

## Route Change Request Form

This form shall be completed for all route number change requests affecting Interstates and Primary (US and NC) routes and submitted to the Staff Engineer of the Transportation Mobility and Safety Division (TMSD). A map (or maps) shall also be attached indicating the affected counties and routes.

Route Number/s: SR 1007 (All-American Freeway / Owen Drive)

County/s: Cumberland

Division/s: 6 TIP Project/s: U-4414, W-5514, X-002\*\*

General description of request (starting/ending points, etc.):

Request SR 1007 be changed to NC 555 per request from the City of Fayetteville and Fort Bragg.

SR 1007 (All-American Freeway / Owen Drive) extends from SR 2337 (Wilmington Highway) to the entrance to Fort Bragg. This is the entire length of SR 1007.

Reason/Justification for this route change:

SR 1007 is a multi-lane high volume roadway that traverses from the southeast across Fayetteville westward to the access control point at Fort Bragg (10.789 miles). Volumes are as high as 49,000 vehicles per day. The Owen Drive section is a multi-lane principal arterial while the All-American is a full control access freeway. It also serves as an important connection to Fort Bragg for northbound I-95 traffic that would access SR 1007 via NC 87.
