INTRODUCTION

Most importantly, and thanks to the total support of Mrs. Mehriban Aliyeva, member of the Executive Committee of the National Olympic Committee of the Republic of Azerbaijan, UNESCO Goodwill Ambassador and the Chair of the Baku 2015 European Games Organizing Committee, we have obtained strong guarantees from the Government of Azerbaijan to meet all the EOC requirements.

Dear NOC Colleagues,

A year ago, the European Olympic Committees (EOC) General Assembly gave Azerbaijan the great honour of hosting the inaugural European Games. Under the leadership of the EOC President, Patrick Hickey, a new and innovative multisport Games was born and entrusted to the City of Baku.

Since then, a significant amount of work has happened behind the scenes as we laid the foundations of the Games. Most importantly, and thanks to the total support of Mrs. Mehriban Aliyeva, member of the Executive Committee of the National Olympic Committee of the Republic of Azerbaijan, UNESCO Goodwill Ambassador and the Chair of the Baku 2015 European Games Organizing Committee, we have obtained strong guarantees from the Government of Azerbaijan to meet all the EOC requirements. On 28-29 October 2013, the Baku 2015 European Games Operation Committee

(BEGOC) hosted the second EOC Coordination Commission in Baku under the Chairmanship of Spyros Capralos, and we were pleased to be able to present to the EOC members the progress that has been achieved across the Baku 2015 venues masterplan, sport programme and team recruitment.

We will have an opportunity to go into a similar level of detail with the National Olympic Committees of Europe at the upcoming 41st EOC General Assembly in Rome on 23rd November. To mark the occasion, we look forward to unveiling the official logo for the Baku Games for you.

We acknowledge that as BEGOC got off the ground we have been communicating limited Games-related details to you, but we are committed to keep increasing the level of Baku-2015 awareness across Europe in the run up to the Games in June 2015. As a first step, we sincerely hope that the information in this first Newsletter will provide you with a reassuring level of confidence in our preparations, which have now reached a new level of detail.

Sport is supported by the Government of Azerbaijan as an important aspiration and key objective of the State, and much effort is underway across Baku and Azerbaijan to prepare these Games for Europe. We look forward to seeing you in Rome later this month to demonstrate the progress our teams have made since last year's historic assembly that announced the birth of the first European Games.

Sincerely,

Azad Rahimov
Minister of Youth and Sports
Chief Executive Officer of Baku 2015
European Games Operation Committee

PROGRESS

During the second EOC Coordination Commission visit to Baku, the BE-GOC team spent two full days taking the members through a number of areas to demonstrate our progress over the past year. In particular, BEGOC highlighted that the European Games will be athlete-focused and a passionate celebration of European Sport. We have recently celebrated our 600 day countdown to the Opening Ceremony and we acknowledge that much is still to be done, but through strong Government support the Baku Games have been aligned with the nation's priorities and Azerbaijan's "Vision in the Future" plan.

The EOC Coordination Commission was presented with the Baku 2015's vision and mission, which is to "Create a model that will allow the European Games to become the pre-eminent and most innovative continental Games, showcasing Azerbaijan as a modern European nation capable of great achievement."

Baku 2015 will deliver the inaugural European Games in the summer of 2015, unifying people across Europe in a passionate celebration of sport. Baku 2015 will support the European Olympic Committees in creating an innovative and impactful athlete-centred multi-sport event, which is sustainable for future editions. To achieve this, our team delivering Baku 2015 will strive for excellence in everything we do, whilst ensuring the most impactful use of resources.

With a complete directorate team now in place which is made up of a number of Games experts, we have now reached a new level of detail in our planning in key areas essential to the delivery of successful Games, especially in designing the venues and in the development of our innovative sports competition schedule. This has enabled us to proceed to more advanced stages of integrated planning for accommodation, villages, transport and other core sectors and services for the athletes, spectators, media and other key

client groups in preparation for the Games.

