

1 Braxton Way Suite 125 Glen Mills, PA 19342
484-840-4300 www.ssrs.com

OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from February 22 to February 26, 2020 among a sample of **1,197** respondents who live in California. The landline total respondents were **407** and there were **790** cell phone respondents. The margin of sampling error for total respondents is +/-3.3 at the 95% confidence level. The design effect is 1.37. For results among the 488 respondents who are likely to vote in the Democratic primary the margin of sampling error is +/-5.2. More information about SSRS can be obtained by visiting www.ssrs.com.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSTABS

Interviews were conducted among a representative sample of the adult population, age 18 or older, of California. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**EMBARGOED FOR RELEASE:
Friday, February 28 at 12:00 p.m.**

(Respondents who are registered to vote, N=951)

P9. How enthusiastic would you say you are about voting for president in this year's election -- extremely enthusiastic, very enthusiastic, somewhat enthusiastic, not too enthusiastic, or not at all enthusiastic?

Registered Voters	Extremely enthusiastic	Very enthusiastic	Somewhat enthusiastic	Not too enthusiastic	Not at all enthusiastic	No opinion
February 22-26, 2020	38%	30%	19%	8%	5%	*
December 4-8, 2019	41%	29%	18%	6%	4%	2%

^QUESTION WORDING for trends may reference "next year's election" or "this year's election" depending on the year of the poll

Likely Democratic primary voters	Extremely enthusiastic	Very enthusiastic	Somewhat enthusiastic	Not too enthusiastic	Not at all enthusiastic	No opinion

MORE ON METHODOLOGY

A total of **1,197** adults who live in California were interviewed by telephone by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, 35% described themselves as Democrats, 20% described themselves as Republicans, and 45% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect Census figures for gender, race, age, education, state region, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.3 percentage points. For the subset of 488 respondents who are likely to vote in the Democratic primary, it is +/- 5.2 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of California. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.
