Laboratory work №10
Text visualization with tex/latex

Tasks

To perform this task, it is recommended to use web platform Overleaf (<https://www.overleaf.com>). You can use templates from <https://www.overleaf.com/latex/templates>.

Task 1. Create your own resume (CV) using tex/latex. The resume (CV) should contain the following sections:

1. Full name, contact information, photo
2. Education
3. Experience
4. Technologies
5. Publications
6. Other achievements.

Task 2. Create report, which contains all results and short comment for laboratory work 9 (nonlinear dimension reduction) or 10 (linear dimension reduction).
