ACKNOWLEDGEMENT

Considerable thanks are due to Councillors David Williams of Richmond, Ronald Thornton of Ealing and Stephen Giles-Medhurst of Harrow, and James Knight, who provided important additional material relating to party affiliation and to by-elections and also gave valuable advice and support during the preparation of this volume.

Introduction and General Notes

Composition of the Councils

The London boroughs were constituted under the London Government Act 1963 and the first elections to the new councils were held on 7 May 1964. Prior to 1976, councillors were elected at general elections held every three years but as a result of an order made under the Local Government Act 1972 the term of office of members of London borough councils was increased to four years. The number of wards in a borough varies from 19 in Barking and Dagenham, Richmond upon Thames and Tower Hamlets, to 36 in Greenwich, with from 1 to 3 councillors elected for each ward. London borough councils have from 48 to 70 members. Electors have as many votes as there are councillors in each ward. Before 1978 each council included aldermen, to the number of one sixth of the councillors, elected by the councillors from among themselves or from persons qualified to be councillors. Under the Local Government Act 1972, the office of alderman of a London borough council ceased to exist after the 1978 elections. The mayor of each borough is elected annually by each council from among the councillors.

Changes in Ward Boundaries

Since the 1978 election the ward boundary changes in the London borough of Enfield have come into operation. The results of the 1982 election in Enfield are therefore not comparable, at ward level, with those of 1978.

Cities of London and Westminster

The City of London is not included in this election because its constitution is different. The Corporation consists of 130 common councilmen, 4 to 12 of whom are elected annually for each ward, and 25 aldermen in addition to the Lord Mayor. The aldermen, one for each of the 25 wards, are elected for life by the ward voters (who include business voters as well as residents). Data for the City of London and Westminster South constituency therefore, are restricted to that part lying within the City of Westminster and this area is called 'Westminster South *' throughout this volume.

Calculation of Percentage Votes Cast

A number of readers of previous publications in this series have pointed out that the tables showing percentage votes cast include a bias resulting from the variation in number of seats between wards. The following formula has been used to overcome this bias:

$$\% \text{ votes for a party in a borough (or constituency) } = \\ 100 \times (\text{ward 1 votes for the party per ward 1 seat} + \text{ward 2 votes for the party per} \\ \text{ward 2 seat} + \dots) \text{ divided by } (\text{total ward 1 votes per ward 1 seat} + \text{total} \\ \text{ward 2 votes per ward 2 seat} + \dots)$$

Results based on this formula are shown in table 3. Votes from split wards are allocated in proportion to the electorate in each part of the ward.

In order to allow comparison with 1978 results, appendix 3 gives percentage votes cast calculated in the same way as in previous elections. That is:

$$\% \text{ votes for a party in a borough (or constituency) } = \\ 100 \times (\text{the total votes for the party in the borough}) \text{ divided by } (\text{the total votes for} \\ \text{all parties in the borough})$$

A further suggestion that a modification be incorporated to allow for parties not putting forward candidates for every seat in a ward was not taken up because of the difficulty of estimating voting patterns in wards where a major party group had no candidate.

withdrew before the election

TABLE 1

Candidates with party affiliations and votes cast in every ward at the London borough council elections, 6 May 1982

- Notes
- (i) Elected candidates are shown first in each ward. The names of the unsuccessful candidates are indented.
 - (ii) The key to party affiliations is on page 3.
 - (iii) BARNET - ARKLEY
The original count was found to be in error and a High Court Order was applied for and awarded. The results given here are those from the recount.
 - (iv) HOUNSLOW - FELTHAM SOUTH
A candidate died prior to the election. The results here refer to the consequent election held on 10 June 1982.
 - (v) RICHMOND UPON THAMES - WHITTON
The result is the subject of a petition to the High Court. The petition was still outstanding at publication of this booklet.
 - (vi) TOWER HAMLETS - EAST INDIA
The two candidates in this ward were returned unopposed.
 - (vii) TOWER HAMLETS - ST. MARY'S
One candidate withdrew prior to the election.

