Highlights of the year...

Profit before tax of
£1.23m

(2022: £0.76m),
growth of 62%.

£35.8m

Despite the economic climate the Society increased the value of mortgages it was able to lend in the period to £35.8m compared to 2022 (£34.7m).

Cash and cash equivalents have been maintained at **£42.2m** compared to **£46.6m** in 2022

(still comfortably within the Society's liquidity risk appetite).

£24,000

We donated £24,000 back into **our local community** in 2023 a 78% increase on 2022. Within this we supported Dove House Hospice in Hull as our charity of the year with over £13,000 of support, through organising fundraising events and donations.

We increased rates across our savings products to three times higher than last year, to better reward members as the bank base rate increased and the UK retail savings market responded.

In a year where mortgage lending fell in the UK, the Society's mortgage book has grown by **£11.9m (7.9%)** with the Society's mortgage assets now over **£160m**.

We worked hard to ensure we were able to offer competitive products to mortgage customers, since November 2021, when the base rate was 0.10%, the Society has passed on only 3.25% of the base rate increases of 5.15%.

Funding has increased by **£6.7m (3.6%)**,

as we have offered increased savings rates and been top of the table for our JISA and 90-day products in quarter 4.

Employee numbers increased

as the Society has invested in experience and expertise in key areas.

Capital continues to grow steadily helping to protect the Society in challenging economic times.

Chair's Statement

for the year ended
31 December 2023

I am delighted to report that during 2023 the continued focus on growth through our Building Better Futures strategy delivered a very strong financial performance and excellent customer feedback in a challenging economic environment.

The Board is focussed on growing the Society for the future through using funding from our valued savings members to welcome borrowers who may not be well-served by the wider market. As a result, we grew our mortgage lending to £35.8m (2022: £34.7m). This is an outstanding performance in a year when new mortgage lending in the UK reduced by around 28%.

A growing mortgage portfolio (up 7.9% to £162m) helped increase our total income by 27%. This enabled us to invest in our people, new products and technology and to meet the costs of running the business which are higher due to inflation. It also gives the Board confidence that we can invest further in the future of the Society over the next few years.

As a mutual, we do not pay dividends and are able to re-invest this money back into building long-term financial strength and helping our membership and community. For example, increases in interest rates for our mortgage customers were less than the rise in the bank base rate and we maintained savings rates above the market average for our savings membership. With the introduction of new higher paying notice accounts and a market leading Junior ISA we have attracted new funding in a very competitive market helping to increase our Shares and Deposits to £192m (2022: £185m). Pleasingly the feedback from customers who save with us continues to be very positive about the service and straight forward products we offer.

Cost of living pressures and rising interest rates have increased mortgage arrears in the UK. Our rigorous approach to stress testing affordability before we offer a mortgage means that most of our mortgage customers are able to meet their payments. We have just 28 mortgages where we are working with customers who having payment difficulties, a slight increase from 27 in 2022. Our friendly, helpful team is here to assist our borrowers with individual advice and guidance.

Our total assets reached £206m, up almost 4% and profit after tax increased to £940,000 (2022: £617,000) increasing our General Reserves by 7.6% to £13.2m. These excellent results for 2023 have improved the financial strength of your Society. We are now very well placed to invest in modernising the business including a programme to renew our core technology platform. We, therefore, expect costs to be higher over the next few years which will mean lower levels of profit during this investment phase. The investments we are making in staff and technology will allow us to continue to offer the products and outstanding service that our current and future customers value.

The Board is focussed on growing the Society for the future

Stuart Purdy stepped down from the Board in February and I would like to thank him for his skilled leadership and development of the Society during his time as Chairman. We welcomed Sally Hall as our new CFO in October, replacing Christopher White who left to take on a role at another society in August. I am grateful to Christopher for his contribution during his short time with the Society. Sally is a Chartered Accountant and brings a wealth of experience in financial services and other sectors and is already making a very positive contribution.

We advised last year that we had attracted some new highly experienced non-executive directors to the Board. I am pleased to report that the new Board is operating well and is applying this broader range of expertise in evaluating the plans to deliver our strategy. Despite a difficult economic backdrop and house prices and transaction levels forecast to be lower in 2024 the Society's growth and improvement in financial performance provides resilience to enable us to deal with these challenges.

Finally, I would like to thank all of our Society colleagues for their commitment and hard work which has helped deliver another successful year. Customer feedback tells us clearly that it is the personal care and attention of our people that makes the Beverley different. I would like to extend my heartfelt gratitude to our members, my Board colleagues, brokers, suppliers and community partners for their invaluable ongoing support for the Society.

Karen Wint
Chair

19 February 2024

Our core purpose remains helping our members “build better futures”

Chief Executive's Review

for the year ended
31 December 2023

2023 has proved another turbulent year, both globally and nationally. For the UK, significant inflationary pressure has led to interest rate rises, cost of living challenges and a downturn in mortgage market activity. As a mutual organisation, owned by our members, we seek a balance between protecting mortgage members from high interest costs, supporting saving members with good returns, whilst ensuring we can continue to invest in our Society.

I am therefore very proud to report that the Society has navigated this challenging environment and produced a strong set of results, strengthening our financial position, whilst supporting its membership. Despite the subdued mortgage market, we have achieved decade high levels of new lending and significantly grown our mortgage portfolio. My deepest thanks goes to my colleagues, who have worked exceptionally hard in 2023, to deliver both growth in a quickly changing environment and as reinforced by our feedback, an exceptional level of customer care and personal service.

In terms of the future, our plan is to build on these strong foundations, investing in technology and people, to ensure we remain relevant in a rapidly evolving sector, and continue to respond with agility to our members' changing needs. Providing solutions to members, for example, who wish to open savings accounts and transact on-line, whilst continuing to invest in our branch to make our processes ever more efficient. Similarly, our core platform technology supplier is modernising their infrastructure, resulting in a more flexible system. This investment, together with margin pressure in the competitive environment detailed below, is expected to reduce our profits over the next few years. The Board believes having consistently increased capital over the last five years, a period of significant, sustained investment, to help the Society to grow into the future, is key.

Our core purpose remains helping our members “build better futures”, by providing:

- mortgages to those underserved by the mainstream banks.
- good value, transparent savings products particularly to our local community.
- exceptional personal customer service.
- support to Beverley and the surrounding area, to continue to ensure it remains a vibrant place to live and work.

In terms of customer feedback, we have partnered with an independent company, Smart Money People, to capture and report feedback, to ensure we are always meeting customers expectations. I am delighted to report that our customer feedback to the year end, was a score of 4.87 out of 5, with common themes revolving around both our competitive rates and our friendly, efficient, professional team. We always welcome your feedback in person or online at www.smartmoneypeople.com/beverley-building-society-reviews.

In 2023, the Society implemented the FCA Consumer Duty, this significant piece of regulation focussed on ensuring financial service companies can evidence that they provide customers with good outcomes. Whilst our feedback illustrates our members are at the core of our Society, these regulations continue to help evidence this approach.

The mortgage and savings markets

As you would expect, the impact of affordability pressures from higher interest rates and living costs, has had a significant impact on the UK mortgage market. Gross mortgage lending in the UK in 2023 is expected to outturn at circa 28% less than the prior year. Reduced demand resulted in house prices finishing the year 1.8% lower than at the start.

The forecast for the housing market and mortgage market in 2024, remains challenging, whilst interest rates are predicted to fall slowly, mortgage lending is forecast to remain subdued.

The challenging environment has also pushed more UK households into mortgage arrears. However, the rigorous mortgage affordability tests utilised by the sector in the last decade has ensured that the vast majority of customers can still afford their mortgage payments even with the increased pressure on their finances. As a consequence, UK arrears remain low compared to historical norms.

Growth in UK saving balances has slowed significantly in 2023 compared to the prior year. As the cost-of-living challenges continues, more people maybe expected to utilise their savings.

As a sector, many larger banks and building societies are now repaying previous government term funding, the fact that there is over £150bn in funding outstanding at the end of 2023, should continue to support much greater competition in the retail savings market. After a decade of low interest rates, the increase in savings rates is good news for UK savers.

Financial Performance

The Society continues to record healthy pre-tax profits, which reached £1.2m in 2023, in addition to undertaking high levels of investment in people and technology to enable future growth. Increased profit has been generated due to the 8% increase in the mortgage portfolio, higher returns driven by the increasing base rate on our Bank of England reserve and further continual improvements in our net interest margin. The mortgage portfolio finished the year at £162m which is we believe, the highest ever recorded by Beverley Building Society.

As a mutual, rather than maximising profit, we are seeking to achieve a level of profitability to retain a robust capital position, which protects the Society in challenging economic conditions. This year's increase in profit strengthened the Society's Tier 1 capital reserves to £13.5m (2022: £12.6m). The Society continues to operate at capital levels well in excess of minimum regulatory requirements. As noted above, at the same time in 2023 we have sought to protect our membership:

- our borrowers, since November 2021, when the base rate was 0.10%, the Society has passed on only 3.25% of the base rate increases of 5.15%.
- our saving members, by ensuring we responded to changes in the bank base rate and the UK retail savings market, we increased our rates across our savings products through the year.

Indeed, we are proud to note our interest payable in 2023, the amount that the Society paid to members, has almost tripled from the previous year.

Further detail on the Society's financial position and year on year performance is contained in the Directors Report on page 10.

Mortgage Lending

Growth in our mortgage lending has been a particular strategic focus. We continue to support customers who may not fit all the mainstream automated mortgage lending "boxes", with our team of highly skilled mortgage underwriters. Around £10.3m of our lending this year, for example, was to the self-employed and £10.7m was to members who wished to borrow into or at retirement. We also increased our lending to those customers who wanted to build their own homes (£3.5m v £2.2m during 2022). By ensuring our products remain highly relevant to our target market, moving with increased agility and consistently communicating why we are different, we have advanced £36m (2022: £35m) of new mortgages.

Given the importance we place on excellent customer service and ensuring our products remain relevant, a key performance metric is the number of customers who decide to remain with the Society when the mortgage schemes period had come to an end. I am delighted to report this has grown to exceptionally high levels of 81% (2022: 76%), further supporting mortgage growth.

Despite the difficult financial environment, our arrears position as outlined in the Directors' Report, remains low, demonstrating the underlying quality of the Society's mortgage portfolio as a result of our prudent lending policy and careful management of members in financial difficulty.

Similarly, members should be reassured given 2023 house price reduction, our average loan to value ratio (LTV) is 32.7% (2022: 31.4%) continued to remain low, due to prudent lending. This very low LTV significantly protects the Society from future losses.

Savings

We continue to operate a simple building society funding model, unlike many in the sector the Society holds no wholesale or government term funding. Our mortgage book is therefore almost entirely funded by savings customers, in line with the original building society model.

An increasing number of savers in 2023 were looking to invest in notice and fixed rate accounts. The Beverley responded by creating a suite of notice accounts, whereby customers happy to wait for a specified amount of time to access their cash were able to access a higher rate of interest.

We continue to ensure we provide our members with good, competitive returns, with savings rates which are attractive in the market place. At the end of the year for example, our lowest retail saving rate was 3% and our top rates were 5.5%. Aligned to our mission of rewarding members of all ages, we have at periods led the rate tables with products such as our Junior ISA and our 90-day notice account.

In an increasingly automated world, we remain committed to providing a personal friendly service to members in our branch. We are proud that we have the longest opening hours for a bank or building society in Beverley, recognising our members value both face-to-face service and an ability to access their savings at a time of their convenience.

We are pleased to report that in a very competitive environment, with many in the sector looking to replace government funding with retail savings, our savings balances grew by circa 3% year-on-year to £192m.

Investment in People and Technology

Central to our 'Building Better Future' strategy, is ensuring we listen, understand and respond to our members' individual needs. We have therefore recruited additional colleagues to support current and future growth and automation projects. The 'Movers and Shakers'

section of our members' booklet, gives a fuller insight into some of the fantastic colleagues who make up your Society.

We have invested in 2023 to continue to automate manual processes to ensure that colleagues can remain focussed on customer needs, whilst also continuing to improve our business resilience.

Looking ahead, as noted above, the plan in the next few years is to work with our key suppliers to continue to modernise our core technology platform, to enable greater flexibility for our members and efficiency for our colleagues.

Community

A key strand to our purpose is to give back to our region, therefore we have been delighted to support the Dove House Hospice in Hull as our Charity of the year. We want to give a massive thank you to our membership, which have got behind our fundraising initiatives, from an exercise bike challenge to supporting us in running and competitive events, which has resulted in a donation of more than £13,000.

In addition to the Charity of the Year, we have continued to support local, valued institutions which rely on donations, such as Beverley Town Football and Rugby union and East Riding Theatre. We were also delighted to provide donations to Beverley Cherry Tree Pantry and Beverley's Two Churches Housing organisation, to help those in our community that provide valuable services supporting those in need.

Looking ahead, in 2024 we are proud, following a member recommendation, to be supporting Yorkshire Cancer Research as our charity of the year. An independent cancer charity in the Yorkshire region celebrating its 100-year anniversary in 2024.

Climate Change

As a Board we are committed to being a responsible business. We have invested to ensure we both understand and plan for the challenges that climate change presents to our existing and future members. We support the drive towards a zero-carbon society by actively seeking to reduce our own carbon footprint, where possible and appropriate.

Looking Ahead

Whilst recognising the market challenges ahead, we remain confident that our purpose and relevance to members and the wider market is strong, reflected in our 2023 growth.

We remain an ambitious organisation and aim to accomplish much in the coming years, to help better serve our members. As a Board, we remain very aware that we need to continue investment in both people skills and technology, to support our growth strategy. We, therefore, look ahead over the five-year budget horizon, towards a phase of significant investment in our core platform, in order to improve our efficiency and member experience. We also intend to provide a more comprehensive on-line service for those members who prefer to transact in a more automated manner. We recognise this may lead to lower profits for a period during this high investment phase, but the outcome will be a stronger Society, able to grow and support our membership into the future.

The constant core to our strategy is the belief that by delivering our purpose, we are building better futures for our members, partners and the communities we serve.

Janet Bedford
Chief Executive Officer

19 February 2024

Board of Directors

for the year ended 31 December 2023

Executive Directors

Janet Bedford
Chief Executive Officer

Janet has overall responsibility for the Society's performance, including financial, regulatory, risk and people management. A Chartered Accountant, with extensive senior leadership experience in financial services, she has been instrumental in building the Society's level of profitability, capital and liquidity.

Mark Marsden
Risk Director

With over 20 years' retail lending and deposit-taking experience, Mark is responsible for the overall management of the Society's risk control framework and risk appetite and holds the positions of Money Laundering Reporting Officer and Data Protection Officer. In addition to providing risk reports to the Board, Mark manages financial risks associated with climate change.

Sally Hall
Chief Financial Officer

Sally joined the Society in October 2023, replacing Christopher White. Sally is an accomplished finance leader and has over 20 years of experience across varying sectors, including financial services. Sally leads the finance team to deliver value to our members whilst maintaining the financial regulatory requirements of the Society.

