

Scale of assessments 2022–2023

Report by the Director-General

1. This report outlines the proposed scale of assessments for the financial period 2022–2023.
2. The latest available United Nations scale of assessments was adopted in December 2018 for the period 2019–2021.¹ WHO has applied the United Nations scale of assessment for 2020–2021.² It is proposed that the present United Nations scale should be used again by WHO for the financial period 2022–2023, adjusted for differences in membership between WHO and the United Nations, in accordance with the past practice.
3. For information purposes, a column has been added to the scale to show the percentage to be applied should the number of Member States be reduced from 194 to 193.
4. The United Nations scale is expected to be updated in December 2021. Should this occur, the Seventy-fifth World Health Assembly in 2022 may propose the application of this updated scale for 2023, the second year of the biennium 2022–2023.

ACTION BY THE EXECUTIVE BOARD

The Executive Board is invited to consider the following draft resolution:

The Executive Board,

Having considered the report on the scale of assessments for 2022–2023,³

RECOMMENDS to the Seventy-fourth World Health Assembly the adoption of the following resolution:

The Seventy-fourth World Health Assembly,

Having considered the report of the Director-General,

ADOPTS the scale of assessments for the biennium 2022–2023, as set out below.

¹ United Nations General Assembly resolution 73/271.

² Resolution WHA72.12 (2019).

³ Document EB148/28.