TABLE 2

Summary of election results by wards

- Notes
- (i) Care should be taken when comparing these results with previous elections, because of ward boundary changes.
 - (ii) Many wards are divided between parliamentary constituencies. In these cases each constituency name is shown with the percentage of the ward electorate contained in that constituency. Parts of wards which contain no electors are not shown.
 - (iii) The party grouping 'Lib/SDP' used in column (6) consists of all official candidates of both parties, including Liberal Focus Team candidates.
 - (iv) Percentages do not necessarily add to 100 due to rounding errors.
 - (v) 0% means that the percentage is greater than zero but less than a half. - means zero.

Table 2 - Summary of election results by ward

Ward	Parliamentary constituency	No. of seats (1)	Elec- torate (2)	Poll (%) (3)	Percentage votes cast			
					Con (4)	Lab (5)	Lib/SDP (6)	other (7)

TABLE 3

Summary of election results by parliamentary constituencies and boroughs

- Notes
- (i) Wards split among a number (usually two) of constituencies are counted in each constituency. These constituencies are marked with a #, and in these cases the number of wards shown in the constituencies is greater than the number in the borough.
 - (ii) Account has been taken of the differing numbers of seats in the wards when calculating the percentage votes cast (see note on page 2). The formula used is:

$$\% \text{ votes for a party in a borough (or constituency) } = \frac{100 \times (\text{ward 1 votes for the party per ward 1 seat} + \text{ward 2 votes for the party per ward 2 seat} + \dots)}{\text{total ward 1 votes per ward 1 seat} + \text{total ward 2 votes per ward 2 seat} + \dots}$$

A similar table based on the methods of calculation used in previous publications is shown in Appendix 3.
 - (iii) The party grouping 'Lib/SDP' used in column (8) consists of all official candidates of both parties, including Liberal Focus Team candidates.
 - (iv) Percentages do not necessarily add to 100 due to rounding errors.
 - (v) 0% means that the percentage was greater than zero but less than a half. - means zero.

Table 3 - Summary of election results by parliamentary constituencies and boroughs

Parliamentary constituency London borough	Area hectares (1)	Enumerated population 1981		Electorate (4)	Poll (%) (5)	Percentage votes cast

APPENDIX 1

By-elections for London borough councillors, May 1978 - May 1982

- Notes
- (i) The date of the election, the percentage voting, and the size of the electorate are shown beneath the name of the ward.
 - (ii) Elected candidates are shown first in each ward. The names of the unsuccessful candidates are indented.
 - (iii) The key to party affiliation codes is on page 96.
 - (iv) The cause of the by-election, the name of the councillor and political affiliation at the time of election are given beneath each result.

Party codes used in by-elections

Yeading	Hillingdon
Yiewsley	Hillingdon

APPENDIX 3

Summary of election results by parliamentary constituencies and boroughs (old style calculations for comparisons with previous publications)

- Notes
- (i) Wards split among a number (usually two) of constituencies are counted in each constituency. These constituencies are marked with a #, and in these cases the number of wards shown in the constituencies is greater than the number in the borough.
 - (ii) The percentage votes cast shown in this appendix were calculated in the same way as in previous publications in this series. The formula used is:
$$\% \text{ votes for a party in a borough (or constituency) } = 100 \times \frac{\text{(the total votes for the party in the borough)}}{\text{(the total votes for all parties in the borough)}}$$

A similar table which makes allowance for differing numbers of seats between wards in a borough or constituency are shown in Table 3.
 - (iii) The party grouping 'Lib/SDP' used in column (8) consists of all official candidates of both parties, including Liberal Focus Team candidates.
 - (iv) Percentages do not necessarily add to 100 due to rounding errors.
 - (v) 0% means that the percentage was greater than zero but less than a half. - means zero.

Appendix 3 - Summary of election results by parliamentary constituencies and boroughs
(old style calculations for comparison with previous publications)

Parliamentary constituency London borough	Area hectares (1)	Enumerated population 1981		Electorate (4)	Poll (%) (5)	Percentage votes cast			
		Census (2)	Wards (3)			Con (6)	Lab (7)	Lib/ SDP (8)	other (9)
