The report shall contain data relative to network measures of service quality, as defined by the Common Carrier Bureau, from the previous calendar year on a study area basis.

(h) Each local exchange carrier for whom price regulation is mandatory shall file, by April 1 of each year, a report designed to capture trends in service quality under price cap regulation. #### § 43.41 [Reserved]

#### § 43.43 Reports of proposed changes in depreciation rates.

(a) Each communication common carrier with annual operating expenses that equal or exceed the indexed revenue threshold, as defined in § 32.9000, and that has been found by this Commission to be a dominant carrier with respect to any communications service shall, before making any changes in the depreciation rates applicable to its operated plant, file with the Commission a report furnishing the data described in the subsequent paragraphs of this section, and also comply with the other requirements thereof.

(b) Each such report shall contain the following:

(1) A schedule showing for each class and subclass of plant (whether or not the depreciation rate is proposed to be changed) an appropriate designation therefor, the depreciation rate currently in effect, the proposed rate, and the service-life and net-salvage estimates underlying both the current and proposed depreciation rates;

(2) An additional schedule showing for each class and subclass, as well as the totals for all depreciable plant, (i) the book cost of plant at the most recent date available, (ii) the estimated amount of depreciation accruals determined by applying the currently effective rate to the amount of such book cost, (iii) the estimated amount of depreciation accruals determined by applying the rate proposed to be used to the amount of such book cost, and (iv) the difference between the amounts determined in paragraphs (b)(2) (ii) and (iii) of this section;

(3) A statement giving the reasons for the proposed change in each rate;

(4) A statement describing the method or methods employed in the development of the service-life and salvage

estimates underlying each proposed change in a depreciation rate; and

(5) The date as of which the revised rates are proposed to be made effective in the accounts.

(c) Except as specified in paragraphs (c)(1) and (c)(2) of this section, when the change in the depreciation rate proposed for any class or subclass of plant (other than one occasioned solely by a shift in the relative investment in the several subclasses of the class of plant) amounts to twenty percent (20%) or more of the rate currently applied thereto, or when the proposed change will produce an increase or decrease of one percent (1%) or more of the aggregate depreciation charges for all depreciable plant (based on the amounts determined in compliance with paragraph (b)(2) of this section) the carrier shall supplement the data required by paragraph (b) of this section with copies of the underlying studies, including calculations and charts, developed by the carrier to support service-life and net-salvage estimates. If a carrier must submit data of a repetitive nature to comply with this requirement, the carrier need only submit a fully illustrative portion thereof.

(1) A Local Exchange Carrier regulated under price caps, pursuant to §§ 61.41 through 61.49 of this chapter, is not required to submit the supplemental information described in paragraph (c) introductory text of this section for a specific account if: The carrier's currently prescribed depreciation rate for the specific account is derived from basic factors that fall within the basic factor ranges established for that same account; and the carrier's proposed depreciation rate for the specific account would also be derived from basic factors that fall within the basic factor ranges for the same account.

(2) Interexchange carriers regulated under price caps, pursuant to §§ 61.41 through 61.49 of this chapter, are exempted from submitting the supplemental information as described in paragraph (c) introductory text. They shall instead submit: Generation data, a summary of basic factors underlying proposed rates by account and a short narrative supporting those basic factors, including: Company plans of forecasted retirements and additions; and

recent annual retirements, salvage and cost of removal.

(d) Each report shall be filed in duplicate and the original shall be signed by the responsible official to whom correspondence related thereto should be addressed.

(e) Unless otherwise directed or approved by the Commission, the following shall be observed: Proposed changes in depreciation rates shall be filed at least ninety (90) days prior to the last day of the month with respect to which the revised rates are first to be applied in the accounts (e.g., if the new rates are to be first applied in the depreciation accounts for September, they must be filed on or before July 1); and such rates may be made retroactive to a date not prior to the beginning of the year in which the filing is made: *Provided, however*, That in no event shall a carrier for which the Commission has prescribed depreciation rates make any changes in such rates unless the changes are prescribed by the Commission.

(f) Any changes in depreciation rates that are made under the provisions of paragraph (e) of this section shall not be construed as having been approved by the Commission unless the carrier has been specifically so informed.

