## Motif

### CHATURMUKHA BASADI

Chaturmukha Basadi is situated at Karkala town of Udupi district. Karkala or ancient Pandyanagari attained political and cultural importance from the time of Kalasa-Karkala established by the Bhairarasa Odeyas (thirteenth to sixteenth century A.D.) who appear to be descendant of the Santara chiefs, ruling over the Western Ghat region in about tenth-eleventh century A.D. The Basadi is cruciform in plan and has four identical looking entrances from the four quarters leading to the *Garbhagriha* and hence is popularly known as 'Chaturmukha Basadi'. It was built around 1586 A.D., by Bhairavendra II, the Kalasa-Karkala ruler.

This is the most celebrated structural temple in Karkala and is referred to as Tribhuvana-tilaka-Jina-Caityalaya and Ratnatraya-dhama in inscriptions. The Chaturmukha Basadi is built in the form of a square Mantapa, with a lofty doorway and pillared portico on each of its four sides and a pillared Verandah running all round over which rests a massive eave. The roof is flat and formed of massive granite slabs. It has life size statues of three Tirthankaras besides small images of 24 Tirthankaras and Padmavati Yakshi in black stone.

## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup>.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sri T. K. Anil Kumar, Director of Census Operations, Karnataka. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)  
Registrar General &  
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

## P R E F A C E

Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India has traced the history of the district Census Handbooks in the foreword to the 2011 series of the District Census Handbooks (DCHBs). He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2011 Census. It also contains a wealth of information regarding villages and towns which throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A - contains information regarding each village and town (Village Directory and Town Directory – non census data collected from various sources) and Part B – containing the population data collected during 2011 Census - the Primary Census Abstract (PCA). The data published in Part B was collected during February-March 2011 in the Population Enumeration.

The process of data collection for the Village Directory and Town Directory (Part A) commenced in 2009 and the reference date is 31.12.2009. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the District Census Handbooks 2001. The Household Schedules, which were canvassed to collect the population data during 2011 Census, were scanned and data captured was processed electronically through ICR (Intelligent Character Recognition) Technology. The Primary Census Abstract (PCA) was generated centrally on the computers by the Office of the Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledges their co-operation.

I take this opportunity to offer my thanks to Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India for his valuable guidance and support. I appreciate the supervision and support given by Sri N. Manjini, Joint Director and also thankful to all the officers and officials of this Directorate who have been relentlessly involved in the compilation of this volume.

I am highly grateful to Dr. Pratibha Kumari, Assistant Registrar General (SS), Dr. R.C.Sethi, Ex-Addl. RGI, Shri Deepak Rastogi Addl. RGI. for their guidance and Shri A.P. Singh, Deputy Registrar General (Map), who provided the technical guidance in the preparation of maps. My thanks are also due to Shri A.K. Arora, Joint Director of Data Processing Division for generating the final formats of this publication under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP), ORGI.

Bangalore  
Date: 16<sup>th</sup> June, 2014

T.K. Anil Kumar  
Director  
DCO, Karnataka

## **HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK**

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## BRIEF HISTORY OF THE DISTRICT

“Udupi” is derived from the word “Udupa” which means Moon in Sanskrit and is associated with the establishment of the ancient Chandramouleshwara temple. Geographically the region is separated from the rest of south interior peninsula by the towering heights of the Western Ghats. The district Udupi was carved out from the erstwhile Dakshina Kannada district during 1997. Headquarter of the district is Udupi and the district is named after its headquarter. The place where Udupa (Chandra or Moon) performed penance to ward off the curse by Daksha Prajapati and obtained grace is known as “Udupi”. Udupi is famous for its temple enshrining Lord Krishna. The district is located at the foot of Western Ghats running along the west coast of Karnataka. Apart from Udupi Sri Krishna temple, the other important temples in the district are Kollur Mookambika, Hattiyangadi Ganapathi, etc. Dravidian form of worship of the Cobra, spirits and trees are prevalent in the district. Jainism spread from its spiritual centres at Sravanabelagola, Karkal, Koppala, etc. Its principles of Ahimsa and of spiritual self-reliance had a special appeal. The world famous Gomateshwara statue, which is 41½ feet high and other jain temples are at Karkal in Udupi district.

One among the triad of “three great Acharyas” was Madhwa born in 1238 A.D. near Udupi (Pajaka Kshethra). He taught the Dwaita doctrine, the doctrine characterised by unqualified dualism and devotion to lord Vishnu. He founded eight pontifical seats at Udupi for the worship of Lord Krishna, whose temple also he erected and is famous as “Udupi Sri Krishna temple”.

Christianity started to exert its real influence from 17<sup>th</sup> century onwards, gathering momentum in 19<sup>th</sup> century. It is said that the earliest Christian settlement appears to have been at Kalyanpur near Udupi, where it is said a Christian Bishop used to reside much earlier. Number of churches were established near Udupi. Prominent among them being the Churches around Kalyanpur, Brahmavar, Shirva and Belman. Perhaps the advent of modern education in this area is attributed to the churches and their activities.

