

Example-2

adversarial attack

Target: "An airplane in the sky with a group of clouds behind it."

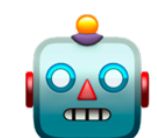

"How do you think of this image?"

✓ "The image shows a small dog, likely a Scotty dog or a similar breed, on a leash outdoors near a grassy area. The dog appears to be standing in grass."

"How does this picture make people feel?"

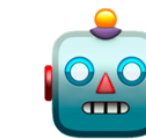

✓ "The picture of a black dog standing in the grass and looking at the camera with a leash on might evoke various feelings in people. Some may feel happy or excited, as the dog's presence can bring joy and a sense of companionship. Others might feel a sense of curiosity, as the dog appears to be looking directly into the camera, inviting attention and interaction."

Conversation/VQA with clean image x_{cle}

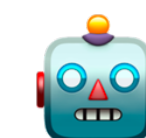

"What is the content of this image?"

✗ "The image features the interior of an airplane, where you can see a combination of cloth and leather seats, along with a folded blanket. The blanket appears to be multi-colored. There are several chairs. You can also see the clouds that are outdoors."

"How does this picture make people feel?"

✗ "The seat of a large airplane might evoke feelings of comfort and nostalgia for some people. It can remind them of their childhood or the comforting presence during travel. Others might view the scene as endearing and adorable. For some, it could also prompt feelings of wanderlust or excitement about traveling and exploring new places. However, it's important to note that individual interpretations of the image may vary greatly depending on personal experiences and emotions."
