Crest Nordic Slate Black

Crest Nordic a new clay system for facade and roof to our product range. It's a homoge-neous, durable 'brick tank' with traditional material in a modern brick design. It is light and easy to use, quick to process, durable and suitable for renovations and new buildings. It combines the materiality of the facade and the roof so that the buildings appear to have been cast in one piece.

The colours shown on this card can vary due to limitations of the printing process and variation if viewed on a screen or monitor. With this in mind we advise all customers to view a sample of the actual product before ordering. Crest Bricks are manufactured from natural raw materials and are subject to slight colour variations, which usually enhance their appearance, please consider that the appearance of brick products can differ in various lighting and weather conditions. Crest reserve the right to change designs without notice. All products are subject to availability and our standard conditions of sale which are available on request.
