Worth
Dean Dr James McDougall

Chaplain Reverend Doctor Emma Percy

Development Director Susan Broers

TRINITY COLLEGE Report of the Governing Body Year ended 31 July 2020

The members of the Governing Body present their Annual Report for the year ended 31 July 2020 under the Charities Act 2011, together with the audited financial statements for the year.

REFERENCE AND ADMINISTRATIVE INFORMATION

The College of the Holy and Undivided Trinity in the University of Oxford, which is known as Trinity College ("the College"), is an eleemosynary chartered charitable corporation. It was founded by Sir Thomas Pope under a Letters of Patent issued by Philip and Mary dated 8 March 1555, and a deed of foundation dated 25 March 1555.

The College registered with the Charity Commission on 12 September 2011 (registered number 1143755).

The names of all members of the Governing Body at the date of this report and of those in office during the year, together with details of the advisers of the College, are given on pages 2 to 4.

STRUCTURE, GOVERNANCE AND MANAGEMENT

Governing documents

The College is governed by its Statutes.

Governing Body

The Governing Body is constituted and regulated in accordance with the College Statutes, the terms of which are enforceable ultimately by the Visitor, The Lord Bishop of Winchester. The Governing Body is self-appointing.

The majority of the Governing Body members are Official Fellows who are either Tutorial Fellows, jointly appointed with the University on the basis of their academic excellence and ability to meet teaching and research needs of the College, or College Officers appointed to fulfil administrative roles in the College.

New members of the Governing Body are recruited by advertisement and inducted into the workings of the College, including the College's policies and procedures, by the President and College Officers. In accordance with College Statutes, new Fellows, other than Professorial Fellows, do not have voting rights at Governing Body meetings during their first year in office, and are therefore not trustees of the charity.

Members of the Governing Body attend trustee training and information courses to keep them informed on current issues in the sector and on regulatory requirements.

The Governing Body determines the on-going strategic direction of the College and regulates its administration and the management of its finances and assets. It meets regularly under the chairmanship of the President. It is supported in its role by a number of committees, the most significant of which are listed on page 3. It delegates day-to-day management to the College Officers who are listed on the same page.

Remuneration of Members of the Governing Body

Members of the Governing Body receive no remuneration or benefits from their trusteeship of the College. Those trustees who are also employees of the College receive remuneration for their work as employees of the College based on the advice of the College's Remuneration Committee. There are four external members of the Committee, one of whom is the Chair. At the discretion of the Chair, the President, Estates Bursar and one other trustee may be invited to attend all or part of any meeting to support the Committee. Fellows of the College may also attend meetings, at the discretion of the Chair. The President and all Fellows are excluded from any discussions or votes where a conflict of interests arises.

Report of the Governing Body Year ended 31 July 2020

Group structure and relationships

The College is part of the collegiate University of Oxford. Material interdependencies between the University and the College arise as a consequence of this relationship.

The College has two wholly owned non-charitable subsidiaries: Trinity College Oxford Limited, whose trading activities primarily comprise letting the College's facilities when not in use for their charitable objects, and Trinity College Developments Limited, which undertakes major building works to the College's buildings. The annual profits of the subsidiaries are donated to the College under the Gift Aid Scheme.

The College administers many trusts, as detailed in Notes 19 and 20 to the financial statements.

OBJECTIVES AND ACTIVITIES

Charitable Object and Aims

Object

The object of the College is to advance education, learning and research through the provision, maintenance, support and conduct of a college within the University of Oxford.

The aims set for the College's subsidiaries are to help finance the achievement of the College's object.

Public benefit

The trustees are mindful of their duty to ensure that the College provides a public benefit, and are satisfied that it fulfils this duty.

The College advances public learning by providing higher education for undergraduate and postgraduate students within Oxford University, and by supporting the pursuit of publicly disseminated research. During the year the student membership of the College averaged 297 undergraduates and 143 postgraduates. The academic Fellows have contractual obligations to teach and to undertake research.

The College provides public benefit by offering higher education to its undergraduates, much of it through the tutorial system which provides the opportunity to meet with a tutor on a weekly basis during term time. In addition, the College provides classes, seminars and other forms of teaching as appropriate, in conjunction with the University's departments.

Graduates at the College form an important part of the academic community. While they are taught and undertake research in Faculties and Departments of the University, every graduate student is assigned a College Graduate Adviser who is a Fellow of the College and who provides academic and pastoral support. In addition, the Senior Tutor maintains oversight of the academic progress of graduates, and of their welfare and needs.

To support student learning, the College provides the use of its library, IT network, chapel, buildings and accommodation. It actively promotes the wider cultural, moral and social development of its students through the provision of facilities for drama, music, sports, welfare support and careers advice, as well as religious worship.

The College employs Senior Research Fellows as well as Junior Research Fellows who, at an early career stage, have already shown outstanding promise in their chosen field of research, to enable them to concentrate on their research topic and to develop their career.

Recruitment and support for students

The College offers undergraduate places on the basis of academic merit. The College aims to attract students who are most able to benefit from an Oxford education regardless of sex, gender, income, ethnic origin, religion, disability or previous educational opportunity, and actively works to recruit students from

Report of the Governing Body Year ended 31 July 2020

non-traditional backgrounds by promoting access. There are no geographical restrictions in the College's objectives and students and academic staff are drawn from across the UK and the wider world.

The College charges students fees which, where applicable, are set in accordance with rates approved by Government, and for accommodation and meals at affordable rates.

Financial support is available to students in financial need to assist them with the costs of tuition fees and living costs whilst at the College. In addition to student grants and loans available to undergraduates from within the EU, other financial support, in the form of an Oxford Bursary, is available to UK undergraduates who are from households where income is below a certain level. During the course of the academic year, 45 (2019 - 44) students received total support from the University and College in the form of fee reductions and bursaries of £172,000 (2019 - £178,000) under this programme; the cost to the College was £72,000 (2019 - £73,000). A further £69,000 (2019 - £58,000) in financial support was provided to undergraduates and graduates directly by the College.

The College also awarded scholarships, prizes and grants to undergraduates and graduates amounting to £379,000 (2019 – £318,000), of which £278,000 was awarded in scholarships to 26 graduate students.

ACHIEVEMENTS AND PERFORMANCE

The final term of the 2019/20 academic year was severely affected by the COVID-19 epidemic. The vast majority of students remained at home for the entire term, with all teaching and examinations carried out remotely. Despite the unique challenges that this situation presented, Trinity's undergraduates were again successful in Finals, exceeding last year's performance. 42 (2019 - 28) students securing a First and 43 (2019 - 52) a 2:1. The percentage achieving a 2:1 or better was over 97% (2019 - 95%). Of the graduates, 44 (2019 - 44) completed their course of study, including 25 as of September 2020 (2019 - 17 as of August 2019) who were awarded their Doctorate of Philosophy.

