

2014

ES

 LEXUS

GENIES ONLY ANSWER
THREE WISHES.

2014

ES

350

300h

Take hold of the available wood and heated leather-trimmed steering wheel and immediately you know the 2014 ES has everything you want. The spacious, quiet cabin features power-adjustable heated and ventilated front seats and dual-zone automatic climate control. The agile suspension and 6-speed sequential-shift transmission make for a buttery smooth ride. The spacious trunk even suggests a destination – all you need is a tee time.

MAKE A VALET'S DAY.

Behind the aggressive LED daytime running lights and bold spindle grille remains a true luxury sedan focused on the power and spaciousness needed for genuine comfort and style. With its extended wheelbase and low, aerodynamic profile, the ES delivers outstanding ride quality and stability.

DRIVE MODE SELECT

Choose between Normal, ECO and Sport modes for your desired balance of refinement, performance and fuel efficiency.

3.5L V6 WITH DUAL VVT-i

The 268-horsepower 3.5-litre V6 is responsive even when the ES is loaded with rear passengers – a common occurrence thanks to generous legroom and an optional panoramic glass roof.

SUSPENSION

A light, rigid body, rigid double-wishbone front suspension and multi-link rear suspension deliver precise handling and exceptional stability.

PROGRESS IS A
BEAUTIFUL THING.
SOMETIMES A VERY
BEAUTIFUL THING.

For 24 years the ES has been synonymous with technological sophistication. The 2014 ES Hybrid continues the tradition with the Lexus Hybrid Drive System. It produces an impressive 200 net system horsepower⁸ while producing nearly 70% fewer smog-forming emissions⁹ than comparable gas or diesel engines. Better yet, you get compact-car-worthy fuel efficiency without the need for premium fuel. Not to mention a beautiful rear spoiler for improved aerodynamics.

IT THINKS OF NEARLY EVERYTHING.
SEVERAL TIMES A SECOND.

The ES constantly thinks of your needs – for safety and comfort. The available Blind Spot Monitor,²³ Intuitive Park Assist, and Pre-Collision System¹⁵ all warn of obstacles in your path. What the new ES doesn't automatically do for you, it makes easy for you to do, with features such as dual-zone automatic climate control and available voice-activated navigation.¹

PREMIUM SURROUND SOUND

Available 835-watt, 15-speaker Mark Levinson® Premium Surround Sound Audio System³ can be voice-activated to search playlists or create mixes on the fly.

BLIND SPOT MONITOR

Available Blind Spot Monitor²³ System uses radar sensors to detect then alert you to vehicles in adjacent lanes that are not visible in the side mirrors.

10-AIRBAG SYSTEM

Standard airbags include driver and passenger knee airbags, front seat-mounted side airbags, front and rear side-curtain airbags and rear seat side airbags.¹⁷ In addition, front seats are designed to help decrease the severity of whiplash-type injuries²² in certain rear collisions.

KEY FEATURES & SPECIFICATIONS

LUXURY AND CONVENIENCE:

- SmartAccess with push-button Start/Stop¹⁸
- Multi-function, in-key remote entry system with rolling-code technology
- Power moonroof
- HomeLink® universal transceiver²⁰
- Auto-dimming inside rearview mirror
- Compass
- Power-adjustable tilt-and-telescopic steering wheel (ES 300h)
- Backup camera (ES 300h)²
- Rear lip spoiler (ES 300h)

SEATING AND TRIM:

- Perforated NuLuxe trimmed interior
- Piano Black interior trim (ES 350)
- Espresso bird's-eye maple wood interior trim (ES 300h)
- Leather-wrapped steering wheel and shift knob
- 10-way power-adjustable driver and front passenger seats (including lumbar)
- Heated and ventilated front seats
- Driver Seat Memory System (ES 300h)

AUDIO, COMMUNICATIONS AND INSTRUMENTATION:

- 8-speaker Lexus premium audio system
- Lexus Display Audio with display audio controller (ES 300h)
- Integrated XM® Satellite Radio⁵
- USB and auxiliary minijack audio input for iPod/iPhone® and music player integration with audio system⁶
- Bluetooth audio profile for wireless integration of compatible music players and automatic phonebook synchronization⁷
- Electroluminescent instrumentation
- Analog clock with LED illumination
- Steering wheel-mounted audio, phone and display controls
- Drive Mode Select with Normal, ECO and Sport modes

ACTIVE SAFETY:

- Vehicle Stability Control (VSC)¹³
- Electronic brake-force distribution (EBD)
- Smart Stop Technology¹⁹
- Direct Tire Pressure Monitor System¹⁶
- Automatic on/off projector-beam headlamps
- LED daytime running lamps
- Integrated fog lamps
- Heated exterior rearview mirrors with integrated turn signal lamps

