

Regional Rail Link

New stations

Regional Rail Link is a new major line that will provide capacity for enough extra trains for thousands of passengers across Melbourne and the country rail networks in the peak periods.

The project involves the construction of new tracks from Deer Park to west of Werribee and brand new stations for Wyndham Vale and Tarneit.

Regional Rail Link is jointly funded by the Victorian and Australian Governments, with the latter contributing \$3.225 billion.

Tarneit track alignment

The new Regional Rail Link tracks will be in a partial cutting under Derrimut Road approaching the station location in Tarneit. Due to the Skeleton Creek valley, the station platforms will be on earth embankments. This alignment will help maintain connectivity to public transport and community facilities.

A new station for Tarneit

The new station at Tarneit will be located near the intersection of Derrimut and Leakes Road. It will include connections to other public transport services and car parking. It will be classified as a Zone 2 station and will be serviced by V/Line passenger trains.

Wyndham Vale track alignment

Following feedback from the community, the new tracks through Manor Lakes will be located in a full-depth cutting between Ballan Road and Lollypop Creek.

A new station for Wyndham Vale

The new station in Wyndham Vale will be located between Ballan Road and Manor Lakes Boulevard. It will include connections to other public transport services and car parking. It will be classified as a Zone 2 station and will be serviced by V/Line passenger trains.

Where can I find out more information and provide feedback?

If you would like more information, or would like to provide feedback on any aspect of the project, contact the project team at:
