

The diagram illustrates a hierarchical structure within a light blue rounded rectangle. At the top is a white box with a 3D effect containing the text 'text (string)'. Below it is a white box containing 'entities (Layer [labeled span])' followed by a bulleted list: 'start (integer)', 'end (integer)', and 'label (string)'. Below that is another white box containing 'relations (Layer [binary relation])' followed by a bulleted list: 'head (labeled span)', 'tail (labeled span)', and 'label (string)'. White arrows point upwards from the 'entities' box to the 'text' box, and from the 'relations' box to the 'entities' box. The bottom of the light blue container has a wavy, wave-like edge.

text (string)

entities (Layer [labeled span])

- start (integer)
- end (integer)
- label (string)

relations (Layer [binary relation])

- head (labeled span)
- tail (labeled span)
- label (string)