Non-Executive Directors

Karen Wint
Non-Executive Director, Chair

Karen joined the Board in February 2021 and took over the role of Chair from Stuart Purdy after he stepped down on 20th February 2023. She has previously chaired the Risk Committee and been a member of the Audit and Compliance Committee. Her career spanning 30 years in the building society sector drives her passion for the mutual model. As Chair, Karen is also a member of the People and Culture Committee.

Bob Andrews

Non-Executive Director

With 35 years in Financial Services primarily in the banking, mortgage and insurance sectors, Bob's strengths are in strategy and growth, governance, culture change and brand development. Working with business leaders to develop operational excellence. He is our People and Culture Chair, Whistleblowing Champion and a member of the Risk Committee.

Oliver Laird

Non-Executive Director

Oliver is an experienced Chief Financial Officer with significant public and private sector experience, including retail financial services. He has previously held senior roles at Lloyds Banking Group, Co-Operative Financial Services, First Direct Bank and more recently at Lookers plc. He is Chair of our Audit & Compliance and a member of the Risk Committee.

Barry Meeks

Non-Executive Director

Barry is a Chartered Director, an experienced financial services NED, Senior Independent Director and committee chair, with specific expertise in mortgages and banking. With over 20 years' experience in the building society sector, he understands regulatory interaction and risk/governance. Barry is also the Senior Independent Director, who deputises for the Chair in their absence. Barry is a member of the People and Culture Committee and Audit Committee.

Mark Robinson

Non-Executive Director

Mark's relevant background in niche lending, distribution, IT infrastructure and culture development, complements his board level leadership experience, predominantly in the mutual sector. He also possesses a strong understanding of risk, compliance, and regulatory relationship management. He is Chair of the Risk Committee and is a member of the Audit Committee.

Stephen Smith

Non-Executive Director

With 40 years' experience in the financial services sector, mainly leading property-related retail businesses for a major UK financial services provider, Stephen has practical expertise of mortgage market distribution, driving growth strategies and an understanding of targeted customer marketing. He is a member of the Risk Committee and People & Culture Committee.

Directors' Report

for the year ended 31 December 2023

The Directors have pleasure in presenting their Annual Report, together with the Audited Accounts and Annual Business Statement for the year ended 31 December 2023.

Business objectives and activities

The Society's business objectives and principal activities are to help families, particularly in our region, achieve affordable home ownership through the provision of mortgage finance, funded primarily by local savings.

The Society intends to remain an independent local Society that plays an active role in its community, providing exceptional personal service and care, underpinned by its experience and expertise.

Its primary financial objective is to grow and manage the business to ensure long term sustainability.

Business Review and Results for the year

The Economy

The UK economy has continued to remain uncertain throughout 2023 as the cost-of-living challenge continues. However, inflation does seem to have steadied towards the back end of the year as the impact of increased interest rates take hold. The Bank of England base rate rose from 3.5% in December 2022 to 5.25% in December 2023, a high not seen for over 15 years. The increases in the bank base rate have had a significant impact on the markets in which the Society operates, the retail savings market and the UK mortgage market.

The increased base rate resulted in a more competitive retail savings environment in 2023 as consumers shopped around for higher savings rates. The Society responded by offering higher savings rates across its saving portfolio, our Junior ISA and new 90-day account were both top of the savings tables in quarter 4 2023.

As the Bank Base Rate increased in the year, pricing across the UK mortgage market also rose. Beverley Building Society worked hard to ensure it was able to offer competitive products to customers through this period. We had a particular focus on ensuring competitive products were offered to existing members reaching the end of mortgage deals. The Society has also absorbed the costs of increases to the Bank Base Rate where possible. Since November 2021, when the base rate was 0.10%, the Society has passed on 3.25% of the base rate increases of 5.15%. Whilst some increases in our SVR were necessary, this action limited the impact on our members monthly mortgage payments at a time when all households are feeling the pressure of rising costs.

Economic Outlook

Inflation has started to fall, so it is expected that interest rates are at, or are close to, their peak and will slowly start to fall in 2024. Whilst this will ease some cost-of-living pressures, it should be noted that the housing market is subdued and a further decline in new lending is expected. Savings growth has slowed year on year as consumers use savings to support the cost of living. The economic outlook is still relatively uncertain; however, the Society continues to be

committed to providing current and new members with mortgage finance. This is funded primarily by local savings and helps families, particularly in our region, achieve affordable home ownership whilst maintaining long term sustainability for the Society. It is likely there will be an election in the UK in late 2024 or early 2025, this could bring with it potential economic risk and uncertainty, however the Society is in a strong financial position to face into this.

Business Performance

As a mutual, the Society does not pay dividends. Profit is therefore re-invested back into reserves, building financial strength and providing long term resilience for members' benefit.

2023 Highlights

- Profit before tax of £1.23m (2022: £0.76m), growth in profitability of 62% on 2022 as the Society strengthens its capital position ahead of key strategic investments in future years to support the Strategy.
- Growth in profitability has been driven by increased income from mortgages and investments which were partly offset by increased interest payable paid to savings members.
- The mortgage book has grown by £11.9m (7.9%) to £162m.
- Balance sheet efficiency maintained with liquid assets of £42.2m (2022: £46.6m)
- Funding has increased by £6.7m despite the more competitive retail savings environment, the Society has offered value for money products to its members to achieve the growth.
- Capital continues to grow helping to protect the Society in challenging economic times.

Profitability and Margin:

The Society's income from mortgages and the interest payable to savings members was impacted in 2023 by the changes to bank base rate and the resulting adjustments in the mortgage and retail savings market (as described above).

The Society was able to increase the rate payable to its savers as the retail market responded to rises in the bank base rate. This resulted in the interest payable costs for the Society increasing from £1.28m in 2022 to £4.97m in 2023.

At the same time, as we increased interest payable costs by £3.69m, and as UK mortgage market rates increased, the Society needed to raise its SVR and associated variable mortgage product rates. As described above, where possible, the Society absorbed some of the increases in the base rate to its SVR. Nonetheless, some rises were necessary resulting in an increase in the interest from mortgages by £3.74m to £7.99m (2022: £4.25m).

Income from investments also increased in the year by £1m to £1.77m (2022: £0.76m), as the Society was able to make a better return on its liquid funds in the higher interest rate environment. As a result of these movements, the Society's net interest margin improved through the year from 1.84% to 2.37% and the Society's net interest income increased by £1.05m to £4.79m (2022: £3.74m).

Net Interest Margin

(Net interest income as a percentage of mean assets.)

Administrative expenses have risen in the year to £3.1m (2022: £2.8m). This is as a result of increased investment as we ensure our Society is sustainable in the future, from both a resource and systems perspective. These costs have increased the Society's management expense ratio in the year to 1.58% (2022: 1.43%) - yet the Society's cost / income ratio has reduced to 66.3% (2022: 76.2%) as a result of the strong growth in Net Interest Income. The Society has increased the provisioning against its overall mortgage book by £396k (2022: £119k). The additions to provisioning were mostly against legacy commercial properties reflecting borrower specific circumstances. (More information on provisioning can be found in the Risk Management Report on page 15).

As a result of the increase in net interest income margin, offset partly by increases in administrative expenses and provisioning, the Society's profit before tax (PBT) for 2023 was £1,230k (2022: £759k).

Profit before Tax (£)

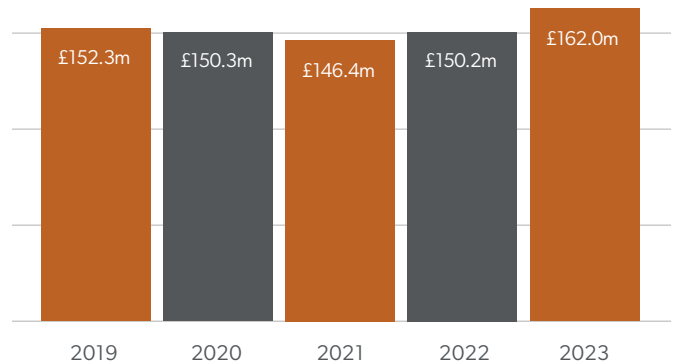

Balance Sheet

Loans and Advances

During the year the Society lent £35.8m of mortgages (2022: £34.7m) and retained 81% of residential mortgage schemes that had come to the end of their mortgage scheme period (2022: 76%). This supported the Society's mortgage book to grow in the year by 7.9% from £150.2m to £162.0m. Overall growth in the mortgage book for two consecutive years is a positive outcome for the Society and supports our Strategy of sustainable growth. The increase in mortgage lending also shows the Society's ability to provide mortgage products and offerings that serve existing and future members well, even in challenging and volatile economic and market conditions.

Mortgage Book (£'m)

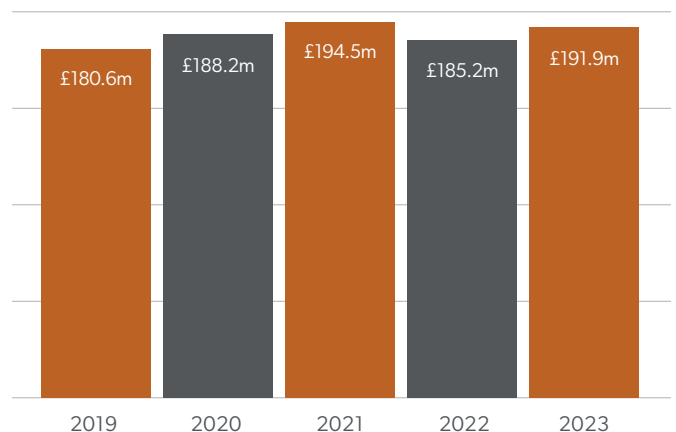

Liquidity

Liquidity was £42.2m at year end compared to £46.6m at the beginning of the year. The reduction is mainly due to the increased mortgage lending in the year, offset by the new savings inflows, however the Society continues to remain within its operational range of its required liquid funds.

Shares and Borrowings

The Society offers straightforward saving products, which offer good value and transparent savings rates. As mentioned above, due to increased interest rates the retail savings market became much more competitive in 2023 as consumers shopped around for higher savings rates. The Society did see some outflows, however we responded by offering higher savings rates across a number of products at various points throughout the year. The Society's savings products remain highly competitive, and we are always developing our savings range and looking for ways and products that could help serve our members' financial needs.

Shares and Borrowings (£'m)

Directors' Report

continued

Capital

Capital is a key measure of the Society's financial strength and is primarily comprised of accumulated profits. Capital supports growth and protects the business against its principal risks. Total capital as a percentage of Risk Weighted Assets (RWA) has increased substantially over the five-year horizon, due to strong profitability and reducing risk within the asset base (as measured by RWA). The reduction in the current year is the result of strong growth of the Society's mortgage book and NIM, increasing RWA by approximately 10% compared to the previous year. The Society's total regulatory capital reserves, which consist of retained earnings, revaluation reserve and collective provision, grew by around 6%.

Total Capital Ratio

The minimum regulatory capital requirement for the Society remains at 8.0% of the Society's risk weighted assets. This is unchanged from the requirement in place at the prior year end as set by the Prudential Regulation Authority (PRA) as part of their capital review that was conducted in December 2020.

Principal Risks and Uncertainties

Similar to all businesses, the Society operates in an environment that contains financial risks. As a result of its normal business activities, the Society is exposed to a variety of risks, the most significant of which are conduct, operational risk, credit risk, interest rate and liquidity risk. The Society has established a number of committees and policies to manage these risks. The role of these committees is described in the Corporate Governance Report. The financial risk management objectives and policies of the Society to cover this risk are described in the Risk Management Report. The Society aims to manage appropriately the risks that arise from its activities and the Board maintains risk appetite statements which are embedded in specific risk management policy statements and promote a culture and philosophy that reflects an awareness and management of actual and potential risk exposures.

Whilst the Society is a relatively straightforward financial services organisation, we inevitably face challenges that present risks to the delivery of our strategic and financial objectives. These risks and uncertainties, the expected impact they have and how we mitigate against them, are summarised below.

Macro-Economic Challenges

The economic climate and outlook for 2024 is described within the Business Review on page 10. This review highlights that households are still being impacted by higher interest rates and we continue to see a cost-of-living crisis in the UK. The key financial risks connected to these current economic challenges include:

Elevated credit risk

The Society recognises that during periods of higher inflation, our members' ability to meet mortgage payments is put under increased pressure. This may be driven by increased costs but also by an increase in national unemployment levels, however it is noted that many forecasters believe we have reached the recent peak. Furthermore, the uncertainty around house prices as we enter 2024 adds further stress and the potential for future customer defaults increases the credit risk the Society faces.

Overall, the Society's low loan to value (LTV) mortgage portfolio and customer profile, concentrated in areas such as later life lending, is well protected from credit loss. The Society has also been successful in recent years in reducing the exposure to the risk from areas of elevated credit risk, such as the legacy commercial mortgage portfolio. The Society regularly reviews the assumptions used to ensure provisions for credit risk are appropriate for both residential and commercial mortgages and this has been an area of significant focus for the Society's external auditors, PwC, as outlined in their Independent Audit Report on page 28. The Society's position with regards to provisioning is outlined within the Risk Management Report on page 15 as well as Note 10 to the accounts.

The credit risk of the Society is regularly reviewed by the Board and specifically assessed within stress scenarios undertaken within the Internal Capital Adequacy Assessment Process (ICAAP).

Lending Targets

Gross Mortgage lending in the UK is estimated to be down year on year by 28% (UK Finance) with some market expectations forecasting new mortgage lending will fall by a further 5% in 2024 (UK Finance). Given the Society's lending targets make up a very small component of the overall market and are concentrated within specialist niche lending areas, the market contraction is expected to have a more limited impact. Furthermore, the Society believes that during a challenging economic period there will be increased demand for its manual underwriting approach ensuring the individual merits and circumstances of each customer are carefully considered. As a result, the Directors believe the Society to be well placed to deliver mortgage lending in the coming year.

Margin Pressure

Increases in the UK Bank Base Rate (BBR) since 2021 have helped the Society to increase the rate it offers its savings members after a long period of lower returns across the UK retail savings market. Throughout the year the Society has managed its interest costs to carefully manage its margin. The Society has successfully managed its margin through a volatile market and significant changes in bank base rate through 2023, we have therefore maintained a strong net interest margin (net interest income as a percentage of mean assets).

It is expected that interest rates are at, or are close to, their peak and will slowly start to fall in 2024. The Society's Assets and Liabilities Committee will continue to monitor and oversee the Society's

margin position with the Society setting asset and liability pricing through financial modelling and assessment of market activity and positioning.

The Society has completed financial assessments to monitor the impact of different outcomes of bank base rate and retail and mortgage pricing within its annual planning cycle and continues to monitor this risk through its Assets and Liabilities Committee. The Directors believe the Society has adequate tools to monitor and control this risk.

IT and Cyber risks

The Society, like all businesses, continues to assess its operational resilience for the future, investing to ensure we have robust working processes, and we have a strong capability to manage unprecedented challenges in the future. We continue to retain a distributed remote working capability, building on the successful demonstration of such business continuity arrangements during the Covid restrictions.