PASSIVE SAFETY:

- Driver and front-passenger airbag system (SRS)¹⁷
- Front seat-mounted side airbags¹⁷
- Rear outboard seat-mounted side airbags¹⁷
- Front and rear side curtain airbags¹⁷
- Driver and front-passenger knee airbags¹⁷
- Active front headrests⁹
- Child Restraint System (CRS) tether anchor brackets for rear outboard seats

SECURITY:

- Vehicle theft-deterrent system
- Engine immobilizer system
- Tool kit
- First aid kit

Lexus GENUINE ACCESSORIES:

- Block heater
- Body side moulding
- Paint protection film
- Cargo liner (ES 350)
- Rear spoiler (ES 350)

BODY AND DIMENSIONS

OVERALL LENGTH	4,895 mm/192.7 in	HEADROOM (w/panoramic glass roof)	Front	957 mm/37.7 in	TRUNK CAPACITY (max)	430 litres/15.2 cubic feet (ES 350)
WHEELBASE	2,820 mm/111.0 in		Rear	938 mm/36.9 in		342 litres/12.1 cubic feet (ES 300h)

OPTION PACKAGES

ES 350

PREMIUM PACKAGE

- Driver Seat Memory System
- Power tilt-and-telescopic steering wheel
- Heated wood-trimmed steering wheel
- Lexus Display Audio with display audio controller
- Espresso bird's-eye maple wood interior trim
- Rain-sensing windshield wipers
- Backup camera²

LEATHER AND NAVIGATION PACKAGE

Includes Premium Package plus:

- Leather seat surfaces
- Voice-activated Navigation System with Remote Touch¹
- In-dash single disc DVD player
- HID headlamps with dynamic auto-levelling

TOURING PACKAGE

Includes Leather and Navigation Package plus:

- 18-inch alloy wheels
- Premium leather seat surfaces
- Front passenger seat memory system
- 15-Speaker Mark Levinson[®] Premium Surround Sound System³
- Panoramic glass roof with power tilt-and-slide moonroof
- Power trunk feature with one-touch auto easy open/close
- Power rear sunshade with manual rear-door sunshades
- Premium illuminated entry system

TECHNOLOGY PACKAGE

Includes Touring Package plus:

- Lane Departure Alert
- Pre-Collision System¹⁵
- Dynamic radar cruise control²⁴
- Blind Spot Monitor²³
- Rear cross-traffic alert²⁵
- Intuitive parking assist
- Intelligent high-beam headlamps²¹

LEXUS CANADA

Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Some of the photography in this brochure features US or overseas models, shown with optional equipment that may not be available in Canada. Your Lexus Dealer is the best source for up-to-date information.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package. Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audiodisplays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely. **1.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. Navigational systems in some vehicles are available with bilingual capability, XM NavTraffic® requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. NavTraffic will only be available in Montreal, Vancouver and Toronto. Both Montreal and Vancouver will only have incident data and Toronto will have both incident and flow data. **2.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **3.** Mark Levinson is a registered trademark of Harmon International Industries Inc. **4.** Continuous average power, all channels driven, at less than 0.1% THD, 20-20,000 Hz. **5.** Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **6.** iPod is a registered trademark of Apple Inc. **7.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual capability. **8.** A single disc DVD player is standard on vehicles equipped with the dual-screen Rear-Seat Entertainment System. A separate DVD player or game system utilizing the centre console's video/audio inputs is required in order to use the split-screen function. **9.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **10.** Maximum output indicates engine plus HV battery output. **11.** The Lexus Hybrids have nearly 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements. **12.** FUEL CONSUMPTION RATING: Fuel efficiency estimates were determined using approved Government of Canada/Transport Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. **13.** Vehicle Stability Control (VSC) and if applicable Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your Owner's Manual for further details. **14.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **15.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. **16.** The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your Owner's Manual for details. **17.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your Owner's Manual for further information/warnings. **18.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **19.** Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes to bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. **20.** HomeLink is a registered trademark of Johnson Controls. **21.** The Intelligent High-Beam headlamps can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your Owner's Manual for details. **22.** Whiplash Injury Lessening (WIL) front seats can help reduce the extent of whiplash in certain types of rear end collisions. **23.** Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. **24.** Dynamic Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important cautions and instructions. **25.** Do not rely exclusively on the Rear Cross-Traffic Alert System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions regarding use of the Rear Cross-Traffic Alert System, please see your Owner's Manual.