All Tutorial Fellows continued to undertake research, involving the preparation and completion of monographs and peer-reviewed articles, as one core part of their duties. A report on the individual activities of the President and Fellows can be found in the Trinity College Report 2019-20, which can be obtained directly from the College.

Whilst the students' academic success is a key objective, the College seeks to enable students to participate fully in University and College sporting, cultural and recreational activities, and many students continue to do so. At the College level, student clubs and societies, notably the Trinity Players, the Boat Club, the Music Society and the Trinity Orchestra, are particularly active. Due to the disruptions of COVID-19, on the sporting front, only 2 students compared to 18 in 2019 won Blues or Half Blues during the year.

The Access Department, with the support of a number of undergraduate student assistants, continued to organise a programme of events and activities to encourage able school pupils from all educational backgrounds to consider applying to Oxford University. Further information about outreach and access activity over the year can be found in the Trinity College Report 2019-20.

FINANCIAL REVIEW

The direct adverse financial impact of College closure brought about by COVID-19 is evident in the income generated by charitable activities and other trading income. Income from the College's teaching activities and from residential lettings declined by £1,192,000 on the previous year to £4,169,000 (2019 £5,361,000) while income from conference trading fell by 44% from £438,000 to £247,000.

Donation and legacy income for the year amounted to £2,440,000. This was an increase of more than a million pounds on last year's comparable income of £1,417,000. The donations specifically made to the appeal to fund the new Levine Building were in excess of £1,420,000. The College continues to invest in its alumni relations and development activities, income from donations and legacies being an important means of

Report of the Governing Body Year ended 31 July 2020

both helping to secure the College's long-term financial sustainability and to support current students. The Governing Body is grateful to all donors who have supported the College over the past year, and previously.

Expenditure did not decrease at the same rate as income mainly because staff continued to receive their full pay throughout the year and capital and maintenance projects continued as planned. The College did receive £352,000 from the Government's Coronavirus Job Retention Scheme. Around 70 members of non-academic staff were furloughed and were on full pre-furloughed salary whilst furloughed. There were also savings on purchases from the catering departments and on utilities charges when the College was closed. Compared with the prior year, total expenditure decreased by £596,000 from £9,916,000 to £9,320,000. However the 2019 figure was inflated by a substantial increase in the College's pension provisions.

Total expenditure on teaching, research and residential costs amounted to £8,425,000, compared to an expenditure of £8,688,000 in 2019. However, the apparent decrease of £263,000 is explained by movements in pension provisions in both years and the underlying position is in fact a year-on-year increase in expenditure of £709,000 (9%). Expenditure on raising funds decreased by £333,000 to £895,000 (27%). This reduction was mainly the result of reduced trading activity, caused by COVID-19. The depreciation charge decreased to £751,000 (2019 - £764,000). Depreciation of the Levine Building will only commence once the construction of the building is complete.

The College continues, for the third year, to invest on a total return basis in order to balance the needs and interests of current beneficiaries of the College's activities with those of future beneficiaries. The College total return rate is whereby notional income is calculated as 2.5% of the closing capital values of funds, averaged over the most recent five years, net of all fees. The intentions of this policy are, firstly, to achieve overall higher levels of investment returns by removing the constraint of being required to produce natural income rather than capital growth; and, secondly, to smooth income between years, allowing the College to plan more effectively for medium-term expenditure. In the year ending July 2020, the total return gains allocated to income for the year amounted to £3,812,000 (2019 £3,588,000). Excluding total returns generated from unrestricted funds, total returns specifically from the endowed funds of £3,613,000 (2019 £3,397,000) were allocated to income in the restricted and unrestricted funds. In 2020, total natural investment income was £3.441.000 (2019 £3.385.000). An investment in the Lansdowne Developed Markets Long Only Fund continued to underperform and was fully divested in September. Ex-Lansdowne funds were reinvested in Royal London Asset Management cash funds to facilitate cash-flow requirements for the College, including the Levine Building. Donations received specifically for the Levine Building were expended to fund construction costs during the year, with the remaining balance at the year end held ring-fenced in a cash account.

International equity markets recovered sharply from the initial nosedive response to the impact of the outbreak of the COVID-19 to finish on a high in the final quarter of our financial year. However, with Brexit remaining a concern, UK equity markets failed to recover in the same way. Within markets, sector by sector performance has been remarkably uneven. Traditional stocks, such as fossil fuel energy producers, saw dramatic price decreases whist others, such as technology stocks, saw equally dramatic rises. Overall, the performance of the College's equity portfolio was very strong. The College's strategic decisions to a) diversify its investments away from the UK, and b) apply an Environmental, Social and Governance (ESG) policy to its investment choices, have been rewarded. The total value of the College's liquid investments (including those reclassified as current assets) grew by £1,779,000 (1.55%), to £116,208,000. The increase included net investment capital gains of £4,199,000 (3.7%). Sales and disposals in year amounted to £8,720,000 (which included the disinvestment of Lansdowne funds). £6,300,000 of the disinvested Lansdowne funds were invested in the RLAM. Following the scheduled 5-year formal valuation of the agricultural and commercial properties carried out by Carter Jonas LLP, the value of the property portfolio recorded gains of £5,398,000. Land and property additions totalled £593,000 with proceeds of land disposals totalling £1,584,000. The property investment portfolio closed the year with a total value of £58,979,000 (2019: £54,573,000). Overall investment gains for the year totalled £9,597,000, compared with a gain of £18,286,000 in the prior year.

Report of the Governing Body Year ended 31 July 2020

The College continues to dispose of units on the Bretch Hill site. Sales in the year of £1,549,000 have brought the total proceeds received as at the end of July 2020 to £6,464,000 with a further £7,464,000 expected by July 2024 based on a conservative minimum sale of 58 plots each year. In accordance with FRS102 a discount rate (5% per year) has been applied to future receipts from the first transaction to reflect in the net present value the College's cost of capital and the small risk which arises from the longer term nature of the agreement. The College will continue to explore development opportunities across its property portfolio.

The College operates two pension schemes, the Universities Superannuation Scheme and the Oxford Staff Pension Scheme. From 1st October 2017, the benefits for all new entrants to the Oxford Staff Pension Scheme accrue on a defined contribution basis. Existing defined benefit arrangements will remain in place for continuing employees within the Oxford Staff Pension Scheme and for all employees within the Universities Superannuation Scheme. The College's liability for its share of the total deficit funding contributions in both schemes at 31st July 2020 was £1,961,000 (2019: £2,068,000). Further information about the pension schemes can be found in Note 23 to the financial statements.

