

Bus

(Continued from Page 1)

the Springfield Blvd. line was for buses from Merrick Road and Springfield Blvd. in Springfield to Bayside. "Due to the fact that sewer construction is underway . . . between Springfield and Queens Village," he pointed out, "it is not possible to establish the run all the way to Merrick Road."

"However, once the sewers are completed, I intend to renew my request for through bus

service from Springfield to Bayside," the Borough President added.

Residents in the Oakland Gardens-Bell Park area recently have been skeptical of the immediacy of the new service, repeatedly predicted recently by Mr. Brush. The Businessmen's Association and the Oakland Gardens Civic Association have recently been the leading hands in agitation for the service, following the organization in March, 1949, of a Greater Bayside Bus Coordinating Committee, which prepared a plan for bus improvement,

with the Springfield Blvd. lines as its main point, and took it for ratification to all local civic groups. The committee was started at the instigation of the Greater Bayside Citizens Association, with representatives of the Businessmen, Lions and Kiwanis Club, the Bayside and Oakland Gardens Civic groups. "We are very proud and happy of this morning's favorable action," Mr. Brush said Tuesday afternoon