Preparing for the future, the Society has commenced a process of re-platforming its core banking system to enhance both the reliability and efficiency of existing services and create opportunities for future expansion and innovation. Cogniscent of the risks associated with this activity we are deploying structured change management processes, bringing in specialist support, and planning a staged transition over several years with regular checkpoints to ensure minimal disruption to customer services.

High profile cyber-attacks on both financial and non-financial services institutions have become increasingly common. Improving the levels of protection against such incidents is a priority for our Society's Board. We continually review our approach to IT software and systems to ensure we remain operationally robust and cyber resilient. This will be of even higher focus as we move towards re-platforming the core banking system as described above. The Society's business and financial planning continues to include significant investment in key areas to maintain its current strong position and develop and improve where possible.

Liquidity and Funding Risks

The Society has a low-risk approach to treasury management where non call liquid assets are invested in the Bank of England Reserve account. The Society reviews the minimum level of liquidity it needs to meet expected and stressed cashflows within the Internal Liquidity Adequacy Assessment Process (ILAAP) and regular liquidity stress tests.

As mentioned above, the UK retail savings market has become more competitive in 2023 as consumers seek out higher savings rates. Despite this, the Society has grown its funding base in 2023 to support more members with their saving goals. We continue to ensure the range of retail savings products remains competitive and relevant and we have a clear strategy for sourcing funding outlined within the Society's Corporate Plan and Funding Strategy.

Climate Change Risk

The Society recognises the ever-increasing urgency of understanding and responding to the risks associated with climate change, both in the world as a whole and the markets in which the Society operates. Building on the PRA's regulatory guidance in Supervisory Statement SS3/19 (Enhancing banks and insurers' approaches to managing the physical and transitional financial risks from climate change) the Society has embedded the management of these risks within its risk management framework. This has included clarifications of key accountabilities, governance arrangements (the Risk Committee leads for the Board), inclusion in the Risk Register and the development of enhanced management information and reporting. The Society has outlined its approach to climate change further in the Risk Management Report on page 16.

Going concern

The Directors, in line with the responsibilities set out on page 25, have satisfied themselves that the Society has adequate resources to continue in business for the foreseeable future and can, therefore, prepare its Annual Report and Accounts on a going concern basis. To support this conclusion the Directors have reviewed the Society's 5-year Financial Plan as well as scenario and stress testing of expected financial outcomes. The Directors have also reviewed specific stress testing of the Society's capital and liquidity positions within its Internal Capital Adequacy Assessment Process (ICAAP) and Internal Liquidity Adequacy Assessment Process (ILAAP). These results indicate the Society has sufficient capital and liquidity to be able to continue in business, even under the stressed scenarios.

The Society's objectives, policies, and processes for managing risk are set out in the Risk Management Report.

Post Balance Sheet Events

There have been no material balance sheet events identified after the year end date.

Creditor payment policy

The Society's continuing policy concerning the payment of its trade creditors is to pay invoices within the agreed terms of credit once the supplier has discharged its contractual obligations. During 2023, amounts due to relevant creditors of the Society were paid on average within 14 days (2022: 14 days) of receipt of invoice.

Charitable donations

During the year the Society continued to support local charitable and community organisations in cash and kind, a total of £24,000 was donated in 2023. No contributions were made for political purposes.

People

Our policies for human resources are reviewed regularly to ensure the Society attracts and retains high calibre colleagues at all levels. In 2023 the Society invested in a HR manager showing our commitment to ensuring our HR policies, training and people development remain priorities to ensure the effective and efficient delivery of the Society's services.

It is our policy to apply equality of opportunity to all applications for employment. In the case of disabled applicants, full consideration is given to possible adaptations in the workplace to accommodate individual needs. In the event of an existing member of staff becoming disabled, it is our policy to make suitable adaptations to the environment, and nature of the work, in order to accommodate their individual needs.

On 31 December 2023, our employee profile is 61% female and 39% male. Of our eight current senior leaders – the Society executives and the senior management team – three (37.5%) are female and five (62.5%) male. On the Society's Board, three of the Society's directors are female (33.3%) and six are male (66.6%). The Society is committed to promoting diversity, inclusion and gender equality throughout its human resources, recruitment, and people processes. From October 2023, Beverley Building Society has been one of only a small number of UK Building Societies with a female CEO, CFO and Chair of the Board.

Health and safety

Our Board of Directors has overall responsibility for understanding health and safety risks. They ensure that all reasonable precautions are taken to provide and maintain working conditions and practices that comply with health and safety requirements and codes of practice, as they relate to the Society.

Directors' Report

continued

Directors

Sally Elizabeth Hall was appointed as a Director on 2nd October 2023 and being eligible offers herself for election.

In accordance with Rule 26(1) Karen Rita Wint, Janet Elizabeth Bedford and Mark Marsden retire by rotation, and being eligible offer themselves for re-election.

Terms of Reference

The terms of reference for the following committees are available on the Society's website:

- Board
- People & Culture Committee (including matters relating to Nominations and Remuneration)
- Audit and Compliance Committee
- Risk Committee

Independent auditors

PricewaterhouseCoopers LLP ("PwC") were re-appointed as external Auditors to the Society at the Annual General Meeting in April 2023. PwC have indicated their willingness to continue in office and a resolution to reappoint PwC as external auditors will be proposed at the annual general meeting of the Society.

The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant information of which the Society's Auditors are unaware. Each Director has taken all the steps that they ought to have taken as Directors to make themselves aware of any relevant information and to establish that the Society's Auditors are aware of that information.

On behalf of the Board of Directors.

Karen Wint
Chair

19 February 2024

Risk Management Report

for the year ended 31 December 2023

Risk management objectives and policies

The Society is a retailer of financial products in the form of mortgages and savings and has the ability to use wholesale financial instruments to invest liquid asset balances and manage the risks arising from its operations.

The Society has a risk averse culture and maintains a policy of low exposure to risk so as to maintain public confidence and to allow the achievement of its corporate objectives.

The Society has a formal structure for managing risk, including established risk limits, reporting lines, mandates and other control procedures. This structure is reviewed regularly by the Society's Board of Directors, who are charged with the responsibility of managing and controlling the balance sheet exposure and the use of financial instruments for risk management purposes. The Society has established a number of committees and policies to manage these risks. The role of these committees is described in the Corporate Governance Report on page 20.

Details of the Society's disclosures for Pillar 3 are available on the website or from the Society on request from 31st March 2024. For the current year, the Pillar 3 Disclosures have been updated to include revised disclosure requirements set out in revisions to the PRA Rulebook following the UK's implementation of remaining elements of the Capital Requirements Regulation II (CRR II).

Conduct and Operational Risk

Conduct risk is the risk to the delivery of fair customer outcomes. Conduct risk can arise through product design, promotion, sale, fulfilment, and communications.

Operational risk is the risk of loss due to inadequate or failed internal processes, the actions of people, fraud and financial crime, non-compliance with applicable laws and regulations, or external physical events.

The effectiveness of systems and controls for the management of conduct and operational risk is monitored by the Risk Committee. This Committee reviews risk management information including:

- **Key Risk Indicators (KRIs):** Reflecting the overall Risk Appetite, Internal Capital Adequacy Assessment Process (ICAAP) assumptions and policy limits/requirements, KRIs are reviewed to provide an indication of the operating effectiveness of the systems and controls for the management of conduct and operational risk. Operational performance outside normal limits is reviewed in detail to establish any material issues and confirm the adequacy of management responses to address both direct and root causes.
- **Operational risk incidents** (including operational loss data) are reviewed to identify remedial actions and control enhancements which may be required. 'Near misses' are also considered.
- **Complaints data** is considered to ensure there is no evidence of adverse customer outcomes or deficiencies in the Society's responsiveness to complaints. In addition to reviewing internal complaints data the Society reviews experience elsewhere (for example as reported by the Financial Ombudsman Service) with a view to proactive risk reduction.
- **Compliance and risk monitoring results** are monitored to ensure that remedial actions are undertaken on a timely basis.

- **Regulator communications** are reviewed for evidence of any concerns in relation to risk governance or conduct risk and the CEO maintains a regular dialogue with the PRA.
- **Training Completion Rates and results** are monitored to ensure that our staff have the necessary up to date skills and knowledge to fulfil their roles.
- **The Risk Register** is reviewed at least twice a year to ensure it remains up to date and reflective of the strategic plan and is appropriately reflected in the operational risk capital requirement, assessed in the ICAAP.

The Board fully embraces the principles underlying the new FCA Consumer Duty – to ensure that the Society pays due regard to the interests of its customers, delivers good outcomes and prevents harm. These principles are embedded within the Society's culture and working practices. The Society recognises that failure to manage conduct risk can lead to unfair treatment of customers or mishandling of customers' accounts and may adversely affect its business operations, threaten its objectives and strategies and/or the objectives of our Regulator. A structured approach has been applied to the ongoing implementation of the Consumer Duty enabling the Executive and the Board to make informed conduct decisions without exposing the Society or its Members to unacceptable levels of risk. The Board has specifically appointed Stephen Smith as a Board level champion of Consumer Duty to support the Society's management and staff in this key area.

Maintaining and continuously improving the Society's operational resilience, including the confidentiality, integrity and availability of key information systems, and the ability to respond to business disruption and recommence the provision of important business services in a timely manner, is an area of continued focus.

The Society seeks to mitigate operational risk by implementing a strong control environment, supported by a culture that encourages colleagues to engage openly and positively with the Society's Board, senior management and auditors. Operational losses in the last ten years have been low.

Credit Risk – Mortgages

Credit risk is the risk of losses arising from a borrower or counterparty failing to meet its obligations as they fall due.

The effectiveness of systems and controls for the management of credit risk is monitored by the Risk Committee.

In order to help mitigate credit risk, all new lending is assessed against the Lending Policy by experienced colleagues. A full affordability assessment, including an appropriate affordability stress test (currently standard variable rate (SVR) + 2% across all its discounted variable rate products) is completed in all cases, and the separate approvals to Offer and Completion on mortgages enforce 'four eyes' checking, segregation of duties and adherence to Board approved mandates.

In certain circumstances the Society uses forbearance measures to assist those borrowers who are experiencing financial difficulty. For example, we may agree to a temporary transfer to interest-only payments in order to reduce a borrower's financial pressures or offer a term extension in specific cases where a borrower has reached the end of their contractual term and have been unable to repay the outstanding principal balance. These measures are managed in accordance with an internal policy statement, which reflects

Risk Management Report

continued

Treating Customers Fairly (TCF) and Consumer Duty principles and regulatory requirements including regulatory guidance on Forbearance and Impairment Provisions. We aim to put our members first in all instances and to support customers achieve positive outcomes whenever we can. In each case an individual assessment is made to establish affordable and sustainable forbearance options, and to ensure that forbearance is in the best interests of both the borrower and the Society. It is expected that the borrower will resume normal payments once they are able.

At 31 December 2023, there were 2 (2022: 2) loan accounts where the securities were in possession or under Law of Property Act Receivership, with a balance outstanding of £824k (2022: £505k). These securities are let to generate an income stream where this is possible and marketed for sale as the Society is notified they have become vacant. The two accounts attract a specific impairment provision of £375k (2022: £137k). The increase in the overall provisioning balance is a result of one property previously in possession without any associated impairment charges having been sold in the year, and a new legacy exposure falling into possession in the first quarter of 2023 attracting a large provisioning charge.

At the year-end there were 28 (2022: 27) accounts where forbearance measures were currently exercised: the balance of these accounts amounted to £5.31m (2022: £4.98m), or 3.28% (2022: 3.30%) of mortgage balances. There is £223k (2022: £60k) provision held against forborne accounts, the majority of balances do not require provision due to the low loan-to-values on these properties. The average LTV of the properties under forbearance as at 31 December 2023 was 40.9% (2022: 40.4%).

As noted previously the Society has a low average LTV mortgage portfolio however it does retain a small (<5% of total mortgage book by value) legacy commercial (i.e. mortgages fully secured on land) lending portfolio. Such exposures continue to be carefully managed as they run off, and where appropriate provisions are in place to cover losses. Further details around the composition of the mortgage portfolio and its mortgage provisioning are included in notes 9 and 10 of the accounts.

Credit Risk – Liquidity Counterparties

The Society's Liquidity Policy includes strict criteria for counterparties to ensure that its liquidity investments are both diversified and of a high quality. There are Policy criteria in relation to eligible counterparties, eligible investments, single counterparty exposures and maturity structure. Currently all liquid assets are held with the Bank of England or on call with a clearing bank, to minimise as far as possible, credit risk from liquidity counterparties.

Liquidity risk

Liquidity risk is the risk that the Society is unable to meet its financial obligations as they fall due.

The Society's main liabilities are its retail savings products. The objective of the Society's liquidity risk management policy is to help minimise the risk from any mismatches in the timing between maturing assets and liabilities, thereby maintaining the strong solvency of the Society. As noted above, the Society's liquid funds are either deposited with the Bank of England or in call accounts with the Society's clearing banks, all of which allow same day access to funds.

Liquidity risk is managed principally by holding an appropriate

level of high quality, easily realisable liquid assets. The Board has established an appropriate Liquidity Risk Appetite and Policy Statement, supported by a Contingency Funding Plan.

Liquidity levels and a number of associated lead indicators (for example levels of outflows) are monitored by the Executive team on a daily basis. At 31 December 2023 the Society held £42.2m (2022: £46.6m) of liquid assets, representing 22.0% (2022: 25.2%) of shares and borrowings.

The Society's risk appetite, policies, systems and controls for managing liquidity risk are reviewed by the Risk Committee at least annually and approved by the Board. This review process includes approval of the Society's Liquidity Policy and the Internal Liquidity Adequacy Assessment Process (ILAAP). Regular stress testing is an important part of the liquidity risk management framework. The stress scenarios selected are reviewed regularly. A Contingency Funding Plan is in place to ensure that the Society recognises early any indicators that might suggest a developing liquidity crisis, and prompt specific early actions should this be the case. The adequacy of these arrangements has been independently evaluated through the ILAAP.

Interest rate risk

Interest rate risk in the banking book is the risk of losses arising from a change in interest rates.

The Society continued a small amount of fixed rate lending during 2023 with two-year products which it continues to match against fixed bonds of the same duration. Interest rate risk is created if the products are not sufficiently matched. The Board determines its risk appetite for interest rate risk as part of the ICAAP process based on stress tests.

The fixed rate portfolios are currently small (<£10m on either side of the balance sheet), therefore interest rate risk remains limited for the Society. The Society reviews its matching position on both live and pipeline products basis at least monthly.

Basis Risk

Basis risk is the risk of loss arising from assets and liabilities repricing on different interest rate bases. The Society's statement of financial position is priced based on a limited number of interest rate bases.

- Base rate linked assets (tracker mortgages and Bank of England Reserve).
- Administered rate savings and mortgages.
- Fixed rate assets and liabilities.

Basis risk is assessed monthly against the Board's agreed risk appetite, based on both actual and forecast data. The interest rate sensitivity of the Society as at 31 December 2023 is detailed in note 21 to the accounts.