The Government is investing considerably in significant transport projects that will be ready in time for the Games. This includes upgrades to the metro, bus and road networks. In addition, the new international airport terminal is nearing completion in readiness for the Games, which will have major tourism, trade and other economic benefits. Not only is the entire aviation infrastructure being improved, flight schedules are being enhanced and by 2015 there will be flights to 60 airports across 50 cities in 22 countries.

The Games will leave world class venues that will be ready to host future international sporting, entertainment and other major events. These new sporting venues and facilities will leave a meaningful legacy especially for the Azerbaijani youth for decades to come.

Azad Rahimov
CEO of Baku 2015

Mehriban Aliyeva
Chair of Baku 2015

Patrick Hickey
EOC President

"Create a model that will allow the European Games to become the pre-eminent and most innovative continental Games, showcasing Azerbaijan as a modern European nation capable of great achievement."

SPORT

The Baku 2015 European Games will be held from 12th to 28th June 2015. 18 European Federations have confirmed that their sports will form part of the European Games programme. The BEGOC Sport Department has met with each of the 18 European Federations and most have already visited Baku to confirm the number of athletes per sport, disciplines and events that will be included in the European Games and the qualification process for these. Many innovations in the sport programme have been included in these Games to make them a truly unique European model that the EOC can take forward for future editions.

The EOC is still in discussions with the European Athletics Association in relation to the exact format that Athletics may play in these inaugural European Games and further details will be provided to the NOCs in due course.

BECOG will provide NOCs with detailed information on the Sports Entries and Qualification processes by sport in time for the EOC Secretaries General Seminar in May 2014. In the meantime, a summary by Sport can be found hereafter for an initial review and further information will be provided by the EOC General Assembly in Rome. We trust that this information will provide the NOCs with sufficient detail to discuss estimated team sizes with your respective National Federations and allow for some early planning relating to your operations in Baku.

COMPETITION SCHEDULE

After extensive discussions with the European Federations, the Ministry of Youth and Sport, the EOC and in consultation with Broadcast partners, BEGOC has completed the first

version of the Sport Competition Schedule for the Games and this is presented to you now. As with all Sport Competition Schedules this will be subject to slight modifications in the months to come but BEGOC's NOC Services department will be able to present to you a clear picture of which changes have been made. BEGOC Sport has already begun to work on the daily and session schedules in conjunction with all parties concerned and these will be presented to the NOCs in 2014. The process to define a coherent and compact

Sport Competition Schedule for the inaugural European Games was constrained by a number of factors. In particular, and since the Games were only awarded in 2012, BEGOC had to take into account the existing sport calendar of 2015 which was already relatively mature at the proposed time of the Games. Secondly, Baku as a city provides an opportunity in the organising of the Games and BEGOC has just conducted an extensive venue appraisal review to see where a consolidation of sports into some of Baku's outstanding permanent and

existing venues could occur. This consolidation has led to the conclusion that the European Games needs to follow the usual two week format of a traditional multi-sport Games. Lastly, BEGOC has considered a balance in medal sessions across the two weeks, broadcast opportunities and the interests of local Azerbaijani people.

VENUE MASTERPLAN

The sports will take place across a number of venues divided into three distinct clusters:

- The flag square cluster, the city cluster and the village cluster.
- Canoe Sprint will take place in Mingachevir which is approximately 250kms from Baku.
- Please note that BEGOC has still to ratify the venues for the following sports: Cycling Road Event & Time Trial and Triathlon.

BEGOC recognises that consistent and clear communication with the European NOCs is a priority as we move into 2014. We understand that rolling out a new and innovative product on the international sports scene is not an easy thing to do and lots of questions will abound from our clients. As such we want to reassure you that the NOC Services department in BEGOC will act as your single point of contact for any questions and queries that you may have. For any enquiries to the BEGOC NOC Services team please use the following email address: nocservices@baku2015.com

NOC Services will publish regular electronic newsletters and is committed to publish both a Chefs de Mission Dossier and Manual. In addition, we aim to roll out a simple NOC Extranet which will be the single reference point for all information on the Baku 2015 European Games. Further information on these different communication tools will be provided during the EOC General Assembly.