Reserves policy

The College's reserves policy is to maintain sufficient free reserves to enable it to meet its short-term financial obligations in the event of an unexpected revenue shortfall, to allow the College to be managed efficiently and to provide a buffer that would ensure uninterrupted services.

Total funds of the College and its subsidiaries at the year-end amounted to £193,684,000 (2019: £182,758,000). This includes endowment capital of £164,267,000 and unspent restricted income funds totalling £4,696,000. Free reserves at the year-end amounted to £6,358,000 (2019: £6,605,000), representing retained unrestricted income reserves excluding an amount of £20,232,000 (2019:£13,845,000) for the book value of tangible fixed assets, other designated funds amounting to £70,000 (2019: £70,000) and holdings by subsidiaries of £23,000 (2019: £23,000).

The value of the free reserves of the College represents less than one year's total expenditure, and therefore is considered by the Trustees to be an appropriate sum. However, the College has outstanding property improvements which will, in due course, reduce the free reserves.

Risk management

The College has on-going processes for identifying, evaluating and managing the principal risks and uncertainties faced by the College and its subsidiaries. When it is not able to address risk issues using internal resources, the College takes advice from experts external to the College with specialist knowledge. Policies and procedures within the College are reviewed by the relevant College Committee. Financial risks are assessed by the Bursarial Committee and investment risks are monitored by the Investment Committee. The Domestic Bursar and domestic staff heads of department meet regularly to review health and safety issues. Training courses and other forms of career development are available to members of staff to enhance their skills in risk-related areas.

The Governing Body, who have ultimate responsibility for managing any risks faced by the College, have reviewed the processes in place for managing risk and the principal identified risks to which the College and its subsidiaries are exposed and have concluded that adequate systems are in place to manage these risks.

In 2020 the unprecedented outbreak of COVID-19 presented a new and very significant risk to the College. The health and safety of students and employees became the paramount concern of the trustees. With the help of many outside agencies and in line with Government advice, the risks were successfully managed with a balanced programme of mitigating measures.

Following the 2016 referendum on the United Kingdom's membership of the European Union (Brexit), the consequences for the higher education sector remain unclear. In conjunction with the University, the College continues to monitor developments.

As stated above, income from donations and legacies continues to make an important contribution to the College's financial sustainability, both in the short and longer term. Given the voluntary nature of this support,

Report of the Governing Body Year ended 31 July 2020

the College continues to be aware of the risk of losing the goodwill of its Old Members and other friends. The Governing Body will continue to closely monitor the College's alumni relations and fund-raising activities to ensure that they comply with the evolving regulatory environment.

Investment policy, objectives and performance

The College's investment objectives are to balance the needs of current and future beneficiaries by:

- · increasing the value of the investments in real terms over time;
- producing a consistent and sustainable return to support expenditure;
- observing the restrictions applied by the College's Socially Responsible Investment Policy; and
- delivering these objectives within acceptable levels of risk.

At the year end, the College's long term investments, combining property and other investments, totalled £172,248,000 (2019 - £161,221,000), an overall increase of 6.84%.

Fundraising through donations

Trinity College is committed to implementing best practice in its fundraising activities in line with the guidance provided by the Fundraising Regulator and the Institute of Fundraising. The College's fundraising policy, which is displayed on the website, is in line with the code of practice provided by the Institute of Fundraising. It is followed by all members of the fundraising team.

The College employs five, professional, full-time members of staff in the Alumni & Development Office; their roles cover both fundraising and alumni relations, which are closely connected. From time to time assistance is sought from external consultants, notably in the case of telephone fundraising. On such occasions, the College enters into a formal written agreement with these consultants and monitors their work.

The Development Committee discusses fundraising and, along with the Governing Body to whom it reports, monitors the work of the fundraising team. The College's fundraising policy is brought to the Development Committee each year for review and, when agreed, it is endorsed by the trustees and an updated version displayed on the College website.

Fundraising is not directed at the general public. Instead, gifts are solicited only from individuals with whom the College has an active relationship – Old Members (alumni) and Friends – or those individuals or organisations that have been carefully identified as having a potential interest in supporting a specific activity or initiative. The College has always subscribed to the view that all gifts should be made without coercion, as an informed decision, with full transparency and agreement regarding the use of the gift.

Individuals are not subject to constant requests for donations. They are not approached directly with a solicitation more than once in any financial year. The College employs a range of direct solicitation methods, which include telethons and letters, as well as face-to-face approaches.

Members of the fundraising team do not intrude on the privacy of potential donors, nor adopt persistent or aggressive behaviour. If any individual or organisation asks to be excluded from fundraising approaches, this is recorded on the database and acted upon immediately so that they are excluded from all forms of solicitation, or those forms from which they have asked to be excluded.

Potential donors are not put under undue pressure to make a donation. In telethons, the student callers are trained carefully to ensure that they do not adopt an aggressive approach and while the callers ask for donations, this is only one element of the call. Meetings are conducted sensitively and when a meeting is requested, it is made clear that it has a fundraising purpose.

When the College is aware that someone is vulnerable, such a person is not approached for a donation. Should a donation be made at a time when the donor was not able to make an informed decision, but this was not clear to the fundraiser at the time, such a donation would be returned.

Trinity has not received any complaints about its fundraising activities. The college's policy for the handling of complaints is displayed on the website and follows Institute of Fundraising best practice.

TRINITY COLLEGE Report of the Governing Body

Year ended 31 July 2020

FUTURE PLANS

The College will continue to recruit and retain world class academics to undertake both teaching and research, and the most academically able students from the widest possible background, with a particular focus on encouraging applicants from communities that are under-represented at Oxford University. The College will continue to provide academic teaching and guidance to its students so they can achieve to the best of their abilities, and to provide the facilities and environment required for the development and enjoyment of students outside their academic studies.

In October 2018 the College received planning consent for the construction of a new building in its historic Broad Street grounds. The building, which will be named The Levine Building, will include 46 study bedrooms, an auditorium, teaching rooms, an extension to the library, a large function room and an informal social/study space. Construction work begun in July 2019 and is expected to complete in December 2021. Although the project has experienced a small delay due to COVID-19, it remains on budget. A further planning application has been submitted for the refurbishment of the Hall, Kitchen and SCR range of buildings. This major project is scheduled to start in January 2022.

STATEMENT OF ACCOUNTING AND REPORTING RESPONSIBILITIES

The Governing Body is responsible for preparing the Report of the Governing Body and the financial statements in accordance with applicable law and regulations.

Charity law requires the Governing Body to prepare financial statements for each financial year. Under that law the Governing Body have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 102: The Financial Reporting Standard Applicable in the UK and Republic of Ireland (FRS 102).