Climate Change Risk

Climate change risks are a combination of:

Physical Risk: the risk of the Society being impacted by climate related events, such as heatwaves, droughts, floods, storms, and sea level rises. These have the potential to lead to financial losses, impaired asset values and reduced creditworthiness of borrowers, and;

Transition Risk: the risks arising from the process of adjustment towards a low-carbon economy. Changes in public policy, technology and consumer sentiment could require reassessment of the value of assets and/or change credit exposures. At present, the Society considers government policy initiatives in relation to housing Energy Performance Certificate (EPC) ratings to be the most material.

The potential physical risks associated from climate change were assessed quantitatively in 2021 via modelling by an independent third party. Based on a High Emissions Scenario ('RCP 8.5') and modelling to 2060 this suggested that:

- The Society has a slightly above average exposure to mortgage collateral in flood risk areas; and
- The Society has a lower-than-average exposure to mortgage collateral in coastal flood and coastal erosion, and to subsidence risk areas.

This reflects the concentration of mortgage lending in Yorkshire and the Humber.

However, when taking into account the low LTV of the portfolio the modelling suggests that the potential losses under this scenario are significantly less than those that arise from severe economic downturns previously modelled and considered in the ICAAP.

The potential transition risk arising from mandatory EPC remediation policies requiring capital investment and potentially 'blighting' low EPC rated securities has also been modelled independently. While the modelling required some informed estimates in the absence of available EPC Ratings for 47% of the Society's mortgage securities, it does suggest that the Society has an above average exposure to properties with lower EPC ratings (categories F or G). The potential impact of mandatory upgrading of these properties to EPC E, EPC

C and to their maximum potential was also modelled. While the potential losses in these situations are significantly higher than from physical risks, they remain significantly less than those that arise from severe economic downturns previously modelled and considered in the ICAAP.

The Board recognises that the conclusions of these analyses are critically dependent on the LTV profile and will ensure that this is appropriately considered in new lending plans. The Society has only a small exposure to securities used for commercial purposes and none of these are considered to be businesses with particular exposure to transition risks.

The Board does not consider the changes to the mortgage book during 2022 and 2023 to have resulted in a material change in the Society's climate change risk but anticipates that the quantitative assessment will be refreshed in 2024. Over the last few years, we have been making choices to reduce the Society's impact on the environment by for example, installing more efficient central heating and to reduce paper by investing in technology to automate current paper-based processes. We have previously engaged a third-party supplier in 2021 to assess and understand the size of our carbon footprint and seek to update this review in 2024, to understand and quantify the changes made and consider the next stage of our internal climate plan.

Mark Robinson
Chair of the Risk Committee

19 February 2024

Directors' Remuneration Report

for the year ended 31 December 2023

This report explains the Society's approach to the remuneration of Executive and Non-Executive Directors detailing the different elements of remuneration paid to individual Directors and the process adopted to set them.

The report also outlines how the Society has regard to the principles in the UK Corporate Governance Code 2018 relating to remuneration alongside the disclosures within the Corporate Governance Report on page 20.

The Procedure for Determining Remuneration

The functions of a Remuneration Committee are discharged by the Society's People & Culture Committee, which consists of four Non-Executive Directors. This Committee focusses on strategic matters which relate to the employment of all colleagues in the Society in particular to the culture of the Society, all People & Human Resources associated Policies, remuneration and reward, learning & development and Performance Management. This Committee also assumes the role of the Nominations Committee and is therefore also responsible for succession planning and identifying and recruiting candidates for board roles. Further information on the Committee's role with regards to Nominations is given in the Corporate Governance Report on page 20.

The Committee meets at least 4 times a year. Attendance at meetings by members is shown within the Corporate Governance section of this document. Bob Andrews Chairs the Committee. Other members are Karen Wint, Stephen Smith and Barry Meeks.

The Society aims to set remuneration which will attract and retain high calibre Executive and Non-Executive Directors ('NEDs') and senior management. The outcome has to be commensurate to the size and scale of the Society, to ensure this is achieved the Committee reviews and benchmarks Executive and Non-Executive packages against supporting evidence from within the building society sector and, where relevant, other comparable industries. The Committee undertakes these reviews at the point of recruitment as well as on a regular basis to ensure remuneration remains suitably competitive to attract and retain colleagues of the necessary calibre. The Society's remuneration of its Executive and Non-Executive Directors is set by the People & Culture Committee, commensurate to the size and scale of the Society as well as its performance and the principles of a mutual organisation.

The individual components of Executive and non-executive Director's remuneration are detailed below.

Executive Directors' remuneration

The main components of the Executive Directors' remuneration are:

Basic salary

This takes into account the job content and responsibilities, individual performance (assessed annually) and salary levels for similar positions in comparable organisations. Basic salary for all staff within the Society is reviewed annually and a cost-of-living increase awarded if appropriate. This annual assessment takes into account inflation through the year.

Pensions

The Society makes contributions equivalent to 10% of basic salary for Executive Directors, to the Society's group defined contribution personal pension plan. To participate in the scheme Directors must contribute a minimum of 5% of their basic salary.

Other benefits

These include private medical insurance, permanent health insurance and participation in a Group income protection scheme.

Bonus scheme

The Society does not operate any bonus schemes for its Executive Directors or any staff.

Contractual Terms

Executive Directors have contractual notice periods of six months and so any termination payment would not exceed six months' salary and accrued benefits. The performance of the Executive Directors is reviewed on an annual basis by the Remuneration Committee.

Non-Executive Directors' remuneration

The People & Culture Committee, reviews the remuneration of all Non-Executive Directors on an ongoing basis, using external data for other comparable building societies. There are no bonus schemes for Non-Executive Directors, and they do not qualify for pension entitlement or other benefits. Non-Executive Directors do not have service contracts.

The Year Ahead

The People & Culture Committee has set out its agenda of activity for 2024 and intends to focus, in the year ahead, on key areas such as the clarity, transparency and communication of the Society's values, the strength of the Society's employee benefits package and reassessing the Society's suite of human resources materials, policies and performance management tools.

Bob Andrews Chair of the People & Culture Committee

19 February 2024

PRA and FCA Remuneration Codes

The Society has adopted a Remuneration Policy, which describes how the Society complies with the relevant sections of the Financial Conduct Authority's (FCA) and Prudential Conduct Authority's (PRA) Remuneration Codes. These Remuneration Codes require the Society to disclose the remuneration of a range of staff including Executive Directors, Non-Executives and other senior management, staff engaged in control functions and risk takers whose role has a material impact on the Society's risk profile.

As at 31 December 2023, the Society had 14 staff that were classified as material risk takers (31 December 2022: 14). Their remuneration for the period is shown in the table below.

Corporate Governance Report

for the year ended 31 December 2023

The Society has regard to the best practice principles in the UK Corporate Governance Code 2018 issued by the Financial Reporting Council, to the extent that they apply to a building society. We have complied with the relevant aspects of the UK Corporate Governance Code provisions considered necessary, noting that not all the Code provisions are complied with due to the small size and scale of operations. The Society has set out, below, its approach to key areas set out within the Corporate Governance code:

1. Board Leadership and Society Purpose

Code Principle: A successful company is led by an effective and entrepreneurial board, whose role is to promote the long-term sustainable success of the company, generating value for shareholders and contributing to wider society.

The board should establish the company's purpose, values, and strategy, and satisfy itself that these and its culture are aligned. All Directors must act with integrity, lead by example, and promote the desired culture.

The board should ensure that the necessary resources are in place for the company to meet its objectives and measure performance against them. The board should also establish a framework of prudent and effective controls, which enable risk to be assessed and managed.

In order for the company to meet its responsibilities to shareholders and stakeholders, the board should ensure effective engagement with, and encourage participation from, these parties.

The board should ensure that workforce policies and practices are consistent with the company's values and support its long-term sustainable success. The workforce should be able to raise any matters of concern.

Board Comment: The Board's responsibilities are described in the Society's Rules and within its Terms of Reference which can be found on the Society's website (<https://beverleybs.co.uk/about-us-corporate-info>). The Board reviews its performance annually.

The Society's purpose and strategic aims are discussed and approved by the Board annually. It then meets regularly to challenge and monitor management performance in delivering the strategy in the interests of the long-term success and sustainability of the Society. Increasingly this includes the effective management of the financial risks associated with climate change.

There are regular Board meetings throughout the year, including topic specific workshops and at least two days focused specifically on strategy. The Non-Executive Directors meet without the Executive Directors present at least once a year.

Barry Meeks is appointed Senior Independent Director, providing an alternative channel of communication for Directors, colleagues and members and chairing the meeting where the Chair's performance is appraised.

Bob Andrews is the appointed Non-Executive Director with specific responsibility for Board engagement with Society staff. This role aligns with his role chairing the Society's People & Culture Committee.

There are three committees to which the Board delegates the following responsibilities:

i. Audit and Compliance Committee

The Committee, chaired by Oliver Laird, considers regulatory compliance matters, the adequacy of internal controls, reviews reports from both the Society's internal and external auditors and reviews any changes in accounting policy and practice. Meetings are held at least four times a year and the other members of the Committee are Barry Meeks and Mark Robinson. Further detail on the activities of this Committee are set out in the 'Annual Report of the Audit & Compliance Committee' section of this document.

ii. People & Culture Committee

The People & Culture Committee, chaired by Bob Andrews, meets at least quarterly and:

- independently reviews the remuneration, benefits and contracts of Non-Executive Directors and Executive Directors; and
- reviews the structure, size and composition of the Board. The Committee also gives consideration to succession planning, taking into account the challenges and opportunities facing the Society and therefore the skills and expertise needed.
- reviews HR policies to ensure legislative compliance and alignment with the Society's values and strategic objectives.

Further details can be found in the Directors' Remuneration Report on page 18.

The other members of the Committee are Karen Wint (Board Chair), Stephen Smith and Barry Meeks.

iii. Risk Committee

The Risk Committee, chaired by Mark Robinson, meets at least four times a year. The Committee is responsible for the oversight and challenge of the Society's risk management framework to identify, manage and mitigate key risks faced by the Society. Other members of the Committee are Oliver Laird, Bob Andrews, and Stephen Smith.

Board and Committee membership attendance record

The table below shows the number of meetings of the Board and its Committees at which each Director was present and in brackets the number of meetings that Director was eligible and able as a member of the Board and Committee to attend during the year.

	Board	Audit and Compliance	People & Culture	Risk

S C A Smith	8/8	-	5/5	5/6
C B White	4/4	-	-	-
K R Wint	8/8	-	5/5	-

S Purdy resigned from the Board on 20 February 2023

C White resigned from the Board on 31 August 2023

S Hall joined the Board on 2 October 2023

Where required, and in line with the Senior Management Regime rules as set out by the Prudential Regulatory Authority (PRA), changes to senior management functions are subject to regulatory approval. At 31 December 2023 there were no outstanding regulatory approvals.

2. Division of Responsibilities

Code Principle: The chair leads the board and is responsible for its overall effectiveness in directing the company. They should demonstrate objective judgement throughout their tenure and promote a culture of openness and debate. In addition, the chair facilitates constructive board relations and the effective contribution of all non-executive Directors, and ensures that Directors receive accurate, timely and clear information.

The board should include an appropriate combination of executive and non-executive (and, in particular, independent non-executive) Directors, such that no one individual or small group of individuals dominates the board's decision-making. There should be a clear division of responsibilities between the leadership of the board and the executive leadership of the company's business.

Non-Executive Directors should have sufficient time to meet their board responsibilities. They should provide constructive challenge, strategic guidance, offer specialist advice and hold management to account.

The board, supported by the company secretary, should ensure that it has the policies, processes, information, time and resources it needs in order to function effectively and efficiently.

Board Comment: The Board's responsibilities are described in its Terms of Reference, reviewed annually. All Non-Executive Directors (NED) are considered to be independent.

The Board maintains a comprehensive skills matrix.

There is a majority of NEDs on the Board and each Sub-committee is constituted solely by NEDs. The role of Chair and CEO are held by separate individuals with a clear division of responsibilities.

A Senior Independent Director has been appointed to support the Chair, act as a secondary liaison point for Directors and complete the annual review of the Chair's performance.

Board and sub-committees review their performance and effectiveness, including their access to Management Information, annually.

A minimum time commitment is enshrined in NED Letters of Engagement to ensure NEDs dedicate sufficient time to the Society. Adherence to this is overseen by the Society's Chair and is considered as part of each NEDs' annual performance review.

The Board annually reviews its performance and the appropriateness of the policies, processes, information available to the Committee as well as the time and resources available for meetings.

There is no designated Company Secretary, this being considered disproportionate given the size and complexity of the Society. The functions are discharged jointly by the Executive Directors.

Dialogue with Shareholders

As a mutual organisation the Society's membership consists of individuals who are also the Society's customers. The Society is committed to dialogue with members through social media and events attended by Executive and Non-Executive Directors. The purpose of this dialogue is to understand our members and better serve their needs.

Constructive use of the Annual General Meeting (AGM)

Each year the Society sends details of the Annual General Meeting to all members who are entitled to vote. Members are encouraged to vote by completing a proxy form and returning it to the Society by an agreed deadline or by attending the AGM itself, which is held in the early evening to encourage attendance. The Society encourages members to vote by linking the number of votes cast to a donation to charity. All Board members are present at the AGM unless there are exceptional circumstances that prevent attendance. Board members are encouraged to meet with members both before and after the meeting and to answer questions on a formal and informal basis.

The proper conduct of voting at the Annual General Meeting is assured by engaging professional support. For the financial year ending 31 December 2023 this was arranged through Civica.

Corporate Governance Report

continued

3. Composition, Succession and Evaluation

Code Principle: Appointments to the board should be subject to a formal, rigorous and transparent procedure, and an effective succession plan should be maintained for board and senior management. Both appointments and succession plans should be based on merit and objective criteria and, within this context, should promote diversity of gender, social and ethnic backgrounds, cognitive and personal strengths.

The board and its committees should have a combination of skills, experience and knowledge. Consideration should be given to the length of service of the board as a whole and membership regularly refreshed.

Annual evaluation of the board should consider its composition, diversity and how effectively members work together to achieve objectives. Individual evaluation should demonstrate whether each Director continues to contribute effectively.

Board Comment: The Society Board is structured as follows:

The Chair

The Chair sets the direction and culture of the Board, facilitating effective contribution from Directors, maintaining constructive relations between Executive and Non-Executive Directors and ensuring that Directors receive accurate, timely and clear advice and information.

Prior to the appointment of the new Chair an assessment to confirm her independence was carried out, in line with the requirements of the UK Corporate Governance Code. This ensured that she had appropriate experience and business knowledge relevant to the Board together with her commitment to enhance the benefits of mutuality for members.

Non-Executive Directors

The Non-Executive role at the Society requires understanding of the risks in the business, commercial leadership within a framework of prudent and effective risk management controls, independently monitoring performance and resources, and developing, scrutinising and constructively challenging strategic proposals, whilst supporting the Executive management.

The Society has appointed a Senior Independent Director who provides support for the Chair and an alternative route for communication from members and staff. Their main responsibilities are to carry out the appraisal of the Chair and to chair meetings when the Chair is unavailable.

At least annually a meeting attended by Non-Executive Directors without the Executive Directors present is held. The Senior Independent Director also leads an annual meeting at which the Chair's performance is reviewed without the Chair's attendance.