We will be pleased to soon confirm the appointment of an experienced Head of NOC Services and hopefully be able to present them to you during the EOC General Assembly. This position

will be reporting into James Macleod, Director of Athlete Services and Operations.

As we move towards the Games, the European NOCs will have the opportunity to meet with BEGOC NOC Services staff at the EOC General Assemblies and the EOC Secretaries General seminars. In addition, some BEGOC staff will be present at the Sochi Olympic Winter Games.

NOC SERVICES

Chefs de Mission Seminar:

Following discussions with the EOC, BEGOC has blocked the 10 to 12 June 2014 to host the Baku 2015 Chefs de Mission Seminar. These dates coincide with the European Rhythmic Gymnastics Championships that will be held in Baku.

The EOC is keen for NOCs to nominate their European Games Chef de Mission by 15th January 2014 as both the EOC and BEGOC would like this person to actively promote the European Games in their home countries. The EOC will be giving further details on the scope and role of a European Games Chef de Mission during the General Assembly in Rome but in the meantime, an early confirmation of the name of the nominated Chefs de Mission should be sent to BEGOC using the Primary Contact Form that

BEGOC will make available to you.

NOC Visits to Baku policy:

Although we recognise that NOCs are intrigued by Baku and that many wish to discover the city as soon as possible we are also conscious that hosting numerous NOC visits is both time consuming and detracts the organising committee from preparing for the Games. Therefore, in agreement with the EOC, BEGOC intends to organise a series of NOC Open Days in 2014 and 2015 to allow NOCs to visit in groups. These will be to the exclusion of individual NOC visits.

We are proposing to host the first of these NOC Open Days just after the Sochi Olympic Winter Games and have pencilled in the dates of 12 to 14 March 2014. Further details on this first NOC Open Day, together with

registration process will be made available to the NOCs before the end of the year.

NOC's participation in the Baku European Games:

BEGOC and the EOC recognise that a large part of the reason to award the European Games to Baku was that a commitment was made to cover costs for NOCs participating in the Games. As such, we can confirm already that athletes and primary team officials will be housed for free in the European Games Athlete Village. BEGOC will also provide the participating NOCs with a support grant to help cover the costs of their travel to Baku. Details of the support grant are being discussed with the EOC and further information on the policy will be released in 2014.

EUROPEAN GAMES

VILLAGE

The Baku 2015 European Games Athlete's Village is already structurally complete with 13 accommodation multi-story blocks and an NOC services centre that will be a school in legacy. The village is within walking distance of both the brand new European Games stadium that will host the Opening and Closing Ceremonies and the National Gymnastics Arena that will host the Gymnastic events.

BEGOC has conducted an initial space inventory across the whole village estate and was able to confirm to the EOC Coordination Commission that the average size of a three bedroom apartment is 190m² and that the average size of a bedroom stands at 22m². These generous proportions are conducive to giving athletes and officials a comfortable stay whilst they are in the Baku.

Further work has gone into an initial village masterplan to define operational areas, catering tents, the NOC Services area, the transport mall and the welcome centre. A more detailed plan of the village together with opening and closing dates will be presented to the NOCs in early 2014.

BEGOC has worked closely with the Ministry of Health on a polyclinic within the village to offer a suitable level of medical service to athletes and officials attending the European Games. The Ministry of Health has confirmed that in legacy mode the space that has been chosen within the Athlete's Village will remain a community primary care unit.