The historic name of the district which was “Tuluva” or “Tulunadu” which was changed to South Kanara and then to Dakshina Kannada, now bifurcated into Dakshina Kannada and Udupi districts. The district, like the rest of the territory between Kanyakumari (Cape Comorian) in South, and Thana in Maharashtra, in the north claims its origin with the land reclaimed by Parashurama, one of the ten avatars of Vishnu by throwing a hatchet from the peaks of the western ghats to Arabian sea. Parashurama is said to have brought Brahmins from Aryavarta to settle in this tract. The temple of Renuka on the Kunjaragiri hill near Udupi is believed to have been built in honour of his mother by Parashurama himself.

According to the inscriptions, the earliest known rulers of this region were the Chutus (Tulus). Between 200 A.D. and 600 A.D. the Kadambas, the

Brahmin kings of Banavasi ruled over this tract till they were defeated by the Chalukya king Kirtivarma. But the influence of the Kadambas as feudatory princes under successive dynasties - Chalukyas, Rashtrakutas and Vijayanagar emperors continued for some time. In about 575 A.D. the reign of Western Chalukyas commenced and they appointed the Alupas to rule the region as their feudatories. But the Alupas being powerful asserted their own rights and declared independence. But Pulikeshi II of Western Chalukyas subjugated them. Pallavas ruled the region between 642 A.D. and 653 A.D. after which the country went back to the western Chalukyas, with Alupas as their feudatories till 757 A.D. It is said that Alupas continued to remain the feudatories of the new overlords till 770 A.D. Thereafter for nearly a hundred years till the first quarters of the 10th century A.D., nothing much is known about the history of the Alupas. The headquarters of Alupas from Udyawara to Barakuru (Barkur) has taken place during this period of time. For some time this area was under the Hoysala rule and then under the Vijayanagara rulers. Keladi Nayakas have ruled this area since 1554 A.D. to about 200 years. It was during this period that the fort at Barkur was built by them. In 1763 A.D. Hyder Ali of Srirangapatna conquered this area and established his reign and thereafter his son Tipu Sultan reigned till 1799 A.D. After the defeat of Tipu Sultan by the British during 1799 A.D., the district was attached to the Madras province under the British Government, till 1947 when the country got Independence. Thereafter till 1956 it continued in the Madras Province and then became a part of Mysore State when the re-organisation of linguistic states constituted in the country.

## **DISTRICT HIGHLIGHTS – 2011 CENSUS**

- Udupi with a total population of 1,177,361 stands in the 23<sup>rd</sup> position in terms of population in the State.
- The district ranks 25<sup>th</sup> in terms of rural population and 20<sup>th</sup> in terms of urban population.
- Udupi district accounts for 1.9 percent of the total population of the State.
- With the decadal growth rate of 5.9 percent, it ranks 23<sup>th</sup> in the State in terms of decadal growth rate.
- Among the districts, the highest overall sex ratio of 1094 is recorded in Udupi district.
- The district with a Sex ratio of 958 among the child population in the age-group 0-6, holds the 10<sup>th</sup> rank in the State.
- Udupi district with 8.8 percent has the least proportion of Child population component in its total population.
- The district has a literacy rate of 86.2 percent and is placed at 3<sup>rd</sup> rank in the State.
- The male literacy rate in the district is 91.4 percent and the female literacy rate is 81.6 percent.
- The male – female literacy gap in the district is 9.8 percentage points, which is less than the male – female literacy gap registered by the State (14.4 percentage points).
- The least proportion of Scheduled Caste population 6.4 percent is recorded in Udupi district and the Scheduled Tribe population contributes 4.5 percent to the total population.
- The district has registered a work participation of 43.6 percent and stands at 24<sup>th</sup> rank in the State.
- The work participation rates for Male and Female population are 59.7 and 28.9 respectively in the district.
- Among the total workers in the district 89.5 percent are Main workers and 10.5 percent are Marginal workers.
- Major work force of 73.32 percent is engaged in other workers category and ranks 4<sup>th</sup> in the State.
- In the district 24.7 percent of total workers is engaged in Agricultural sector i.e., Cultivators (12.3 percent) and Agricultural Labourers (12.4 percent) and 2.1 percent engaged in Household Industry.
- About 56.4 percent of the total population in the district is non-workers.
- Udupi district with area figure of 3582 Sq.Km stands at 27<sup>th</sup> position in the State in terms of area.
- The population density for this district is 329 and holds 10<sup>th</sup> rank in the State.
- There are 233 villages, 4 Statutory Towns and 16 Census Towns in the district.

## **Section - I**

# **Primary Census Abstract (PCA)**

## **Brief Note on Primary Census Abstract**

### **Introduction:**

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

### **2. Population Enumeration - Census 2011:**

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28<sup>th</sup> February, 2011 along with a revisional round from 1<sup>st</sup> March, 2011 to 5<sup>th</sup> March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11<sup>th</sup> September, 2010 to 30<sup>th</sup> September, 2010 along with a revisional round from 1<sup>st</sup> October, 2010 to 5<sup>th</sup> October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