Under charity law the Governing Body must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the College and of its net income or expenditure for that period. In preparing these financial statements, the Governing Body is required to:

- select the most suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards, including FRS 102, have been followed, subject to any
 material departures disclosed and explained in the financial statements;
- state whether a Statement of Recommended Practice (SORP) applies and has been followed, subject to any material departures which are explained in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the College will continue to operate.

The Governing Body is responsible for keeping proper accounting records that are sufficient to show and explain the College's transactions and disclose with reasonable accuracy at any time the financial position of the College and enable them to ensure that the financial statements comply with the Charities Act 2011. They are also responsible for safeguarding the assets of the College and ensuring their proper application under charity law and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Governing Body on 25th November 2020 and signed on its behalf by:

Dame Hilary Boulding DBE President

Auditor's Report

Year ended 31 July 2020

Independent auditor's report to the Members of the Governing Body of Trinity College Opinion

We have audited the financial statements of Trinity College (the "Charity") for the year ended 31 July 2020 which comprise the Statement of Accounting Policies, the Consolidated Statement of Financial Activities, the Consolidated and College Balance Sheets, the Consolidated Cash Flow Statement and notes to the financial statements. The financial reporting framework that has been applied in their preparation is applicable under law and United Kingdom Accounting Standards, including Financial Reporting Standard 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the group and charity's affairs as at 31 July 2020 and of the group's income and expenditure for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Charities Act 2011.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Members of the Governing Body's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Members of the Governing Body have not disclosed in the financial statements any identified
 material uncertainties that may cast significant doubt about the Charity's ability to continue to adopt
 the going concern basis of accounting for a period of at least twelve months from the date when the
 financial statements are authorised for issue.

Other information

The Members of the Governing Body are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a

Auditor's Report

Year ended 31 July 2020

material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities Act 2011 requires us to report to you if, in our opinion:

- · sufficient accounting records have not been kept;
- the financial statements are not in agreement with the accounting records and returns; or
- we have not obtained all the information and explanations necessary for the purposes of our audit.

Responsibilities of the Members of the Governing Body

As explained more fully in the Statement of Accounting and Reporting Responsibilities [set out on page 10], the Members of the Governing Body are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Members of the Governing Body are responsible for assessing the Charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Members of the Governing Body either intend to liquidate the Charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the College's Governing Body, as a body, in accordance with section 144 of the Charities Act 2011 and the regulations made under section 154 of that Act. Our audit work has been undertaken so that we might state to the Members of the Governing Body those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the College's Governing Body as a body, for our audit work, for this report, or for the opinions we have formed.

Date:

Critchleys Audit LLP is eligible to act as an auditor in terms of sections 1212 of the Companies Act 2006.

TRINITY COLLEGE Statement of Accounting Policies

Year ended 31 July 2020

STATEMENT OF ACCOUNTING POLICIES

1. Scope of the financial statements

The financial statements present the Consolidated Statement of Financial Activities (SOFA), the Consolidated and College Balance Sheets and the Consolidated Statement of Cash Flows comprising the consolidation of the College and with its wholly owned subsidiaries, Trinity College Oxford Limited and Trinity College Developments Limited. The subsidiaries have been consolidated from the date of their formation being the date from which the College has exercised control through voting rights in the subsidiaries. No separate SOFA has been presented for the College alone as currently permitted by the Charity Commission on a concessionary basis for the filing of consolidated financial statements. A summary of the results and financial position of the charity and each of its material subsidiaries for the reporting year are in note 13.

2. Basis of accounting

The College's individual and consolidated financial statements have been prepared in accordance with United Kingdom Accounting Standards, in particular 'FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland' (FRS 102).

The College is a public benefit entity for the purposes of FRS 102 and a registered charity. The College has therefore also prepared its individual and consolidated financial statements in accordance with 'The Statement of Recommended Practice applicable to charities preparing their financial statements in accordance with FRS 102' (The Charities SORP (FRS 102)).

The financial statements have been prepared on a going concern basis and on the historical cost basis, except for the measurement of investments and certain financial assets and liabilities at fair value with movements in value reported within the SOFA. The principal accounting policies adopted are set out below and have been applied consistently throughout the year.

3. Accounting judgements and estimation uncertainty

In preparing financial statements it is necessary to make certain judgements, estimates and assumptions that affect the amounts recognised in the financial statements. The following judgements and estimates are considered by the Governing Body to have most significant effect on amounts recognised in the financial statements.

The College carries its property investments at open market value on the balance sheet, with changes in valuation being recognised in the income and expenditure section of the SOFA. Independent valuations are obtained periodically, as required, to determine fair value at the balance sheet date. Internal valuations are undertaken in the intervening years.

The College participates in two multi-employer defined benefit pension schemes. In the judgement of the Governing Body, there is insufficient information about the plan assets and liabilities to be able to reliably account for its share of the defined benefit obligation and plan assets in the financial statements and therefore the plans are accounted for as defined contribution plans (see note 23).

With respect to the next financial year, the most significant areas of uncertainty that affect the carrying value of assets held by the College are the level of investment return and the performance of investment markets.

4. Income recognition

All income is recognised once the College has entitlement to the income, the economic benefit is probable and the amount can be reliably measured.

a. Income from fees, Office for Students support and other charges for services

Fees receivable, Office for Students support and charges for services and use of the premises are recognised in the period in which the related service is provided.

Statement of Accounting Policies

Year ended 31 July 2020

b. Income from donations and legacies

Donations and grants that do not impose specific future performance-related or other specific conditions are recognised on the date on which the charity has entitlement to the resource, the amount can be reliably measured and the economic benefit to the College of the donation or grant is probable. Donations and grants subject to performance-related conditions are recognised as and when those conditions are met. Donations and grants subject to other specific conditions are recognised as those conditions are met or their fulfilment is wholly within the control of the College and it is probable that the specified conditions will be met.

Legacies are recognised following grant of probate and once the College has received sufficient information from the executors of the deceased's estate to be satisfied that the gift can be reliably measured and that the economic benefit to the College is probable.

Donations and legacies accruing for the general purposes of the College are credited to unrestricted funds.

Donations and legacies which are subject to conditions as to their use imposed by the donor or set by the terms of an appeal are credited to the relevant restricted fund or, where the donation, grant or legacy is required to be held as capital, to the endowment funds. Where donations are received in kind (as distinct from cash or other monetary assets), they are measured at the fair value of those assets at the date of the aift.

c. Investment income

Interest on bank balances is accounted for on an accrual basis with interest recognised in the period to which the interest relates.

Income from fixed interest debt securities is recognised using the effective interest rate method.