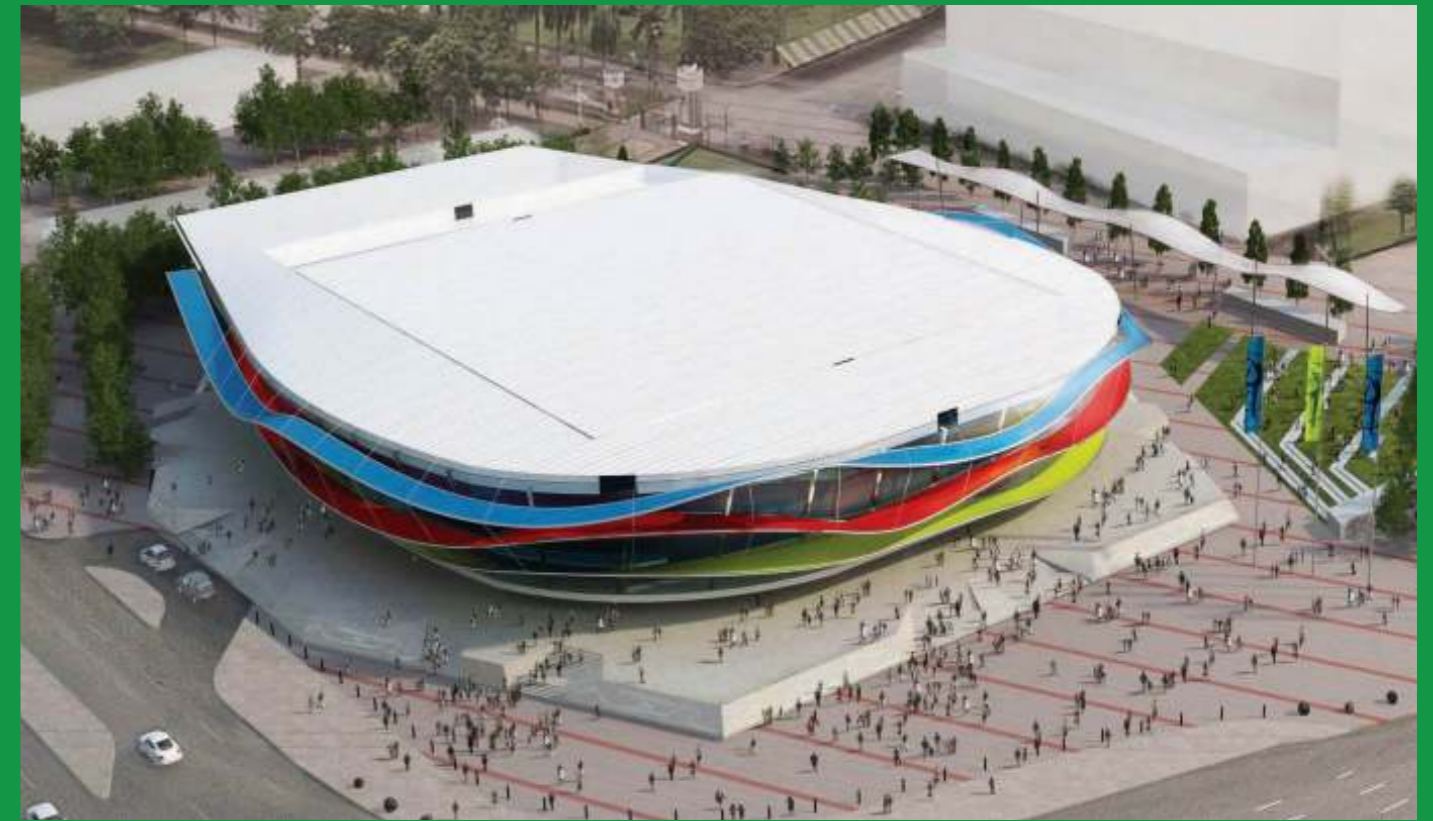

BEGOC TEAM

Introducing the BEGOC team....

In the last few months the senior management team of BEGOC has been recruited and staff have moved to Baku to take up permanent residence to work on the successful delivery of the European Games. With over 250 years of cumulated Games experience, the Directors have been able to hit the ground running and form strong relationships with the Government Ministries responsible for delivery of the Games. As part of BEGOC's ambition to leave a tangible legacy Directors are tasked with recruiting a blend of international experts and national talent.

Over 250 years of experience...

- 37 Summer Olympic Games
- 17 Winter Olympic Games
- Olympic and Paralympic bids
- 2 Cricket World Cups
- 2 Rugby World Cups
- 6 NFL Superbowls
- 16 World Championships
- 3 FIFA Football World Cups
- 6 Pan American Games
- 1 Asian Games
- 4 Commonwealth Games
- 1 Tennis Opens
- 1 Eurovision