The Composition of the Board

At 31 December 2023 the Board consisted of three Executive Directors and six Non-Executive Directors who provide the appropriate mix of skills and professional expertise required. The Board considers that all its Non-Executive Directors are free of any relationship which could prejudice their use of independent judgement.

The Board annually revisits its collective skills, experience and knowledge with reference to a Board Skills Matrix and individual Development Plans are agreed.

Appointments to the Board

Board appointments are managed through the People & Culture Committee. This Committee also maintains succession plans for all senior management and the Board. The recruitment process for Board members involves external support explicitly instructed to seek a diverse range of candidates. Board appointments are limited to 9 years, although some flexibility is allowed where there is demonstrably continued independence of thought and action, and it is considered to be in the best interests of the Society.

The Society values diversity but always makes both Executive and Non-Executive Director appointments on merit, based on the specific skills and experience required to complement existing skills under the succession plan. To this end external search agencies are generally engaged. During the 2023 a search for a Chief Financial Officer took place, the recruitment process was led by the Chair of the People & Culture Committee and led to the appointment of Sally Elizabeth Hall as Chief Financial Officer from 2nd October 2023.

All Directors must meet the regulatory fitness and propriety standards. The People & Culture Committee leads the process and recommends a candidate. The Board decides whether to appoint the candidate. Each Director must obtain appropriate regulatory approvals prior to fulfilling their control function as a Director. Given the small size of the Society's staffing, the Society has not adopted all detailed elements of the Women in Finance Charter but is committed to having regard to its principles.

Commitment

Directors are informed of the time commitment in the letter of appointment. The People & Culture Committee evaluates the ability of Directors to commit the time required for their role, prior to appointment. The appraisal process carried out by the Chair each year also assesses whether Directors have demonstrated this ability during the year. The attendance record during the year of Board and Committee members is set out on page 21, and Board members' significant other commitments are set out in the Annual Business Statement on page 56.

Development

The Society provides a formal induction process for new Directors and maintains a comprehensive Board Skills Matrix. This includes the nature of building societies Directors' responsibilities and duties, the management information they will be provided with and how to interpret this, information on the Society, an overview of the regulatory requirements and details of significant current issues for the Society and the industry. The Chair ensures that Non-Executive Directors continually update their skills and knowledge to fulfil their role on the Board and any Committees.

Individual and collective training and development needs are identified as part of the annual appraisal of the Board and individual Directors' performance and effectiveness. These needs are usually met by attendance at industry seminars and conferences and inviting experts on a topic to Board Meetings.

Information and Support

The Chair ensures that the Board receives information sufficient to enable it to discharge its responsibilities. The Society continually improves management information to assist the Committees in discharging their terms of reference. The Board has access to independent advice if required.

Evaluation

The Society maintains a comprehensive Board Skills Matrix and the Chair carries out individual appraisals for each Non-Executive Director and the Board as a whole. The Board Skills Matrix is reviewed by the People & Culture Committee. The Board regularly carries out a review of the effectiveness of each committee of the Board. As part of that review recommendations may emerge as to changes in the scope and work of the committees and refreshing their membership.

Re-election

The Society's Rules require all Directors to submit themselves for election by the Members at the first opportunity after their appointment and for re-election every three years thereafter. All new Non-Executive Directors appointed to the Board will not normally serve for more than nine years.

The People & Culture Committee has considered the pros and cons of subjecting all Directors to a process of annual re-election and concluded that this would be disproportionate. It has, however, reviewed the future re-election timetable to ensure the associated key person risk is managed effectively.

4. Audit, Risk and Internal Control

Code Principle: The board should establish formal and transparent policies and procedures to ensure the independence and effectiveness of internal and external audit functions and satisfy itself on the integrity of financial and narrative statements.

The board should present a fair, balanced and understandable assessment of the company's position and prospects.

The board should establish procedures to manage risk, oversee the internal control framework, and determine the nature and extent of the principal risks the company is willing to take in order to achieve its long-term strategic objective.

Board Comment: The Board confirms that the annual report and accounts, taken as a whole, are fair, balanced and understandable and provides the necessary information for Members and others to assess performance, strategy and the business model of the Society. The responsibilities of the Directors in relation to the preparation of the Society's accounts and the statement are set out separately on page 27. The statement that Society's business is a going concern is contained in the Directors Report on page 13.

The Board is collectively responsible for determining the risk appetite and strategies for risk management and control as described in the Society's Risk Appetite Policy. Senior management is responsible for designing, operating and monitoring risk management systems and controls. Each Board committee has oversight responsibility for the risks and controls within its remit. The Risk Committee assesses the adequacy of the risk related output of this process. The Society's internal auditors, RSM LLP, provide independent assurance to the Audit Committee that the systems are appropriate, and controls effectively applied. The Audit Committee also receives reports on internal controls from the Society's external auditor. Where recommendations for improvements to the Society's controls are identified by a Board Committee these are monitored by senior management and are reported to the appropriate committee.

The Board has conducted an appropriately robust assessment of the principal risks facing the Society, including those that would threaten its business model, future performance, or liquidity. A summary of those principal risks and how they are mitigated is contained in

the Directors' Report. The Board concludes that the Society has a strong compliance culture and has reviewed the effectiveness of the systems in place, and the findings of the internal and external auditors.

During 2024 the Board will consider the implications of the revisions to the UK Governance Code published 22 January 2024 and ensure that it takes all actions necessary to enable it to continue to comply to the extent necessary based on the operations of the Society when those changes take effect.

Audit Committee and Auditors

The Society has an Audit and Compliance Committee currently comprising of three Non-Executive Directors. These Directors have relevant experience and expertise. The Society's external and internal auditors and the Executive Directors and other Senior Management attend by invitation. The responsibilities of the Committee as well as a summary of its activities in the year are set out within the Annual Report of the Audit & Compliance Committee. The Committee meets at least four times a year and on occasion the members of the Committee meet with the external and internal auditors without the Executive Directors present.

During 2023 the Audit and Compliance Committee, led by the Chair, conducted a formal tender exercise for the provision of internal audit services. This resulted in the reappointment of RSM LLP.

5. Remuneration

Code Principle: Remuneration policies and practices should be designed to support strategy and promote long-term sustainable success. Executive remuneration should be aligned to company purpose and values, and be clearly linked to the successful delivery of the company's long-term strategy.

A formal and transparent procedure for developing policy on executive remuneration and determining Director and senior management remuneration should be established. No Director should be involved in deciding their own remuneration outcome.

Directors should exercise independent judgement and discretion when authorising remuneration outcomes, taking account of company and individual performance, and wider circumstances.

Board Comment: The Board's policy is to set remuneration levels which will attract and retain high calibre Executive and Non-Executive Directors ('NEDs') and senior management whilst remaining proportionate to the size and scale of the Society.

The functions of a Remuneration Committee are discharged by the Society's People & Culture Committee, which consists of four Non-Executive Directors. Whilst the Executive Directors attend the People & Culture Committee, they take no part in the determination of their own remuneration or reward.

The Directors' Remuneration Report on page 18 gives further information on how the Society determines the remuneration of Directors.

**Karen Wint
Chair**

19 February 2024

Annual Report of the Audit & Compliance Committee

for the year ended 31 December 2023

The Audit and Compliance Committee (the 'Committee') has been established by the Board of the Society with the primary purpose and responsibility to assist the Board in its oversight responsibilities in audit related areas. To achieve this objective, the Committee considers, in particular, the Society's financial reporting arrangements, the effectiveness of its internal control framework, the internal and external audit processes and the application of the whistleblowing procedures.

Committee Membership

The membership of the Committee comprises of three independent Non-Executive Directors that have been selected for their relevant experience in business, finance and audit. The Committee Chair is Oliver Laird. The other Committee members are Mark Robinson and Barry Meeks.

Oliver is a Chartered Accountant with significant audit and accounting experience as well as a strong background in financial services.

Further information about the members of the Committee can be found on page 7 and 8 where there are biographies of each Director. The attendance of each Director at the Audit & Compliance Committee can be found on page 21.

Committee Meetings

The Committee meets, at minimum, four times a year. During 2023, the Committee met five times (2022, four times).

Regular attendees of the Committee include the Chair of the Society's Board of Directors, the Chief Executive, the Chief Financial Officer, the Risk Director and the Chief Operating Officer.

The Society's Internal Auditors and External Auditors are invited to all meetings of the Committee. Both the Internal and External Auditors meet with Committee members at the end of each Committee meeting to discuss confidential matters, without Executive management being present.

The minutes of each meeting are distributed to the Board and the Committee chair provides an update on key matters discussed by the Committee at the next meeting of the Board of Directors.

Committee Effectiveness

The Committee acts independently of the Executive to ensure that the interests of the Society's members are properly protected in relation to financial reporting and internal control.

The Committee has reviewed the collective skills of members and concluded that the Committee's balance of skills, knowledge and experience is appropriate and relevant to the sector in which the Society operates.

The Committee regularly conducts a formal self-assessment to determine its effectiveness. This assessment includes input from members and regular attendees of the Committee. An assessment was last completed in 2023 which concluded that the Committee had operated effectively and in accordance with its Terms of Reference.

Purpose and Responsibilities of the Committee

The key responsibilities of the Committee are set out below in the table:

Integrity of Financial Reporting	<ul style="list-style-type: none">• Reviewing and, where necessary, challenging critical accounting policies and significant financial reporting judgments and estimates in the Financial Statements• Monitoring the integrity and appropriateness of the annual financial statements of the Society (the 'Financial Statements')• Providing guidance and advice to the Board on whether the Financial Statements and Annual Report, when taken as a whole, are fair, balanced and understandable
External Audit	<ul style="list-style-type: none">• Appointing the external auditors, and considering their effectiveness independence and objectivity throughout the audit cycle• Considering the planning, scope, and findings of the annual external audit, and• Considering the remuneration and effectiveness of the external auditor
Internal Audit	<ul style="list-style-type: none">• Considering and approving Internal Audit's work programme and the associated costs• Assessing the effectiveness, performance, and remuneration of the outsourced internal audit function
Internal Control Framework	<ul style="list-style-type: none">• Monitoring the adequacy and effectiveness of the internal controls framework of the Society• Monitoring the work plan of the Society's compliance function• Reviewing reports issued by internal and external audit and agree actions and responses with management where appropriate
Whistleblowing	<ul style="list-style-type: none">• Overseeing the application by the Society of the Financial Conduct Authority's policies and procedures on whistleblowing; and• Assessing the independence, autonomy, and effectiveness of the resolution of any significant matters subject to a whistleblowing event

Committee Activity

The activities undertaken by the Committee to fulfil its responsibilities, in relation to the year 2023, are outlined below:

Integrity of financial reporting

The Committee reviewed the integrity and appropriateness of the 2023 Financial Statements including the Annual Report and Accounts for the year ended 31 December 2023 and the Summary Financial Statements disclosed within the Society's Annual Member Review. Through this review the Committee applied appropriate professional scepticism in key areas of judgement and took into account the views of the external auditors. To support the process, the Committee considered reports from the Chief Financial Officer, and other members of the Society's senior management team.

For the 2023 Financial Statements, the Committee examined and challenged the following areas of judgement and how they affected the 2023 Financial Statements:

1. Loan Loss Provision

The Committee reviewed the key assumptions used by management to calculate the loan loss provisions in the Financial Statements, the sensitivity of the calculation to these assumptions and any changes in those assumptions when compared to prior periods and industry standards.

In particular, the Committee assessed the assumptions within the provisioning model in context of the current challenging macro-economic environment.

The Committee also considered and challenged the assumptions used in the calculation of the loan loss provisions against its legacy commercial mortgage book.

After careful consideration, the Committee was satisfied that the loan loss provisions made in the Financial Statements were appropriate.

2. Going Concern

The Committee formally considered the assumptions relating to the going concern basis of preparation of the Financial Statements. The Committee specifically considered the costs associated with Core Banking system replatforming along with margin squeeze and the impact on profit, capital and liquidity. After careful analysis and debate, the Audit Committee recommended to the Board of Directors that the use of the going concern basis for the preparation of the annual financial statements was appropriate.

Further details on the critical judgements, estimates and assumptions which have a significant impact on the financial statements are set out in note 1 of the accounts.

Following consideration of the matters outlined above the Committee recommended to Board that the Financial Statements gave a fair, balanced and understandable view of the Society's business performance and financial position.

External Audit

The Society's independent external auditors are PricewaterhouseCoopers LLP ("PwC") having been re-appointed in 2023.

In the year, the Committee reviewed PwC's Audit plan including details of the scope of the audit, the calculation of materiality to be applied and their assessment of key risks. The auditor's approach to testing and the audit timeline were also discussed with the Committee alongside the fees for completion of the audit. Reports issued by the external auditors were considered by the Committee through the year, including any control weaknesses identified within the Society's processes or financial statements. The Committee also reviewed the auditors' report on the Annual Report and Accounts for the year ended 31 December 2023 and the Summary Financial

Statements disclosed within the Society's Annual Member Review.

The Committee reviewed the independence of PwC in the year concluding they remained independent. A review of the effectiveness of External Audit is carried out on an annual basis.

Internal Audit

The Society has an established Internal Audit function, provided by RSM Risk Assurance Services LLP ("RSM") to provide independent objective assurance and advisory oversight of the operations and systems of internal control within the Society.

During 2023, the Committee reviewed, challenged and approved the proposed Internal Audit plan and budget for the year. Internal Audit completed 7 engagements during the year which are outlined below:

- A review of the Society's Credit Risk Management Framework, primarily focussed on the controls in place in relation to lending by first legal charge on owner occupied dwelling property to prime borrowers (Fully Secured on Residential Property - FSRP), but also considering legacy BTL and FSOL portfolios from a management information perspective.
- A review of governance practices. An assessment of key governance arrangements, including specific focus on the role and responsibilities of the Board, Board-Committees, and Executive Management.
- A mortgage underwriting review, to confirm whether there is evidence that mortgages have been underwritten in adherence with the Society's Lending Policy, in line with mandates and to assure file completeness.
- A review of the Society's operational resilience arrangements, focussed on arrangements to identify important business services and secure their availability within appropriate impact tolerances.
- A review of the Society's pricing model (the basis for pricing decisions).
- Review of the design of the product lifecycle with specific emphasis on the expectations outlined within the FCA's Consumer Duty requirements.
- A review of progress and activity to date in the ongoing process of virtualising its IT operating environment. This included a technical assessment of the physical to virtual migration of the existing on-premise server, and an assessment of project plan documentation that set out the objectives, design and remit of the project, together with planned governance and operational controls and associated risk management.

The Committee considered the findings of each engagement and the adequacy, completeness and timeliness of management responses. The implications of any significant findings on the effectiveness of the overall internal control system and risk management framework were assessed. The Committee also met with Internal Audit regularly without management presence. A review of the effectiveness of Internal Audit is carried out on an annual basis.

Internal Control Framework

The Risk Management Report, above, identifies the principal risks and the controls in place to mitigate those risks.

Alongside, the reports issues by internal audit, outlined above, the Committee reviewed and approved the Society's Compliance Monitoring Plan for 2023. The Society's risk function (second line) manage and perform the compliance plan to support the Committee in gaining assurance over the design and effectiveness of key controls across the organisation.