Dividend income and similar distributions are recognised on the date the share interest becomes exdividend or when the right to the dividend can be established.

Income from investment properties is recognised in the period to which the rental income relates.

d. Total return accounting for investments

The Trustees have adopted a duly authorised policy of total return accounting for the College investment returns with effect from 1st August, 2017. The investment return to be applied as income is calculated as 2.5% (plus costs) of the average of the year-end values of the relevant investments in each of the last 5 years. For new funds less than 5 years old, the average is based on the age of the fund. The preserved (frozen) value of the invested endowment capital is either based on actual donation values or represents its open market value in 2005 together with all subsequent endowments valued at date of gift. The rate of return will be reviewed by the Governing Body at intervals of five years, with the first review due to take place in 2022.

5. Expenditure

Expenditure is accounted for on an accruals basis. A liability and related expenditure is recognised when a legal or constructive obligation commits the College to expenditure that will probably require settlement, the amount of which can be reliably measured or estimated.

Grants awarded that are not performance-related are charged as an expense as soon as a legal or constructive obligation for their payment arises. Grants subject to performance-related conditions are expensed as the specified conditions of the grant are met.

All expenditure including support costs and governance costs are allocated or apportioned to the applicable expenditure categories in the SOFA.

Support costs which includes governance costs (costs of complying with constitutional and statutory requirements) and other indirect costs are apportioned to expenditure categories in the SOFA based on the estimated amount attributable to that activity in the year, either by reference to staff time or the use made of the underlying assets, as appropriate. Irrecoverable VAT is included with the item of expenditure to which it relates.

Intra-group sales and charges between the College and its subsidiaries are excluded from trading income and expenditure in the consolidated financial statements.

Statement of Accounting Policies

Year ended 31 July 2020

6. Tangible fixed assets

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Expenditure on the acquisition or enhancement of land and on the acquisition, construction and enhancement of buildings which is directly attributable to bringing the asset to its working condition for its intended use and amounting to more than £1,000 together with expenditure on equipment costing more than £1,000 is capitalised.

Other expenditure on equipment incurred in the normal day-to-day running of the College and its subsidiaries is charged to the SOFA as incurred.

7. Depreciation

Depreciation is provided to write off the cost of all relevant tangible fixed assets, less their estimated residual value, in equal annual instalments over their expected useful economic lives as follows:

Freehold properties, including major extensions 50 years

Leasehold properties 50 years or period of lease if shorter

Building improvements 10 - 20 years Equipment 2 -10 years

Freehold land is not depreciated. The cost of maintenance is charged in the SOFA in the period in which it is incurred.

At the end of each reporting period, the residual values and useful lives of assets are reviewed and adjusted if necessary. In addition, if events or change in circumstances indicate that the carrying value may not be recoverable then the carrying values of tangible fixed assets are reviewed for impairment.

8. Heritage Assets

The College has chosen to hold heritage assets at cost. The College has a number of assets, including works of art, ancient books and manuscripts and silver that meet the definition of heritage assets under the SORP. Items purchased are recognised at cost and items donated to the College are recognised at fair value. The College has taken advantage of the exemption within FRS 102 not to disclose transactions before 1 January 2015 as obtaining fair values for these assets would be impracticable and the cost of obtaining such valuations would outweigh the benefits to the users of these financial statements.

9. Investments

Investment properties are initially recognised at their cost and subsequently measured at their fair value (market value) at each reporting date. Purchases and sales of investment properties are recognised on exchange of contracts.

Listed investments are initially measured at their cost and subsequently measured at their fair value at each reporting date. Fair value is based on their quoted price at the balance sheet date without deduction of the estimated future selling costs.

Investments such as hedge funds and private equity funds which have no readily identifiable market value are initially measured at their costs and subsequently measured at their fair value at each reporting date without deduction of the estimated future selling costs. Fair value is based on the most recent valuations available from their respective fund managers.

Changes in fair value and gains and losses arising on the disposal of investments are credited or charged to the income or expenditure section of the SOFA as 'gains or losses on investments' and are allocated to the fund holding or disposing of the relevant investment.

Statement of Accounting Policies

Year ended 31 July 2020

Other financial instruments

a. Cash and cash equivalents

Cash and cash equivalents include cash at banks and in hand and short term deposits with a maturity date of three months or less.

b. Debtors and creditors

Debtors and creditors receivable or payable within one year of the reporting date are carried at their at transaction price. Debtors and creditors that are receivable or payable in more than one year and not subject to a market rate of interest are measured at the present value of the expected future receipts or payment discounted at a market rate of interest.

10. Stocks

Stocks are valued at the lower of cost and net realisable value, cost being the purchase price on a first in, first out basis.

11. Foreign currencies

The functional and presentation currency of the College and its subsidiaries is the pound sterling.

Transactions denominated in foreign currencies during the year are translated into pounds sterling using the spot exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into pounds sterling at the rates applying at the reporting date.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the exchange rates at the reporting date are recognised in the income and expenditure section of the SOFA.

12. Fund accounting

The total funds of the College and its subsidiaries are allocated to unrestricted, restricted or endowment funds based on the terms set by the donors or set by the terms of an appeal. Endowment funds are further sub-divided into permanent and expendable.

Unrestricted funds can be used in furtherance of the objects of the College at the discretion of the Governing Body. The Governing Body may decide that part of the unrestricted funds shall be used in future for a specific purpose and this will be accounted for by transfers to appropriate designated funds.

Restricted funds comprise gifts, legacies and grants where the donors have specified that the funds are to be used for particular purposes of the College. They consist of either gifts where the donor has specified that both the capital and any income arising must be used for the purposes given *or* the income on gifts where the donor has required or permitted the capital to be maintained and with the intention that the income will be used for specific purposes within the College's objects.

Permanent endowment funds arise where donors specify that the funds are to be retained as capital for the permanent benefit of the College.

Expendable endowment funds are similar to permanent endowment in that they have been given, or the College has determined based on the circumstances that they have been given, for the long term benefit of the College. However, the Governing Body may at their discretion determine to spend all or part of the capital.

13. Pension costs

Significant accounting policies

The College participates in Universities Superannuation Scheme and the University of Oxford Staff Pension Scheme. These schemes are hybrid pension schemes, providing defined benefits (for members), as well as defined contribution benefits. The assets of the schemes are each held in a separate trustee-administered fund. Because of the mutual nature of the schemes, the assets are not attributed to individual Colleges and scheme-wide contribution rates are set. The College is therefore exposed to actuarial risks associated with other Universities and Colleges employees and is unable to identify its share of the underlying assets and liabilities of the scheme on a consistent and reasonable

Statement of Accounting Policies Year ended 31 July 2020

basis. As required by Section 28 of FRS 102 "Employee benefits", the College therefore accounts for the schemes as if they were wholly defined contribution schemes. As a result, the amount charged to the profit and loss account represents the contributions payable to each scheme. Since the College has entered into agreements (the Recovery Plans) that determine how each employer within the schemes will fund the overall deficit, the college recognises a liability for the contributions payable that arise from the agreements (to the extent that they relate to the deficit) and therefore an expense is recognised.

