To the Bahá'ís of the World

DEAR BAHÁ'Í FRIENDS,

The Major Plan of God is at work throughout the world, hastening the disintegration of the old order as the new one unfolds. While it is propelling forward a social transformation of a magnitude never before witnessed, fear and uncertainty grip the consciousness of a majority of the world's people, who remain unaware of God's purpose in this Day. There is a growing sense of a fundamental change of far-reaching dimensions that chills preoccupation with the pleasures and comforts of material existence. In the midst of this turmoil, the Divine Will for humankind is being achieved.

The progress being made by the community of the Greatest Name is a cause for the deepest satisfaction. Its members, undismayed by the surrounding distraction and distress, labour to provide reassurance and insight to those with whom they come in contact, making sure that the confident vision that informs their actions is not clouded by the limited perspective of the mass of humanity. Current world events offer Bahá'ís an opportunity to demonstrate the application of the remedy brought by the Divine Physician.

At this critical moment, we find ourselves compelled to turn to you, our co-workers, to inform you of the pressing need for a marked increase in the contributions to the Bahá'í International Fund. A great portion of the resources in this Fund is expended outside the Holy Land for the advancement of the Cause of God. These expenditures are of special importance at this time when the Five Year Plan gives every indication of yielding a significant advance in the process of entry by troops in the years ahead. This same Fund must finance the operation of the Bahá'í World Centre, the maintenance of the sacred properties in the Holy Land, the conduct of the pilgrimage programme, and the defence and proclamation of the Faith.

We now appeal for a response to this need from all the followers of Bahá'u'lláh. Our appeal is addressed to all without exception: those of modest means as well as those who possess substantial resources. Your immediate and sustained action is imperative, for the discharge of your spiritual obligation to contribute towards the advancement of the Cause can suffer no delay. The blessings that flow from your sacrificial deeds are assured.

The present crisis in the Bahá'í International Fund is due, in considerable measure, to the sharp reduction in resources available, consequent to the economic downturn afflicting much of the world. It arises also, in part, from the necessity to provide assistance from the Bahá'í International Fund to sustain the work of the Faith in the growing number of

countries devastated by warfare, internal division, and endemic poverty. However, a major cause of our present deep concern is the necessity to maintain, at a befitting standard, the buildings and gardens at the World Centre. An indication of the increase of costs is that the area of gardens has now more than doubled.

The Bahá'í International Fund must not fail to meet these needs. To assist it, we have decided to set up the World Centre Endowment Fund, for the preservation, upkeep, and security of the edifices and precincts of the Spiritual and Administrative Centres of the Faith – activities that currently form so large a part of the responsibilities of the Bahá'í International Fund. This decision follows the example of Shoghi Effendi, who during his ministry dedicated the income from lands in the environs of the Jordan Valley for the upkeep of the Holy Shrines.

This Endowment Fund, to which you are urged to contribute, beyond your general support of the Bahá'í International Fund, will initially be used to defray the related expenses, estimated at the present time to be seven million dollars annually. Whatever balance remains unexpended at the end of each year will be retained as an earmarked fund and, as it grows in the years ahead, will provide a continuing source of investment income dedicated to maintaining the magnificent setting of these Holy Places. These precincts were created gradually, during the past century, through the sacrificial outpouring of resources by the believers who responded to the vision of Bahá'u'lláh and supported the strenuous endeavours of the Master and the Guardian. It is essential that this splendour, befitting so sacred a place, be preserved undiminished in the decades and centuries ahead.

Our ardent supplication in the Holy Shrines is for the reinforcement of the consecrated endeavours of the lovers of the Blessed Beauty in every land, as they respond to the needs of the ever-advancing Cause of God.

The Passing of Philip Hainsworth

December 17, 2001

We were deeply grieved at the news of the passing of Philip Hainsworth, whose outstanding record of dedicated services in the United Kingdom and in Africa is unforgettable. He distinguished himself through his wholehearted devotion to the beloved Guardian, his staunch perseverance, and his indefatigable efforts to proclaim and teach the Cause. We advise you to hold, on the national and local levels, memorial gatherings in his name. We are also asking the National Spiritual Assembly of Uganda to hold similar memorial gatherings in the Mother Temple of Africa, and elsewhere in the country. Kindly assure his beloved wife and dear children of our deepest sympathy and of our fervent prayers in the Holy Shrines for the progress of his soul in the Abhá Kingdom.