Following review of this information, the Committee is satisfied that the Society has an adequate and effective framework for risk management, governance and internal control that operated effectively throughout the year.

Annual Report of the Audit & Compliance Committee

continued

Whistleblowing

The Board has delegated responsibility for the review of the policy on whistleblowing and oversight of the application of that policy to the Audit Committee.

Any significant matters arising are brought to the attention of the Committee. The Committee is then responsible for assessing the independence, autonomy, and effectiveness of the resolution of any significant matters subject to a whistleblowing event. No such matters were brought to the attention of the Committee during the year.

Oliver Laird
Chair of the Audit and Compliance Committee

19 February 2024

Statement of Directors' responsibilities in respect of the financial statements

The Directors are responsible for preparing the Annual Report and Accounts and the financial statements in accordance with applicable law and regulation.

The Building Societies Act 1986 (the Act) requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law).

Under the Act, Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Society and of the profit or loss of the Society for that period. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Society will continue in business.

The Directors are responsible for safeguarding the assets of the Society and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the Society's transactions and disclose with reasonable accuracy at any time the financial position of the Society and enable them to ensure that the financial statements comply with the Building Societies Act 1986.

The Directors are responsible for the maintenance and integrity of the Society's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' Responsibilities for Accounting Records and Internal Control

The Directors are responsible for ensuring that the Society:

- Keeps proper accounting records that disclose with reasonable accuracy at any time the financial position of the Society, in accordance with the Act; and
- Takes reasonable care to establish, maintain, document and review such systems and controls as are appropriate to its business in accordance with the rules made by the FCA and PRA under the Financial Services and Markets Act 2000.

The Directors are responsible for such internal controls as they determine are necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error, and they have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Society and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Society's website. Legislation in the United Kingdom governing the preparation and dissemination of Annual Accounts may differ from legislation in other jurisdictions.

Directors' confirmations

In the case of each Director in office at the date the Directors' Report is approved:

- so far as the Director is aware, there is no relevant audit information of which the Society's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Society's auditors are aware of that information.

On behalf of the Board,

Karen Wint
Chair

19 February 2024

Independent auditors' report to the members of Beverley Building Society

Report on the audit of the annual accounts

Opinion

In our opinion:

- Beverley Building Society's annual accounts (the "annual accounts") give a true and fair view of the state of the society's affairs as at 31 December 2023 and of the society's income and expenditure and cash flows for the year then ended;
- the annual accounts have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- the annual accounts have been prepared in accordance with the requirements of the Building Societies Act 1986.

We have audited the annual accounts, included within the Annual Report & Accounts (the "Annual Report"), which comprise: the Statement of Financial Position as at 31 December 2023; the Income Statement and Statement of Other Comprehensive Income, the Statement of Cash Flows, and the Statement of Changes in Members' Interests for the year then ended; and the notes to the annual accounts, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the annual accounts section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the society in accordance with the ethical requirements that are relevant to our audit of the annual accounts in the UK, which includes the FRC's Ethical Standard applicable to public interest entities and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided to the Society.

Our audit approach

Overview

Materiality	<ul style="list-style-type: none">• £134,000 (2022: £126,000)• Based on 1% of Total reserves attributable to members.
Scoping	<ul style="list-style-type: none">• We conducted our audit testing using an audit team from Leeds and Manchester; and• We perform audit procedures over all material account balances and financial information of the Society.
Key audit matters	<ul style="list-style-type: none">• Impairment provision for loans and advances to customers.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the annual accounts. We looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Capability of the audit in detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined in the Auditors' responsibilities for the audit of the annual accounts section, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Society/industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of UK regulatory principles such as those governed by the Prudential Regulation Authority ('PRA'), Financial Conduct Authority ('FCA') and UK tax law, and we considered the extent to which non-compliance might have a material effect on the annual accounts. We also considered those laws and regulations that have a direct impact on the annual accounts such as the Building Societies Act 1986. We evaluated management's incentives and opportunities for fraudulent manipulation of the annual accounts (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries that could be used to manipulate financial performance and management bias in accounting estimates. Audit procedures performed included:

- Review of correspondence with the FCA and PRA;
- Testing of significant accounting estimates (See key audit matters below);
- Testing of journal entries which contained unusual account combinations and other specific risk-based criteria back to corroborating evidence;
- Discussions with management in relation to known or suspected incidents of non-compliance with laws and regulations and fraud; and
- Review of internal audit reports in so far as they related to the annual accounts.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the annual accounts. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations or through collusion.

Key audit matters

Key audit matters are those matters that, in the auditors’ professional judgement, were of most significance in the audit of the annual accounts of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the annual accounts as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<p>Impairment provision for loans and advances to customers</p> <p>The Society holds an impairment provision of £871k (2022: £475k) to account for incurred impairment losses on the mortgage books.</p> <p>This is split between a collective provision of £203k (2022: £231k) to account for losses where an impairment indicator has not yet been identified and a specific provision of £668k (2022: £244k) to cover losses on loans where impairment indicators have been identified.</p> <p>The specific provision is assessed by reference to loans that are aged past due three or more months in arrears, that have been repossessed by the Society or experienced other, non arrears related impairment indicators.</p> <p>The collective provision is based on a management assessment of ‘incurred but not reported’ impairment risks and the majority of the provision is held against legacy exposures fully secured on land.</p> <p>The highest degree of estimation uncertainty is considered to relate to the incomplete capturing of specific provision indicators and collateral valuation haircuts applied to specifically impaired loan assets.</p> <p>In respect of the collective provision management also apply judgemental haircuts to the value of loan collateral to account for uncertainties in valuation.</p> <p>The Society has limited loss data on which to base assumptions in general so there is a high degree of estimation uncertainty in deriving impairment provisions.</p> <p>Our work focussed on the reasonableness of assumptions used in specific provisions where the provision for some exposures is individually material. We also focussed on the judgemental assumptions adopted in respect of the collective provision against loans fully secured on land.</p> <p>The directors’ disclosures are given in note 10. Management’s associated accounting policies are given on page 36. Management’s judgements in the application of the accounting policy and critical estimates is disclosed on page 38. The Audit Committee’s consideration of the matter is described on pages 24 to 26.</p>	<p>We discussed the basis of the allowance for impairment with management and the Audit Committee, including the rationale for the accounts identified within the specific provision.</p> <p>We challenged the conceptual soundness of the methodology and used our experience to consider impairment indicators seen within the wider industry, including the impact of sustained high inflation and interest rates, and their applicability to the Society’s portfolio.</p> <p>We tested the completeness of the individually assessed provision by selecting a sample of loans under forbearance, arrears or other non-arrears indicators and ensuring their inclusion within the provision. We also tested the completeness of provisions by performing sample testing over borrower repayments and collateral valuations across the performing loan book.</p> <p>We audited the reasonableness of significant assumptions adopted in the specific provision model by obtaining evidence over management’s planned realisation strategy, the latest correspondence with the borrower, whether the loan asset is giving rise to cash flows for the Society and the value of collateral including estimates over collateral haircuts where relevant. We engaged an auditor’s property valuation expert to review a sample of third party valuation reports used to support mortgage collateral valuations to consider their reasonableness.</p> <p>With regards to the collective provision we challenged management on the appropriateness of collateral value haircuts applied by reference to industry data and previous loss experience of the Society, which is limited.</p> <p>We evaluated the adequacy of the disclosure of estimation uncertainty relating to impairment of loans and advances to customers and considered whether the disclosures are compliant with accounting standards.</p> <p>Based on the procedures we performed and the evidence obtained we concluded that the calculation of the impairment provision is reasonable.</p>

Independent auditors' report to the members of Beverley Building Society

continued

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the annual accounts as a whole, taking into account the structure of the society, the accounting processes and controls, and the industry in which it operates.

All the Society's activities take place in the United Kingdom. The principal activity of the Society is the provision of savings products to individuals to fund secured mortgage lending on residential property to support home ownership. The majority of the Society's mortgage book (97%) is secured on UK residential Owner-Occupied and Buy-to-Let property with the remainder secured on UK commercial properties. The Society is a stand-alone entity and the accounting records for the Society are maintained at its head office in Beverley. Audit procedures were performed over all material account balances and financial information of the Society by a combined audit team from Leeds and Manchester. The audit procedures performed provided us with sufficient audit evidence as a basis for our opinion on the annual accounts as a whole.

The impact of climate risk on our audit

As part of our audit we made enquiries of management to understand the process management adopted to assess the extent of the potential impact of climate risk on the Society's financial statements and support the disclosures made in relation to climate change in the Annual Report & Accounts.

In addition to enquiries with management, we also:

- Considered the exposure of the Society's mortgage portfolio to physical and transition risks by examining the output of assessments performed by management; and
- Considered the consistency of the disclosures in relation to climate change within the Annual Report & Accounts with the financial statements and our knowledge obtained from our audit.

Our procedures did not identify any material impact in the context of our audit of the financial statements as a whole, or our key audit matters for the year ended 31 December 2023.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the annual accounts as a whole.

Based on our professional judgement, we determined materiality for the annual accounts as a whole as follows:

Overall materiality	£134,000 (2022: £126,000).
How we determined it	1% of Total reserves attributable to members.
Rationale for benchmark applied	The Society's principal activity is to provide residential mortgage loans financed by retail savings products. The strategy is not one purely of profit maximisation but to provide a secure place for customer savings in a mutual environment. The soundness of the Society is based on its regulatory capital, which is closely aligned to total reserves attributable to members as shown on the Statement of Financial Position. As such we consider a benchmark based on this metric to be appropriate.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality, amounting to £100,500.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above £6,700 (2022: £6,300) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the society's ability to continue to adopt the going concern basis of accounting included:

- A risk assessment to identify critical factors that could impact the going concern basis of preparation, including the current and forecast financial performance and regulatory metrics. As part of our risk assessment we reviewed and considered the Society's strategic plan, ICAAP and ILAAP, regulatory correspondence and management reports provided to key governance forums;
- Evaluating the reasonableness of the Society's strategic plan, including evaluating the reasonableness of key scenarios and performing sensitivity analysis using our understanding of the Society and its financial performance obtained during the course of our audit. We also considered management's ability to accurately forecast financial performance by comparing past forecasts to actual results;
- Critically evaluating the directors' conclusions in their own going concern assessment. This included the impact of stress testing and the likelihood of successful implementation of management actions to mitigate impacts of stress. We considered whether the Society would continue to operate above required regulatory capital and liquidity minima during times of stress; and

- Evaluating management’s disclosures in the Annual Report and checking the consistency of the disclosures with our knowledge of the Society based on our audit.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the society’s ability to continue as a going concern for a period of at least twelve months from the date on which the annual accounts are authorised for issue.

In auditing the annual accounts, we have concluded that the directors’ use of the going concern basis of accounting in the preparation of the annual accounts is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the society’s ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the annual accounts and our auditors’ report thereon. The directors are responsible for the other information. Our opinion on the annual accounts does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the annual accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Annual Business Statement and Directors’ Report we also considered whether the disclosures required by the Building Societies Act 1986 have been included.

Based on our work undertaken in the course of the audit, the Building Societies Act 1986 requires us also to report certain opinions and matters as described below.

Annual Business Statement and Directors’ Report

In our opinion, based on our work undertaken in the course of the audit:

- the Annual Business Statement and the Directors’ Report have been prepared in accordance with the requirements of the Building Societies Act 1986;
- the information given in the Directors’ Report for the year ended 31 December 2023 is consistent with the accounting records and the annual accounts; and
- the information given in the Annual Business Statement (other than the information upon which we are not required to report) gives a true representation of the matters in respect of which it is given.

In light of the knowledge and understanding of the society and its environment obtained in the course of the audit, we did not identify any material misstatements in the Directors’ Report.

Responsibilities for the annual accounts and the audit

Responsibilities of the directors for the annual accounts

As explained more fully in the Statement of Directors’ Responsibilities in respect of the financial statements, the directors are responsible for the preparation of the annual accounts in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the directors are responsible for assessing the society’s ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the society or to cease operations, or have no realistic alternative but to do so.

Auditors’ responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the annual accounts is located on the Financial Reporting Council’s website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors’ report.

Use of this report

This report, including the opinions, has been prepared for and only for the society’s members as a body in accordance with Section 78 of the Building Societies Act 1986 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Building Societies Act 1986 exception reporting

Under the Building Societies Act 1986 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the society; or
- the society annual accounts are not in agreement with the accounting records; or
- we have not received all the information and explanations and access to documents we require for our audit.

We have no exceptions to report arising from this responsibility.

Appointment

Following the recommendation of the audit committee, we were appointed by the directors on 28 April 2020 to audit the annual accounts for the year ended 31 December 2020 and subsequent financial periods. The period of total uninterrupted engagement is 4 years, covering the years ended 31 December 2020 to 31 December 2023.

Net Movement	(4,414)	(13,441)

The accompanying notes are an integral part of the financial statements.

Notes to the Accounts

for the year ended 31 December 2023

1. Accounting Policies

1.1 Basis of accounting

Beverley Building Society (the "Society") has prepared these Society annual accounts in accordance with the Building Societies Act 1986, the Building Societies (Accounts and Related Provisions) Regulations 1998 and Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102"). The accounts have been prepared under the historical cost convention, except for freehold buildings which are stated at valuation. The presentation currency of these annual accounts is sterling. All amounts in the annual accounts have been rounded to the nearest £1,000.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these annual accounts.

The financial statements have been prepared on a going concern basis. This is discussed in the Directors' Report, above, under the heading "Going concern".

1.2 Interest

Interest income and expense on "basic" financial instruments are measured at amortised cost and recognised in the income statement using the effective interest rate method. The 'effective interest rate' is the rate that exactly discounts the estimated future cash payments and receipts over the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount. When calculating the effective interest rate, the Society estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest rate includes transaction costs and fees. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability, including up front application fee income, broker procurement costs and fee free survey and legal re-mortgage costs.

1.3 Fees and commission

Fee and commission income and/or expense that is integral to the effective interest rate on a financial asset or financial liability are included in the measurement of the effective interest rate (see 1.2).

Other fees and commission income, with a low value or low occurrence in nature such as deed fees, redemption fees and further advance fees, are recognised as the related services are performed.

1.4 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the annual accounts. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

1.5 Financial Instruments

The Society's financial instruments consist of financial assets, principally liquid assets and loans and advances to customers (mortgages) and financial liabilities, principally shares and borrowings (customer deposits).

Recognition

The Society initially recognises loans and advances and deposits on the date on which they are originated.

Classification

All the Society's financial assets and liabilities are categorised as "basic" under FRS102 and are consequently measured at amortised cost.

De-recognition

The Society derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction. A financial liability is derecognised when the contractual obligations are discharged, cancelled or expire.

Identification and measurement of impairment

Provisions are made to reduce the value of loans and advances to the amount which the Directors consider is likely to be recoverable.