Critical accounting judgements

USS notes: FRS 102 requires that accounting judgements which are considered to be critical by those charged with governance are explained in more detail as to why the judgement has been applied. The disclosure below may be useful where the treatment of the scheme as a multi-employer scheme and adopting defined contribution accounting is deemed to be critical.

FRS 102 makes the distinction between a group plan and a multi-employer scheme. A group plan consists of a collection of entities under common control typically with a sponsoring employer. A multi-employer scheme is a scheme for entities not under common control and represents an industry-wide scheme such as Universities Superannuation Scheme or one for employers in the same locality such as the University of Oxford Staff Pension Scheme. The accounting for a multi-employer scheme where the employer has entered into an agreement with the scheme that determines how the employer will fund a deficit results in the recognition of a liability for the contributions payable that arise from the agreement (to the extent that they relate to the deficit) and the resulting expense in profit or loss in accordance with section 28 of FRS 102. The Trustees of the College are satisfied that Universities Superannuation Scheme and the University of Oxford Staff Pension Scheme both meet the definition of a multi-employer scheme and have therefore recognised the discounted fair value of the contractual contributions under the recovery plans in existence at the date of approving the financial statements.

The 2019 resources expended of £9,916k represented £8,890k from Unrestricted funds, £748k from Restricted funds and £279k from Endowed funds.

The College is liable to be assessed for Contribution under the provisions of Statute XV of the University of Oxford. The Contribution Fund is used to make grants and loans to colleges on the basis of need. Contributions are calculated annually in accordance with regulations made by the Council of the University of Oxford.

6 ANALYSIS OF SUPPORT AND GOVERNANCE COSTS

	Generating Funds £'000	Teaching and Research £'000	2020 Total £'000
Financial administration	52	254	306
Domestic administration IT	22	(8) 192	(8) 214
		751	751
Depreciation Loss/(profit) on fixed assets	-		/51
Other finance charges	-	30	30
Governance costs	1	23	24
COVERNMENT SUCCESSION		20	
	75	1,242	1,317
	Generating Funds £'000	Teaching and Research £'000	2019 Total £'000
Financial administration	48	197	245
Domestic administration	-	(17)	(17)
IT Depreciation	18	160 764	178 764
Loss/(profit) on fixed assets	-	704	704
Bank interest payable	_	-	-
Other finance charges	-	24	24
Governance costs	2	32	34
<u> </u>	68	1,160	1,228

Financial and domestic administration, IT and human resources costs are attributed according to the estimated staff time spent on each activity. Depreciation costs and profit or loss on disposal of fixed assets are attributed according to the use made of the underlying assets. Governance costs are allocated by reference to the volume of activity across the College.

	2020 £'000	2019 £'000
Governance costs comprise:		
Auditor's remuneration - audit services	19	22
Auditor's remuneration - other services	2	-
Other governance costs	3	12
	24	34

No amount has been included in governance costs for the direct employment costs or reimbursed expenses of the College Fellows on the basis that these payments relate to the Fellows involvement in the College's charitable activities. Details of the remuneration of the Fellows and their reimbursed expenses are included as a separate note within these financial statements.

7 GRANTS AND AWARDS	2020 £'000	2019 £'000
During the year the College funded awards and bursaries to students from its restricted and unrestricted fund as follows:		
Unrestricted funds		
Grants to individuals:		
Scholarships, prizes and grants	19	16
Bursaries and hardship awards Total unrestricted	<u>11</u> 30	16 32
Total unrestricted		32
Restricted funds		
Grants to individuals:		
Scholarships, prizes and grants	360	302
_ Bursaries and hardship awards	130	115
Total restricted	490	417
Total grants and awards	520	449

The figure above includes the cost to the College of the Oxford Bursary Scheme. Students of this college received £72k (2019: £73k). Some of those students also received fee waivers amounting to £57k (2019: £53k).

The above costs are included within the charitable expenditure on Teaching and Research. Other institutions comprise local charities.

8 STAFF COSTS

The aggregate staff costs for the year were as follows.	2020 £'000	2019 £'000
Salaries and wages Social security costs	4,475 405	4,058 365
Pension costs: (see note 23) Defined benefit schemes Defined contribution schemes	563 107	1,455 62
Other benefits	123	82
	5,672	6,020
The average number of employees of the College, excluding Trustees, on a full time equivalent basis was as follows.	2020	2019
Tuition and research College residential	11 58	11 58
Fundraising Support	5 18	5 18
Total	92	92
The average number of employed College Trustees during the year was as follows.		
University Lecturers CUF Lecturers	19 7	19 7
Other teaching and research Other	4 5	4 5
Total	35	35

The following information relates to the employees of the College excluding the College Trustees. Details of the remuneration and reimbursed expenses of the College Trustees is included as a separate note in these financial statements.

Four employees received gross pay and benefits (excluding NI and pension contributions) during the year within the £60,001 to £70,000 band (2019 - two).

At start of year	13,494	351	13,845
	<u> </u>		

The College has substantial long-held historic assets all of which are used in the course of the College's teaching and research activities. These comprise listed buildings on the College site, together with their contents comprising works of art, ancient books and manuscripts and other treasured artefacts. Because of their age and, in many cases, unique nature, reliable historical cost information is not available for these assets and could not be obtained except at disproportionate expense. However, in the opinion of the Trustees the depreciated historical cost of these assets is now immaterial.

10 HERITAGE ASSETS

The College has collections of works of art, ancient books and manuscripts and silver which are held and maintained for their contribution to knowledge and culture. Because of their age, reliable historical cost information is not available for these assets and could not be obtained except at disproportionate expense. However, in the opinion of the Trustees, the depreciated historical cost of these assets is now immaterial.

All heritage assets are maintained securely and conservation works are undertaken as and when advised by specialists to be necessary. Public access is possible by arrangement with the College.

There were no material acquisitions or disposals of heritage assets in recent years.

11 PROPERTY INVESTMENTS

Group and College	Agricultural £'000	Commercial £'000	Dev't and Other £'000	2020 Total £'000	2019 Total £'000 Notes 32a, 32b

13 PARENT AND SUBSIDIARY UNDERTAKINGS

The College holds 100% of the issued share capital in Trinity College Oxford Limited (TCOL), a company providing conference and other event services on the College premises, and 100% of the issued share capital in Trinity College Developments Limited (TCDL), a company providing design and build construction services to the College. The investments are 1 ordinary £1 share in each company.