**§43.51 Contracts and concessions.**

(a) Any communications common carrier that: is engaged in domestic communications and has not been classified as nondominant pursuant to §61.3 of this chapter or is engaged in foreign communications, and enters into a contract with another carrier, including an operating agreement with a communications entity in a foreign point for the provision of a common carrier service between the United States and that point; must file with the Commission, within thirty (30) days of execution, a copy of each contract, agreement, concession, license, authorization, operating agreement or other arrangement to which it is a party and amendments thereto with respect to the following:

(1) The exchange of services;

(2) Except as provided in paragraph (c) of this section, the interchange or routing of traffic and matters concerning rates, accounting rates, division of tolls, or the basis of settlement of traffic balances; and

(3) The rights granted to the carrier by any foreign government for the landing, connection, installation, or operation of cables, land lines, radio stations, offices, or for otherwise engaging in communication operations.

(b) If the agreement referred to in this section is made other than in writing, a certified statement covering all details thereof must be filed by at least one of the parties to the agreement. Each other party to the agreement which is also subject to these provisions may, in lieu of also filing a copy of the agreement, file a certified statement referencing the filed document. The Commission may, at any time and upon reasonable request, require any communication common carrier classified as nondominant, and therefore not subject to the provisions of this section, to submit the documents referenced in this section.

(c) With respect to contracts coming within the scope of paragraph (a)(2) of this section between subject telephone carriers and connecting carriers, except those contracts related to communications with foreign or overseas points, such documents shall not be filed with the Commission; but each subject telephone carrier shall maintain a copy of such contracts to which it is a party in appropriate files at a central location upon its premises, copies of which shall be readily accessible to Commission staff and members of the public upon reasonable request therefor; and upon request by the Commission, a subject telephone carrier shall promptly forward individual contracts to the Commission.

(d) Any U.S. carrier that interconnects an international private line to the U.S. Public Switched Network, at its switch, including any switch in which the carrier obtains capacity either through lease or otherwise, shall file annually with the Chief of the International Bureau a certified statement containing the number and type (e.g., 64-kbps circuits) of private lines interconnected in such a manner. The

certified statement shall specify the number and type of interconnected private lines on a country specified basis. The identity of the customer need not be reported, and the Commission will treat the country of origin information as confidential. Carriers need not file their contracts for such interconnections, unless they are specifically requested to do so. These reports shall be filed on a consolidated basis on February 1 (covering international private lines interconnected during the preceding January 1 to December 31 period) of each year. International private lines to countries which we find to satisfy our equivalency standard at any time during a particular reporting period are exempt from this requirement.

(e) *International settlements policy.* (1) If a carrier files an operating agreement (whether in the form of a contract, concession, license, etc.) referred to in paragraph (a) of this section to begin providing switched voice, telex, telegraph, or packet-switched service between the United States and a foreign point and the terms and conditions of such agreement relating to the exchange of services, interchange or routing of traffic and matters concerning rates, accounting rates, division of tolls, the allocation of return traffic, or the basis of settlement of traffic balances, are not identical to the equivalent terms and conditions in the operating agreement of another carrier providing the same or similar service between the United States and the same foreign point, the carrier must also file with the International Bureau a notification letter or modification request, as appropriate, under §64.1001 of this chapter. No carrier providing switched voice, telex, telegraph, or packet-switched service between the United States and a foreign point shall bargain for or agree to accept more than its proportionate share of return traffic.

(2) If a carrier files an amendment to the operating agreement referred to in paragraph (a) of this section under which it already provides switched voice, telex, telegraph, or packet-switched service between the United States and a foreign point, and other carriers provide the same or similar service to the same foreign point, and

the amendment relates to the exchange of services, interchange or routing of traffic and matters concerning rates, accounting rates, division of tolls, the allocation of return traffic, or the basis of settlement of traffic balances, the carrier must also file with the International Bureau a notification letter or modification request, as appropriate, under §64.1001 of this chapter.

(a) Each communication common carrier engaged directly in the transmission or reception of telegraph communications between the continental United States and any foreign country (other than one to which the domestic word-count applies) shall file a report with the Commission within thirty (30) days of the date of any arrangement concerning the division of the total telegraph charges on such communications other than transiting. A carrier first becoming subject to the provisions of this section must, within thirty (30) days thereafter, file with the Commission a report covering any such existing arrangements.

(b) In the event that any change is made which affects data previously filed, a revised page incorporating such change or changes must be filed with the Commission not later than thirty (30) days from the date the change is made, provided, however, that any change in the amount of foreign participation in charges for outbound communications or in the respondent's participation in charges for inbound communications must be filed not later than thirty (30) days from the date the change is agreed upon.

(c) A single copy of each such report must be filed in a format that contains a clear, concise and definite statement of the arrangements.