Individual assessments are made of all loans where the underlying collateral is in the Society's possession and on loans that are more than three months in arrears. Additionally, the Society will consider the requirement of a specific provision for loans that are not in arrears but have other impairment triggers. Specific provision is made against those loans and advances that are considered to be impaired, based on expected discounted cashflows. In arriving at the specific provision, account is taken of discounts required against each individual property value at the balance sheet date, the amounts expected to be recovered under mortgage indemnity policies, estimated sale expenses and an appropriate discount rate.

Those loans not found to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. In assessing collective impairment, the Society uses expert judgement based on past experience, industry benchmarking and publicly available data in setting the probability of default, the timing of recoveries and the amount of loss incurred and considers adjustments if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than is suggested by historical trends. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Where the Society is letting out properties it has acquired through possession, an individual impairment assessment will be performed. The forecast will take into account the loan amount, any expected income and costs of letting the property and assumes the sale of the property at valuation, including relevant sales costs, at the end of the expected term. Where these properties are subsequently expected to be sold in the short term, the estimated provision based on immediate sale will be taken.

Modification of loans

Following discussion and agreement with a customer, a borrower's account may be modified to assist those who are in financial difficulty

or have recently overcome financial difficulty. Loans that have renegotiated terms, resulting in a substantial modification to the cash flows, are new loans recognised at fair value, provided the customers comply with the renegotiated terms.

1.6 Investments

Investments held by the Society are not publicly traded and are therefore carried at cost and are assessed for signs of impairment on an annual basis.

1.7 Tangible fixed assets

Fixed assets (except freehold buildings) are valued at historical cost less accumulated depreciation.

Freehold buildings are carried at fair value, and a full revaluation is carried out at least every two years by an independent valuer. The depreciation of revalued assets is recognised in full in the Income Statement. Revaluation surpluses are transferred to a revaluation reserve and may then be transferred to the income statement in equal instalments over the life of the asset.

Revaluation losses are recognised in the revaluation reserve until the carrying amount falls to depreciated historical cost, with the balance being recognised directly in the income statement.

Tangible fixed assets are depreciated by reference to cost or valuation at rates estimated to write off the relevant assets by equal instalments over their estimated useful lives. The depreciation rates used are:

Freehold buildings	2% on valuation
Office furniture and computer equipment	10% to 30% on cost

1.8 Intangible assets

The only intangible assets of the Society are purchased software assets. The assets are amortised on a straight-line basis at 30% per year where this relates to a straightforward purchase, or over the duration of the initial license period where implementation costs are incurred.

1.9 Leases

Operating lease rental income is recognised in the income statement in the year in which it is receivable.

1.10 Pension costs

The Society contributes to a defined contribution group personal pension plan for its staff. The Society's contributions are charged against profits in the year in which they are incurred. The charge to the income statement for the year is shown in note 5 to the accounts.

1.11 Segmental reporting

A segmental analysis is not disclosed as the Society's business is wholly UK based and within one business sector.

1.12 Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including cash in hand, deposits held at call with banks, and the balance of the Society's reserve account held with the Bank of England.

1.13 Provision for liabilities

A provision is recognised in the balance sheet when the Society has a present legal or constructive obligation as a result of a past event, that can be reliably measured, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the amount required to settle the obligation at the reporting date.

1.14 Going Concern

As noted in the Directors' Report, as part of the Society's forward planning process, the Directors have considered forecasts showing the Society's capital, liquidity and financial position for the next 15 months under normal operating conditions. They have also considered the potential effect on the Society's business, financial position, capital and liquidity under stressed operating conditions.

The Society specifically considered the costs associated with Core Banking system replatforming along with margin squeeze and the impact on profit, capital and liquidity. Furthermore, the Directors have considered the potential impact of Climate Change Risk based on the output from the latest ICAAP, and the Climate Change Risk analysis performed by Landmark. The Directors are satisfied that the Society has adequate resources to continue in business for the foreseeable future. For this reason, the Accounts continue to be prepared on the going concern basis.

1.15 Significant accounting estimates and judgements

Application of certain Society accounting policies requires management to make judgements, assumptions and estimates concerning future events which affect the reported amounts of assets and liabilities, income, and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are evaluated regularly and are based on the Society's own historical experience and other factors including market-wide benchmark data. Revisions to accounting estimates are recognised in the period in which these estimates are revised, and in any future periods affected.

Provisioning methodology

Impairment provisions are calculated using the Society's historical arrears experience, modelled credit risk characteristics and expected cashflows. Estimates are applied to determine prevailing market conditions (e.g. house prices), customer behaviour (e.g. default rates) and the length of time expected to complete the sale of properties in possession.

- **Probability of default**

In terms of the sensitivity, if the probability of default increased by 10% on both performing and specifically assessed mortgages, the estimated impact on the impairment provision would be an increase of £50,000 (2022: £33,000), with a corresponding charge to the Income Statement. A 10% increase would mean a 30% probability of default, for example, would be uplifted to 33%.

- **Security value**

In terms of the sensitivity, a 5% increase in the securities value on all mortgage exposures would result in a decrease in the impairment provision of £73,000 (2022: £68,000). Conversely, a 5% decrease would result in an increase of £76,000 (2022: £71,000).

- **Properties in possession - held into the longer term**

As at 31 December 2023, there are no (2022: no) properties held which are not expected to be sold in the short term. Consequently, there is no impairment differential between the immediate sale and the cashflow forecast assessment (2022: no differential).

Valuation of Freehold Premise

As noted in the accounting policy, the freehold buildings are stated at their latest independent open market valuation less any accumulated impairment since the latest valuation date. A revaluation is carried out at least every two years by an independent valuer. The Society's head office building was last revalued in November 2023, leading to a charge to the Society's revaluation reserve of £109,000.

The revaluation explicitly included assets considered to be part of the 'fabric of the building', such as air conditioning units and flooring. These assets were transferred from the 'office furniture and equipment' category to the 'freehold buildings' category of fixed assets prior to the Society's finalisation of the revaluation in its financial records, in order to accurately reflect the value of all the relevant assets included in the revaluation.

If the building valuation was to reduce by a further 10% compared to the December 2023 benchmark, the estimated impact is that fixed assets and the revaluation reserve would be reduced by a further circa £80,000. The reduction in the revaluation reserve would cause capital and other comprehensive income to also fall by £80,000.

Notes to the Accounts

continued

2. Interest receivable and similar income	2023	2022
	£000	£000
On loans fully secured on residential property	7,654	4,082
On other loans fully secured on land	341	168
On other liquid assets	1,768	760
Total	9,763	5,010

Included within interest receivable on loans fully secured on residential property is £107,000 (2022: £78,000) in respect of interest income on loans that are specifically provided for as at 31 December 2023 (see note 10).

Included within interest receivable on other loans fully secured on land is £94,000 (2022: £10,000) in respect of income on loans and advances that are specifically provided for as at 31 December 2023 (see note 10).

3. Interest payable and similar charges	2023	2022
	£000	£000
On shares held by individuals	4,849	1,241
On deposits and other borrowings	120	34
Total	4,969	1,275

4. Administrative expenses	2023	2022
	£000	£000
Staff costs (note 5)	1,592	1,528
Other administrative expenses	1,528	1,292
Total	3,120	2,820
Remuneration of auditors

5. Staff numbers and costs

The average number of staff employed by the Society during 2023 and 2022 is as follows:

	2023	2022
	Number	Number
Full time	24	22
Part time	10	9
Total	34	31

	2023	2022
	£000	£000
Wages and salaries	1,351	1,266
Social security costs	152	150
Other pension costs	89	112
Total	1,592	1,528

The Society operates a group personal pension scheme (a defined contribution scheme) of which 33 employees were members as at 31 December 2023 (2022: 32).

The assets of the Scheme are held separately from those of the Society in an independently administered fund. The pension cost charge noted above represents contributions payable by the Society to the fund.

6. Directors

Remuneration

Total remuneration of the Society's Directors for the year was £537,000 (2022: £603,000).

Full details are given in the Directors' Remuneration Report, above.

The Society does not contribute to Non-Executive Directors' pensions.

Directors' loans and transactions

At 31 December 2023 there were 0 (2022: 0) outstanding mortgage loans granted in the ordinary course of business to a Director and their connected persons, amounting in aggregate to £0 (2022: £0).

A register is maintained at the principal office of the Society under Section 68 of the Building Societies Act 1986, which shows details of all loans, transactions, and arrangements with Directors and their connected persons. A statement of the appropriate details contained in the register for the financial year ended 31 December 2023 will be available for inspection at the principal office for a period of 15 days up to and including the date of the Annual General Meeting and at the meeting.

Notes to the Accounts

7. Tax on profit on ordinary activities	2023	2022
	£000	£000
<i>The tax charge for the year comprises:</i>		
Corporation tax on profits for the year	295	131
Total current tax	295	131
<i>Deferred taxation (note 19)</i>		
Origination and reversal of timing differences	-	8
Adjustment in respect of previous periods	(5)	-
Effect of tax rate change	-	3
Total deferred tax	(5)	11
Total corporation tax	290	142
<i>Reconciliation of tax on profit on ordinary activities</i>		
Profit on ordinary activities before tax	1,230	759
Profit on ordinary activities before tax multiplied by the standard rate of corporation tax in the UK of 23.52% (2022: 19.00%)	289	144
Expenses not deductible	1	-
Benefit of enhanced capital allowances	-	(5)
Effect of tax rate change	-	3
Tax Charge for the Year	290	142

Factors affecting and future tax charges

The standard rate of corporation tax in the UK was 25% in during 2023 (weighting for the year of 23.52%) and 19% in 2022. An increase in the standard rate of corporation tax to 25% from 1 April 2023 became substantively enacted on 24 May 2021. Accordingly, deferred taxation has been calculated at 25%.

8. Loans and advances to credit institutions	2023	2022
	£000	£000
<i>Loans and advances to credit institutions have maturities as follows:</i>		
On demand	5,709	5,063
In not more than three months	-	-
In more than three months but not more than one year	-	-
Total	5,709	5,063

9. Loans and advances to customers

	2023	2022
	£000	£000
Loans fully secured on residential property	157,054	144,910
Loans fully secured on land	4,957	5,251
Total	162,011	150,161

Maturity analysis

The remaining maturity of loans and advances to customers from the date of the balance sheet is as follows:

Repayable on demand	2,771	2,719
In not more than three months	630	736
In more than three months but not more than one year	3,439	4,234
In more than one year but not more than five years	30,645	29,390
In more than five years	125,359	113,566
	162,844	150,645
Less: Provisions (note 10)	(871)	(475)
Less: Net EIR asset/(liability)	38	(9)
Total	162,011	150,161

This analysis assumes that each mortgage account will continue under its current terms and, in particular, that it will not be redeemed before the contractual maturity date. However, the Society's mortgage conditions give the Society the right to demand repayment of the mortgage debt in full after three months' written notice to the borrower when the borrower is in default.

The Society's value of collateral is reflected in the Loan to Value ('LTV') profile of the mortgage book. The estimated value of the mortgage portfolio is updated on a quarterly basis using the Nationwide regional House Price Index.

	2023	2022
Average LTV	32.7%	31.4%

An analysis of the Society's geographical concentration is shown in the table below:

	2023		2022	
	£000	%	£000	%
East Anglia	2,546	1.6	1,768	1.2
East Midlands	10,076	6.2	9,648	6.4
Greater London	9,556	5.9	8,617	5.7
North	4,153	2.5	3,004	2.0
North West	11,734	7.2	7,808	5.2
Outer Metropolitan Area	8,715	5.4	6,444	4.3
South East	13,121	8.1	11,495	7.6
South West	10,695	6.5	8,512	5.6
Wales	5,413	3.3	3,126	2.1
West Midlands	7,259	4.4	6,394	4.2
Yorkshire and Humberside	79,576	48.9	83,829	55.7
Total	162,844	100.0	150,645	100.0

Notes to the Accounts

continued

The table below provides further information on the Society's loans and advances to customers by payment due status:

	2023		2022	
	£000	%	£000	%
Not impaired				
Neither past due or impaired	159,303	97.8	146,855	97.5
Past due but not impaired	694	0.4	2,080	1.4
Impaired				
Not past due but impaired	455	0.3	717	0.5
Past due	1,568	1.0	488	0.3
Possessions	824	0.5	505	0.3
Total loans and advances to customers	162,844	100.0	150,645	100.0

Past due but not impaired - relates to any asset where a payment due is received late or missed but no specific impairment has been made against the asset given the low LTV of the mortgage.

Not past due but impaired – relates to specific mortgages which are up to date, however a specific impairment has been made against the asset due to case-specific impairment triggers.

10. Impairment provision for loans and advances

	Loans fully secured on residential property	Other loans fully secured on land	Total
	£000	£000	£000
At 1 January 2023			
Collective provision	58	173	231
Specific provision	212	32	244
Total	270	205	475
Specific provision- utilised in year	-	-	-
Charge for the year			
Collective provision	12	(40)	(28)
Specific provision	284	140	424
Total	296	100	396
At 31 December 2023			
Collective provision	70	133	203
Specific provision	496	172	668
Total	566	305	871

During the year ended 31 December 2023, the Society has disposed of 1 property in possession, which did not attract any provisioning as at 31 December 2022. No loss crystallized on this disposal.

One property was taken into possession during 2023, being a large legacy buy-to-let exposure. The specific circumstances surrounding this possession have led to the Society providing a total of £205,000 against the outstanding loan balance.

Comparative position at 31 December 2022	Loans fully secured on residential property £000	Other loans fully secured on land £000	Total £000
At 1 January 2022			
Collective provision	17	124	141

Specific provision	212	32	244
Total	270	205	475

11. Investments

	2023 £000	2022 £000
Cost and net book value		
Shares in participating interests	89	89
Total	89	89

The Society holds directly the following interests, which are registered and incorporated in England.

	Principal activity	Class of shares held	Interest of Society	
Mutual Vision Technologies Ltd	Computer Software Developer	Ordinary	2023	11.83%
			2022	11.83%

Mutual Vision is an unlisted company originally formed by a consortium of Building Societies to acquire the trade of their existing computer software supplier. The company's purpose is to provide critical platform infrastructure to its shareholders and mutual customers.

The Directors believe that the carrying value of the investments is supported by their underlying net assets.

At 1 January 2023	784	142	925
		2023	2022
		£000	£000
Particulars relating to revalued tangible fixed assets are given below			
Freehold buildings at open market value		800	800
Historical cost of re-valued assets		1,096	918

The freehold buildings at 57/58 Market Place, Beverley were last re-valued in November 2023 by Scotts Property LLP, an external qualified Chartered Surveyor appointed by the Society, on the basis of the open market value for existing use, with vacant possession of the property that is currently occupied by the Society but subject to an existing tenancy. Included in this revaluation were assets considered to be part of the 'fabric of the building', previously held in the 'Office Furniture and Equipment' category. These assets were transferred to the 'Freehold Buildings' category prior to the revaluation being finalised in the Society's accounts.

Furthermore, assets at an original cost of £4k were transferred from intangible assets to tangible assets, correcting a historical issue in the Society's fixed asset register (also see note 13 below).

Freehold land and buildings relate to property substantially occupied by the Society for its own activities (£627,000 at current valuation occupied by the Society).