The results and their assets and liabilities of the parent and subsidiaries at the year end were as follows:

	Trinity College	TCOL	TCDL
	£'000	£'000	£'000
Income Expenditure Donation to College under gift aid Gains/(Losses)	10,649 (9,320) 154 9,597	246 (160) (86)	5,781 (5,713) (68)
Result for the year	11,080

Net funds at the end of year	193,662		23

14 STATEMENT OF INVESTMENT TOTAL RETURN

The Trustees have adopted a duly authorised policy of total return accounting for the College investment returns with effect from 1st August, 2017. The investment return to be applied as income is calculated as 2.5% (plus costs) of the average of the year-end values of the relevant investments in each of the last 5 years. For new funds less than 5 years old, the average is based on the age of the fund. The preserved (frozen) value of the invested endowment capital is either based on actual donation values or represents its open market value in 2005 together with all subsequent endowments valued at date of gift.

20 FUNDS OF THE COLLEGE DETAILS

The following is a summary of the origins and purposes of each of the major Funds

Endowment Funds - Permanent:

Permanent Endowment Fund A consolidation of gifts and donations which comprise the historic endowment of the

College, which the Governing Body considers to be permanent endowment.

Frank Chadwick Fund For general purposes.
Ford Fund For general purposes.
Millard Fund For general purposes.
Blakiston Fund For general purposes.
For general purposes.

Dr Blakiston's Fund
To fund improvements to the fabric of the College.
Dr W Hunt Fund
To fund extraordinary repairs to the fabric of the College.

Mrs J H McKeown Fund Scholarship fund.

Professor John Mitchell Fund
To fund awards for outstanding 3rd and 4th year undergraduates.
Bursaries Fund
Fund created in 1870's to pool earlier smaller funds; student support.

W P Haskett-Smith Fund Student support.

Whitehead Travelling Fund To fund a travel award; balance for general purposes.

Jeffrey Abbott Fund Scholarship fund.
Stephen Christie-Miller Fund Student support.

War Memorial Fund To fund library expenditure.

Endowment Funds - Expendable:

War Memorial Fund Student support.

Brown Fellowship Fund To fund the Fellowship in Classics.

Hunt-Grubbe Fellowship Fund To fund the Fellowship in Engineering Sciences.

Henry Birkhead Fund

To fund study, education or research in history, literature or arts.

King's Group Fund Scholarship Fund.

Restricted Funds:

New Building fund Funds donated towards Levine Building. Expenditure of £6,395m in 2019-20 transferred out

of the restricted fund to the fixed asset designated fund

Designated Funds

Pension Reserve

Fixed asset designated Unrestricted Funds which are represented by the fixed assets of the College

and therefore not available for expenditure on the College's general purposes. The pension reserve represents the amounts included in the balance sheet

as a provision for future deficit reduction contributions

The transfers between funds reflected in Note 19 arise from resolutions approved by the Charity Commission or reclassifications better to reflect the purpose of donors.

The General Unrestricted Funds represent accumulated income from the College's activities and other sources that are available for the general purposes of the College.

21 ANALYSIS OF NET ASSETS BETWEEN FUNDS

22 TRUSTEES' REMUNERATION

The Fellows who are the Trustees of the College for the purposes of charity law receive no remuneration for acting as charity trustees but are paid by either or both of the University and the College for the academic and other services they provide to the College.

Trustees of the College fall into the following categories:

The President

Professorial Fellows

Tutorial Fellows

Official Fellows

Fellows by Special Election

Junior Research Fellows

No trustee receives any remuneration for acting as a trustee. However, those trustees who are also employees of the College receive salaries for their work as employees. These salaries are paid on external academic and academic-related scales and often are joint arrangements with the University of Oxford.

Tutorial, Official and Junior Research Research Fellows are eligible for a Housing Allowance, which is disclosed within the salary figures below. Seven trustees live in property owned by the College.

The College has a Remuneration Committee which makes recommendations to the Governing Body on pay and benefits which are outside of external scales. The composition of the Remuneration Committee is set out on page 5 of the Annual Report.

Eight trustees are not employees of the College and do not receive remuneration.

All trustees may eat at common table, as can all other employees who are entitled to meals while working.

Other transactions with trustees

No trustee claimed expenses for any work performed in discharge of duties as a trustee.

No termination and supplementary payments were made to trustees.

See also note 29 Related Party Transactions

Key management remuneration

The total remuneration (including employers national insurance) paid to key management, including the Trustees of the College, was £1,851,000 (2019: £1,638,000).

23 PENSION SCHEMES

Trinity College participates in two principal pension schemes for its staff – the Universities Superannuation Scheme (USS) and the University of Oxford Staff Pension Scheme (OSPS). The assets of each scheme are held in separate trustee-administered funds. USS and OSPS are contributory mixed benefit schemes (i.e. they provide benefits on a defined benefit basis – based on length of service and pensionable salary – and on a defined contribution basis – based on contributions into the scheme). Both are multi-employer schemes and Trinity College is unable to identify its share of the underlying assets and liabilities relating to defined benefits of each scheme on a consistent and reasonable basis. Therefore, in accordance with the accounting standard FRS 102 paragraph 28.11, Trinity College accounts for the schemes as if they were defined contribution schemes. As a result, the amount charged to the Income and Expenditure Account represents the contributions payable to the schemes in respect of the accounting period. In the event of the withdrawal of any of the participating employers in USS or OSPS, the amount of any pension funding shortfall (which cannot be otherwise recovered) in respect of that employer will be spread across the remaining participating employers and reflected in the next actuarial valuation of the scheme.

Trinity College has also made available the National Employment Savings Trust for employees who are eligible under automatic enrolment regulations to pension benefits but not eligible for either USS or OSPS.

Schemes accounted for under FRS 102 paragraph 28.11 as defined contribution schemes

Actuarial valuations Qualified actuaries periodically value the USS and OSPS schemes using the 'projected unit method', embracing a market value approach. The resulting levels of contribution take account of actuarial surpluses or deficits in each scheme. The financial assumptions were derived from market conditions prevailing at the valuation date. The results of the latest actuarial valuations and the assumptions which have the most significant effect on the results.