13. Intangible fixed assets

At 31 December 2023	13,231	220

21. Financial Instruments

Contracts that give rise to financial assets or liabilities are known as financial instruments. The Society's sole business is to operate in the retail market for financial instruments, through the provision of mortgage and savings products.

The Society does not run a trading book.

Financial Instrument Classification

The table below shows the financial assets and liabilities of the Society, assigned to their categories under FRS102:

At 31 December 2023	Financial assets that are debt instruments measured at amortised cost £000	Financial liabilities carried at amortised cost £000
Cash in hand and balances with the Bank of England	36,523	-
Loans and advances to credit institutions	5,709	-
Loans and advances to customers	162,011	-
Total Financial Assets	204,243	-
Shares	-	180,490
Amounts owed to other customers	-	11,406
Other liabilities	-	290
Accruals and deferred income	-	213
Total Financial Liabilities	-	192,399

Notes to the Accounts

continued

At 31 December 2022	Financial assets that are debt instruments measured at amortised cost	Financial liabilities carried at amortised cost
	£000	£000
Cash in hand and balances with the Bank of England	41,583	-
Loans and advances to credit institutions	5,063	-
Loans and advances to customers	150,161	-
Total Financial Assets	196,807	-
Shares	-	172,125
Amounts owed to other customers	-	13,092
Other liabilities	-	131
Accruals and deferred income	-	362
Total Financial Liabilities	-	185,710

At 31 December 2023, the Society has off balance exposures in the form of mortgage commitments totalling £10.7m (2022: £15.6m).

The Society did not hold any financial assets or liabilities that qualify for measurement under the Fair Value approach as at 31 December 2023, and as at 31 December 2022.

Financial Risk Management

As highlighted by the Financial Risk Management report from page 15 onwards, the Society is by virtue of its operations exposed to a variety of financial risks, including liquidity risk, credit risk, and interest rate risk.

Liquidity Risk

The risk that the Society is unable to meet its financial obligations as they fall due. The Society has strict policies to manage liquidity risk, as further detailed within the Financial Risk Management report. The Society's liquid funds are either deposited with the Bank of England or in call accounts with the Society's clearing banks, which all allow for same day access to all funds.

An analysis of the Society's treasury asset concentration is shown in the table below (using Fitch agency ratings)

Credit Quality	Description	2023		2022	
		£000	%	£000	%
AA-	Bank of England Reserve	36,457	86.3%	41,508	89.0%
Unrated	Cash in hand	66	0.2%	75	0.2%
Bank of England and Cash		36,523	86.5%	41,583	89.2%
A+	Operational accounts with Barclays Bank plc	1,908	4.5%	1,796	3.8%
A+	Operational bank accounts with NatWest Bank plc	3,801	9.0%	3,267	7.0%
Loans and advances to credit institutions		5,709	13.5%	5,063	10.8%
Total Liquid Assets		42,232	100.0	46,646	100.0

Credit Risk

Credit risk is the risk of losses arising from a borrower or counterparty failing to meet its obligations as they fall due. The Society has a strong and well established framework of controls in place which mitigates this risk. The effectiveness of systems and controls for the management of credit risk is monitored by the risk committee. Further information on this can be found within the Financial Risk Management report, on page 15.

The Society's maximum credit risk exposure is shown in the table below:

	2023	2022
	£000	£000
Cash in hand and balances with the Bank of England	36,523	41,583
Loans and advances to credit institutions	5,709	5,063
Loans and advances to customers	162,011	150,161
Off balance sheet exposures – Mortgage commitments	10,707	15,645
Total	214,950	212,452

A key indicator of credit risk associated with the Society's mortgage book is the amount of the loans outstanding as a proportion of the underlying security's value, known as the Loan-to-Value percentage (LTV). A lower LTV percentage means greater borrowers' equity in a property, reducing or even eliminating expected losses in the event of default and, where this is in the best interest of the Society's members, subsequent repossession. The value of the underlying security is based on a professional valuation at origination of the loan, adjusted for the subsequent movements in the House Price Index (HPI).

The Society over the last decade has gradually reduced the weighted average LTV of its loan book, which now stands at 32.7% (2022: 31.4%). The loan book can be broken down into the following LTV bands:

LTV Ratio	2023		2022	
	£000	%	£000	%
Less than or equal to 50%	92,597	56.9	90,630	60.2
Over 50% but less than or equal to 70%	47,106	28.9	41,740	27.7
Over 70% but less than or equal to 85%	15,988	9.8	13,330	8.8
Over 85% but less than or equal to 95%	4,882	3.0	3,151	2.1
Over 95%	2,271	1.4	1,794	1.2
Total	162,844	100.0	150,645	100.0

Analyses of the geographical spread and payment status of the loans within the mortgage book are provided in note 9.

Details on customers in forbearance can be found within the Financial Risk Management report, on page 15.

Notes to the Accounts

continued

Interest rate risk

The Society is exposed to movements in interest rates, and manages this exposure on a continuous basis, within the limits set by the Board. Items are allocated to time bands by reference to the earlier of the next interest rate re-pricing or the maturity date.

The interest rate sensitivity of the Society as at 31 December 2023 was:

	Up to 3 months £000	More than 3 months but not more than 6 months £000	More than 6 months but not more than 1 year £000	More than 1 year but not more than 5 years £000	Non interest bearing £000	Total £000
Assets						
Liquid Assets	42,232	-	-	-	-	42,232

Maturity Analysis

The maturity analysis of the financial liabilities of the Society at 31 December 2023 was:

	Up to 3 months	More than 3 months but not more than 6 months	More than 6 months but not more than 1 year	More than 1 year but not more than 5 years	More than 5 years	Total
	£000	£000	£000	£000	£000	£000
Shares	172,189	2,038	5,260	955	-	180,442
Deposits and other borrowings	11,634	-	-	-	-	11,634
Other Liabilities	290	-	-	-	-	290
Accruals and deferred income	213	-	-	-	-	213
Total financial liabilities	184,326	2,038	5,260	955	-	192,579

The maturity analysis of the financial liabilities of the Society at 31 December 2022 was:

	Up to 3 months	More than 3 months but not more than 6 months	More than 6 months but not more than 1 year	More than 1 year but not more than 5 years	More than 5 years	Total
	£000	£000	£000	£000	£000	£000
Shares	162,534	-	2,258	7,656	-	172,448
Deposits and other borrowings	13,092	-	-	-	-	13,092
Other Liabilities	131	-	-	-	-	131
Accruals and deferred income	362	-	-	-	-	362
Total financial liabilities	176,119	-	2,258	7,656	-	186,033

Note: The above analysis is based on undiscounted contractual cashflows and therefore does not reconcile to the balance sheet.

Capital

Capital is a key measure of the Society's financial strength and is, as shown below, primarily comprised of accumulated profit reserves. Capital supports business growth and protects the business against its principal risks.

The Society's capital requirements are set and monitored by the Prudential Regulatory Authority (PRA). The Society undertakes a formal Internal Capital Adequacy Assessment Process (ICAAP) to articulate and demonstrate how these requirements are met.

In addition, the ICAAP documents the framework for the Society's governance and oversight of its risk and capital management policies and is used to assist with the management of capital and risk exposures.

The Society's actual and forecasted capital positions are reviewed against a risk appetite that requires capital to be maintained at a specific minimum level above regulatory capital requirements. There were no reported breaches of capital requirements during the year.

There have been no material changes to the Society's management of capital in the year.

Composition of Regulatory Capital

	Note	2023	2022
		£000	£000
General Reserve	20	13,231	12,291
Intangible assets	13	(1)	(13)
Revaluation reserve	20	220	329
Tier 1 capital		13,450	12,607
Collective provisions	10	203	231
Tier 2 capital		203	231
Total Regulatory Capital		13,653	12,838

Capital Requirement Directive (CRD IV) disclosures

Information required under the CRR rules Article 89, Country-by-Country Reporting (CBCR) are disclosed below:

Name	Type of Entity	Nature of Activity	Location	Turnover (£m)	Profit Before Tax (£m)	Corporation Tax Paid	No. of Employees
The Beverley Building Society	Building Society – UK Registered Entity	UK financial institution owned by its members as a mutual organisation. The principal purpose of the Society is that of loans that are secured primarily on residential property, funded largely by its members. The Society has no active subsidiaries and is wholly based in the UK. The Society has transactions only in GBP.	Beverley, East Yorkshire England	£9.7m based on interest receivable	£1.2m	£0.14m paid in settlement of corporation tax on 2022 profits	33 Full Time Equivalents

Country by Country Information

Basis of preparation:

- Total turnover represents Interest receivable and similar income for the Society as disclosed in the Income Statement.
- Profit before tax represents Profit on ordinary activities before tax as disclosed in the Income Statement.
- Corporation Tax paid in year represents actual corporation tax payments made during the year as disclosed in the Society Statement of Cash Flows.
- Number of employees on an FTE basis is representative of the average number of persons employed by the Society as disclosed in Note 5 to the Accounts.

Independent auditors' report to the directors of Beverley Building Society

Report on the audit of the country-by-country information

Opinion

In our opinion, Beverley Building Society's country-by-country information for the year ended 31 December 2023 has been properly prepared, in all material respects, in accordance with the requirements of the Capital Requirements (Country-by-Country Reporting) Regulations 2013.

We have audited the country-by-country information for the year ended 31 December 2023 in the Capital Requirement Directive (CRD IV) Disclosures.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)"), including ISA (UK) 800 and ISA (UK) 805, and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the country-by-country information section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Society in accordance with the ethical requirements that are relevant to our audit of the country-by-country information in the UK, which includes the FRC's Ethical Standard, as applicable to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - Basis of preparation

In forming our opinion on the country-by-country information, which is not modified, we draw attention to the Capital Requirement Directive (CRD IV) disclosures which describes the basis of preparation. The country-by-country information is prepared for the directors for the purpose of complying with the requirements of the Capital Requirements (Country-by-Country Reporting) Regulations 2013. The country-by-country information has therefore been prepared in accordance with a special purpose framework and, as a result, the country-by-country information may not be suitable for another purpose.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the Society's ability to continue to adopt the going concern basis of accounting included:

- A risk assessment to identify critical factors that could impact the going concern basis of preparation, including the current and forecast financial performance and regulatory metrics. As part of our risk assessment we reviewed and considered the Society's strategic plan, ICAAP and ILAAP, regulatory correspondence and management reports provided to key governance forums.
- Evaluating the reasonableness of the Society's strategic plan, including evaluating the reasonableness of key scenarios and performing sensitivity analysis using our understanding of the Society and its financial performance obtained during the

course of our audit. We also considered management's ability to accurately forecast financial performance by comparing past forecasts to actual results;

- Critically evaluating the directors' conclusions in their own going concern assessment. This included the impact of stress testing and the likelihood of successful implementation of management actions to mitigate impacts of stress. We considered whether the Society would continue to operate above required regulatory capital and liquidity minima during times of stress; and
- Evaluating management's disclosures in the Annual Report and checking the consistency of the disclosures with our knowledge of the Society based on our audit.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Society's ability to continue as a going concern for a period of at least twelve months from the date on which the country-by-country information is authorised for issue.

In auditing the country-by-country information, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the country-by-country information is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Society's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Responsibilities for the country-by-country information and the audit

Responsibilities of the directors for the country-by-country information

The directors are responsible for the preparation of the country-by-country information in accordance with the requirements of the Capital Requirements (Country-by-Country Reporting) Regulations 2013 as explained in the basis of preparation in the country-by-country information, and for determining that the basis of preparation and accounting policies are acceptable in the circumstances. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of country-by-country information that is free from material misstatement, whether due to fraud or error.

In preparing the country-by-country information, the directors are responsible for assessing the Society's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Society or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the country-by-country information

It is our responsibility to report on whether the country-by-country information has been properly prepared in accordance with the relevant requirements of the Capital Requirements (Country-by-Country Reporting) Regulations 2013.

Our objectives are to obtain reasonable assurance about whether the country-by-country information as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this country-by-country information.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Society/industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of UK regulatory principles such as those governed by the Prudential Regulation Authority ('PRA'), Financial Conduct Authority ('FCA') and UK tax law, and we considered the extent to which non-compliance might have a material effect on the country-by-country information. We also considered those laws and regulations that have a direct impact on the country-by-country information such as applicable tax legislation and the Capital Requirements (Country-by-Country Reporting) Regulations 2013. We evaluated management's incentives and opportunities for fraudulent manipulation of the country-by-country information (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries that could be used to manipulate financial performance and management bias in accounting estimates. Audit procedures performed included:

- Review of correspondence with the FCA and PRA;
- Testing of significant accounting estimates;
- Testing of journal entries which contained unusual account combinations and other specific risk-based criteria back to corroborating evidence;
- Discussions with management in relation to known or suspected incidents of non-compliance with laws and regulations and fraud; and
- Review of internal audit reports in so far as they related to the annual accounts.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the country-by-country information. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the country-by-country information is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinion, has been prepared for and only for the company's directors in accordance with the Capital Requirements (Country-by-Country Reporting) Regulations 2013 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come, save where expressly agreed by our prior consent in writing.

PricewaterhouseCoopers LLP
Chartered Accountants and Statutory Auditors
Leeds
19 February 2024

Annual Business Statement

for the year ended 31 December 2023

1. Statutory percentages

	2023	Statutory Limit
	%	%
Lending limit	3.68	25.00
Funding limit	5.94	50.00

The above percentages have been calculated in accordance with the provisions of the Building Societies Act 1986, as amended by the Building Societies Act 1997.

The lending limit measures the proportion of business assets not in the form of loans fully secured on residential property. Business assets are the total assets of the Society as shown in the balance sheet plus provisions for bad and doubtful debts, less liquid assets and tangible fixed assets. Loans fully secured on residential property are the amount of principal owing by the borrowers and accrued interest not yet payable. This is the amount shown in the balance sheet plus provisions for bad and doubtful debts.

The funding limit measures the proportion of shares and borrowings not in the form of shares held by individuals.

2. Other percentages

	2023	2022
	%	%
As a percentage of shares and borrowings		
Gross capital	7.01	6.81
Free capital	6.66	6.44
Liquid assets	22.01	25.18
Profit for the year as a percentage of mean total assets	0.47	0.30
Management expenses as a percentage of mean total assets	1.58	1.43

The above percentages have been prepared from the Society's balance sheet.

Shares and borrowings represent the total of shares, amounts owed to credit institutions and amounts owed to other customers.

Gross capital represents the general reserve, revaluation reserve and subordinated liabilities.

Free capital represents the aggregate of gross capital and collective loan impairment less tangible and intangible assets.

Mean total assets are the average of the 2022 and 2023 total assets.

Management expenses represent the aggregate of administrative expenses, depreciation and amortisation.

3. Information relating to directors

As at 31 December 2023

The Society requires all Directors to disclose any relevant external interests that may be considered to conflict with their role at the Society, including any directorships that they may hold. The Society also requires all Directors to re-affirm their external interests on an annual basis and to declare at each meeting of the Society any interests that they may have that could compromise the best interests of the Society.

Name and date of birth	Date of appointment (at Beverley Building Society)	Role (Non Executive /Executive) (at Beverley Building Society)	Other directorships	Other Directorships Role (Non executive/Executive)