Effective date of next valuation:	31/03/2020	31/03/2022

Trinity College Notes to the financial statements For the year ended 31 July 2020

a. The discount rate (forward rates) for the USS valuation was:

Years 1-10: CPI + 0.14% reducing linearly to CPI – 0.73%

Years 11-20: CPI + 2.52% reducing linearly to CPI + 1.55% by year 21

Years 21 +: CPI + 1.55%

b. The discount rate for the OSPS valuation was:

Pre-retirement: Equal to the UK nominal gilt curve at the valuation date plus 2.25% p.a. at each term. Post-retirement: Equal to the UK nominal gilt curve at the valuation date plus 0.5% p.a. at each term.

c. Pensions increases (CPI) for the USS valuation were:

Term dependent rates in line with the difference between the Fixed Interest and Index Linked yield curves, less 1.3% p.a

d. Increases to pensions in payment for the OSPS valuation were:

RPI inflation is derived from the geometric difference between the UK nominal gilt curve and the UK index-linked curve at the valuation date, less 0.3% p.a. at each term. CPI inflation is derived from the RPI inflation assumption, less the Scheme Actuary's best estimate of the long-term difference between RPI and CPI inflation as applies from time to time (1.0% p.a. as at 31 March 2019).

For pension increases linked to inflation, a pension increase curve is constructed based on either the RPI, CPI or the average of the RPI and CPI inflation curves described above, adjusted to allow for the different maximum and minimum annual increases that apply, and the Scheme Actuary's best estimate of inflation volatility as applies from time to time.

e. The USS and OSPS employer contribution rates include provisions for the cost of future accrual of defined benefits, deficit contributions, administrative expenses and defined contributions.

Sensitivity of actuarial valuation assumptions

Surpluses or deficits which arise at future valuations may impact on the College's future contribution commitment. The sensitivities regarding the principal assumptions used to measure the scheme liabilities are set out below:

Assumption	USS Change in assumption	Impact on USS liabilities
Initial discount rate	increase by 0.1%	decrease by £1.2bn
Asset values	reduce by 10%	increase by £6.4bn
RPI inflation	increase by 0.1%	decrease by £0.7bn
Rate of mortality	more prudent assumption (mortality rated down by a further year)	increase by £1.6bn

OSPS Change in assumption	Impact on OSPS technical provisions (from 80% funded
decrease by 0.25%	increase by £45m
increase by 0.25%	Increase by £40m
	Change in assumption decrease by 0.25%

Deficit Recovery Plans

In line with FRS 102 paragraph 28.11A, the College has recognised a liability for the contributions payable for the agreed deficit funding plan. The principle assumptions used in these calculations are tabled below:

	OSPS	USS
Finish Date for Deficit Recovery Plan Average staff number increase Average staff salary increase	30/06/2028 2 1.50%	31/03/2028 2 1.50%
Average discount rate over period	0.63%	0.74%

A provision of £1.961m has been made at 31 July 2020 (2019 - £2.068m) for the present value of the estimated future deficit funding element of the contributions payable under these agreements, using the assumptions shown. The provision reduces as the deficit is paid off according to the pension recovery scheme.

Pension charge for the year

The pension charge recorded by the College during the accounting period (excluding pension finance costs) was equal to the contributions payable after allowance for the deficit recovery plan as follows:

Scheme	2020	2019
	£000's	£000's
Universities Superannuation Scheme:		
Continuing charges	345	266
Pension provision change	-122	664
University of Oxford Staff Pension Scheme:		
Continuing charges	417	372
Pension provision change	14	200
Other schemes – contributions	14	14
Total	669	1516

These amounts include £106,600 (2019: £61,500) contributions payable to defined contribution schemes at rates specified in the rules of those plans.

Included in creditors are pension contributions payable of £59,400 (2019: £59,400).

24 TAXATION

The College is able to take advantage of the tax exemptions available to charities from taxation in respect of income and capital gains received to the extent that such income and gains are applied to exclusively charitable purposes. No liability to corporation tax arises in the College's subsidiary company(ies) because the directors of this/these company(ies) have indicated that they intend to make donations each year to the College equal to the taxable profits of the company under the Gift Aid scheme. Accordingly no provision for taxation has been included in the financial statements.

27 FINANCIAL COMMITMENTS

At 31 July 2020 the College had annual commitments of £62.5k under non-cancellable operating leases (2019- nil).

28 CAPITAL COMMITMENTS

The College had contracted commitments at 31 July 2020 for future capital projects totalling £18,322,000 (2019 - £1,630,000).

29 RELATED PARTY TRANSACTIONS

The College is part of the collegiate University of Oxford. Material interdependencies between the University and of the College arise as a consequence of this relationship. For reporting purposes, the University and the other Colleges are not treated as related parties as defined in FRS 102

Members of the Governing Body, who are the trustees of the College and related parties as defined by FRS 102, receive remuneration and facilities as employees of the College. Details of these payments and reimbursed expenses as trustees are disclosed separately in Note 22.

The number of loans to trustees outstanding as at 31 July with the balances in the following bands were as follows:

		20	020		2019	
	Trustee's Name	Number Number	£'000 Amount	Number Number	Amount	£'000
£0 - £9,999	M Blanco	1	6			

Interest is charged on the above loans at the official interest rate from time to time . All loans are repayable on the departure of the trustee from the College.

The College has one property with the following net book value owned jointly with Dr A Ferrero, a trustee, under a joint equity ownership agreement between the College and the trustee. Under the terms of the agreement, the trustee is not entitled to receive a Housing Allowance. The property is subject to sale on the departure of the trustee from the College.

2020	2019
£'000	£'000
320	320

Total net book value of property owned jointly with trustee

30 CONTINGENT LIABILITIES

As at 31 July 2020, there were no contingent liabilities (2019 - nil).

31 POST BALANCE SHEET EVENTS

In 2016 the College entered into an arrangement with Bloor Homes to sell 480 plots at Bretch Hill near Banbury. As at the 31st of July, 2020 250 units have been sold and £6.464m income has been received by the College. Estimating sales of approximately 57 units per year the College predicts that the final units will be sold in 2023-2024.

c) Parent and subsidiary undertakings

The College holds 100% of the issued share capital in Trinity College Oxford Limited (TCOL), a company providing conference and other event services on the College premises, and 100% of the issued share capital in Trinity College Developments Limited (TCDL), a company providing design and build construction services to the College. The investments are 1 ordinary £1 share in each company.

The results and their assets and liabilities of the parent and subsidiaries at the year end were as follows:

d) Statement of investment total return

The Trustees have adopted a duly authorised policy of total return accounting for the College investment returns with effect from 1st August, 2017. The investment return to be applied as income is calculated as 2.5% (plus costs) of the average of the year-end values of the relevant investments in each of the last 5 years. For new funds less than 5 years old, the average is based on the age of the fund. The preserved (frozen) value of the invested endowment capital is either based on actual donation values or represents its open market value in 2005 together with all subsequent endowments valued at date of gift.
