

ActionReward

Reward users with PolygonID

About ActionReward

ActionReward is a platform that aims to enhance and streamline the way businesses implement reward systems.

It was designed to empower businesses to create and customize their own reward systems to incentivize specific user actions, such as engagement, task completion, or achieving milestones.

Use Cases

E-Learning

Gaming

NFTs

SaaS

1

When a match ends, we generate a certificate

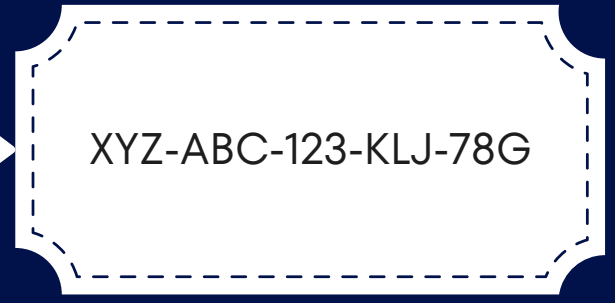

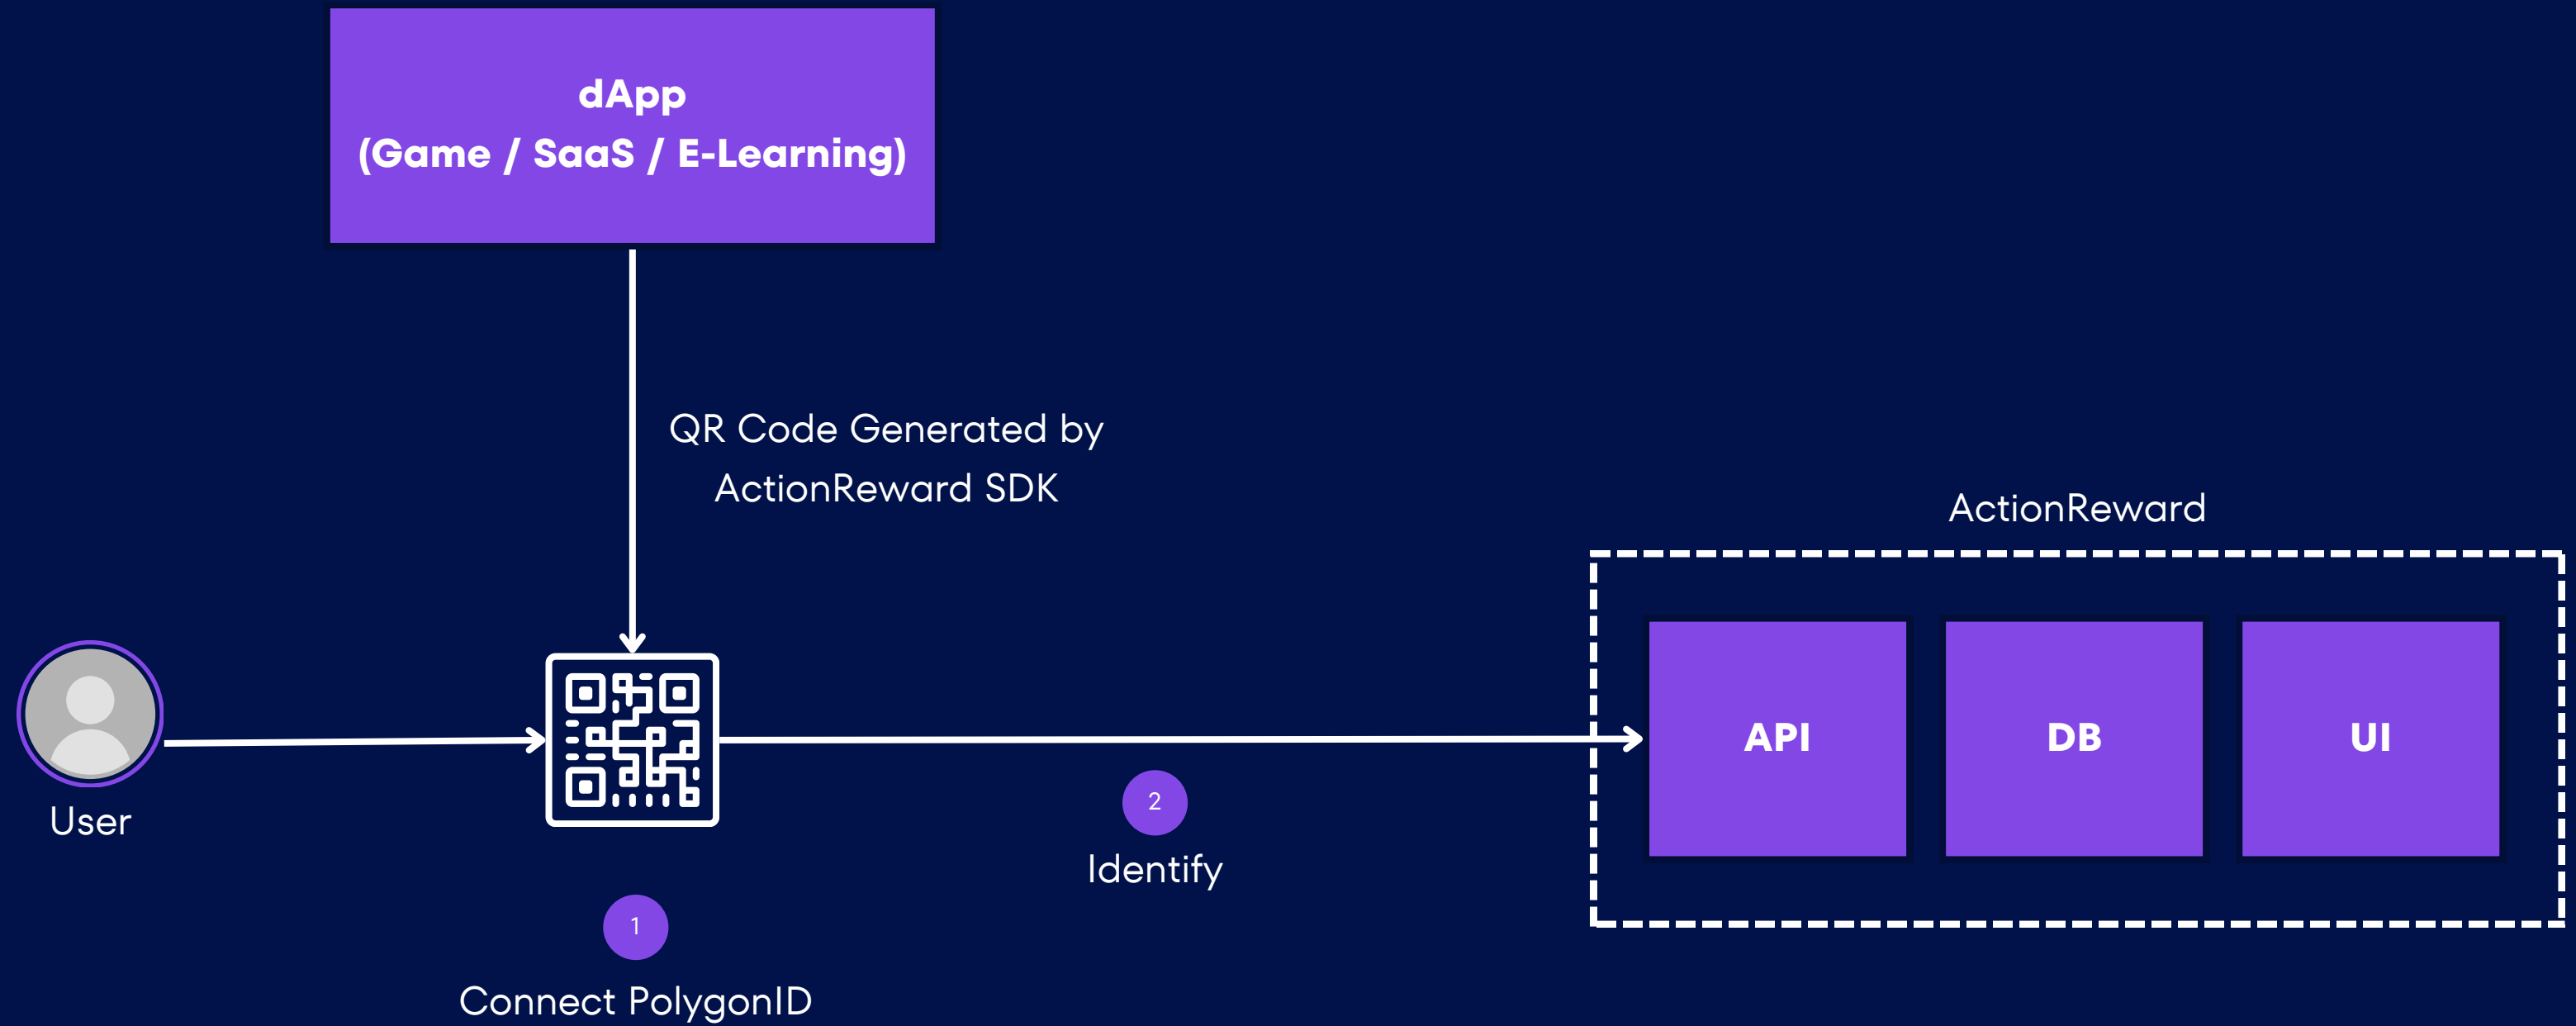

2

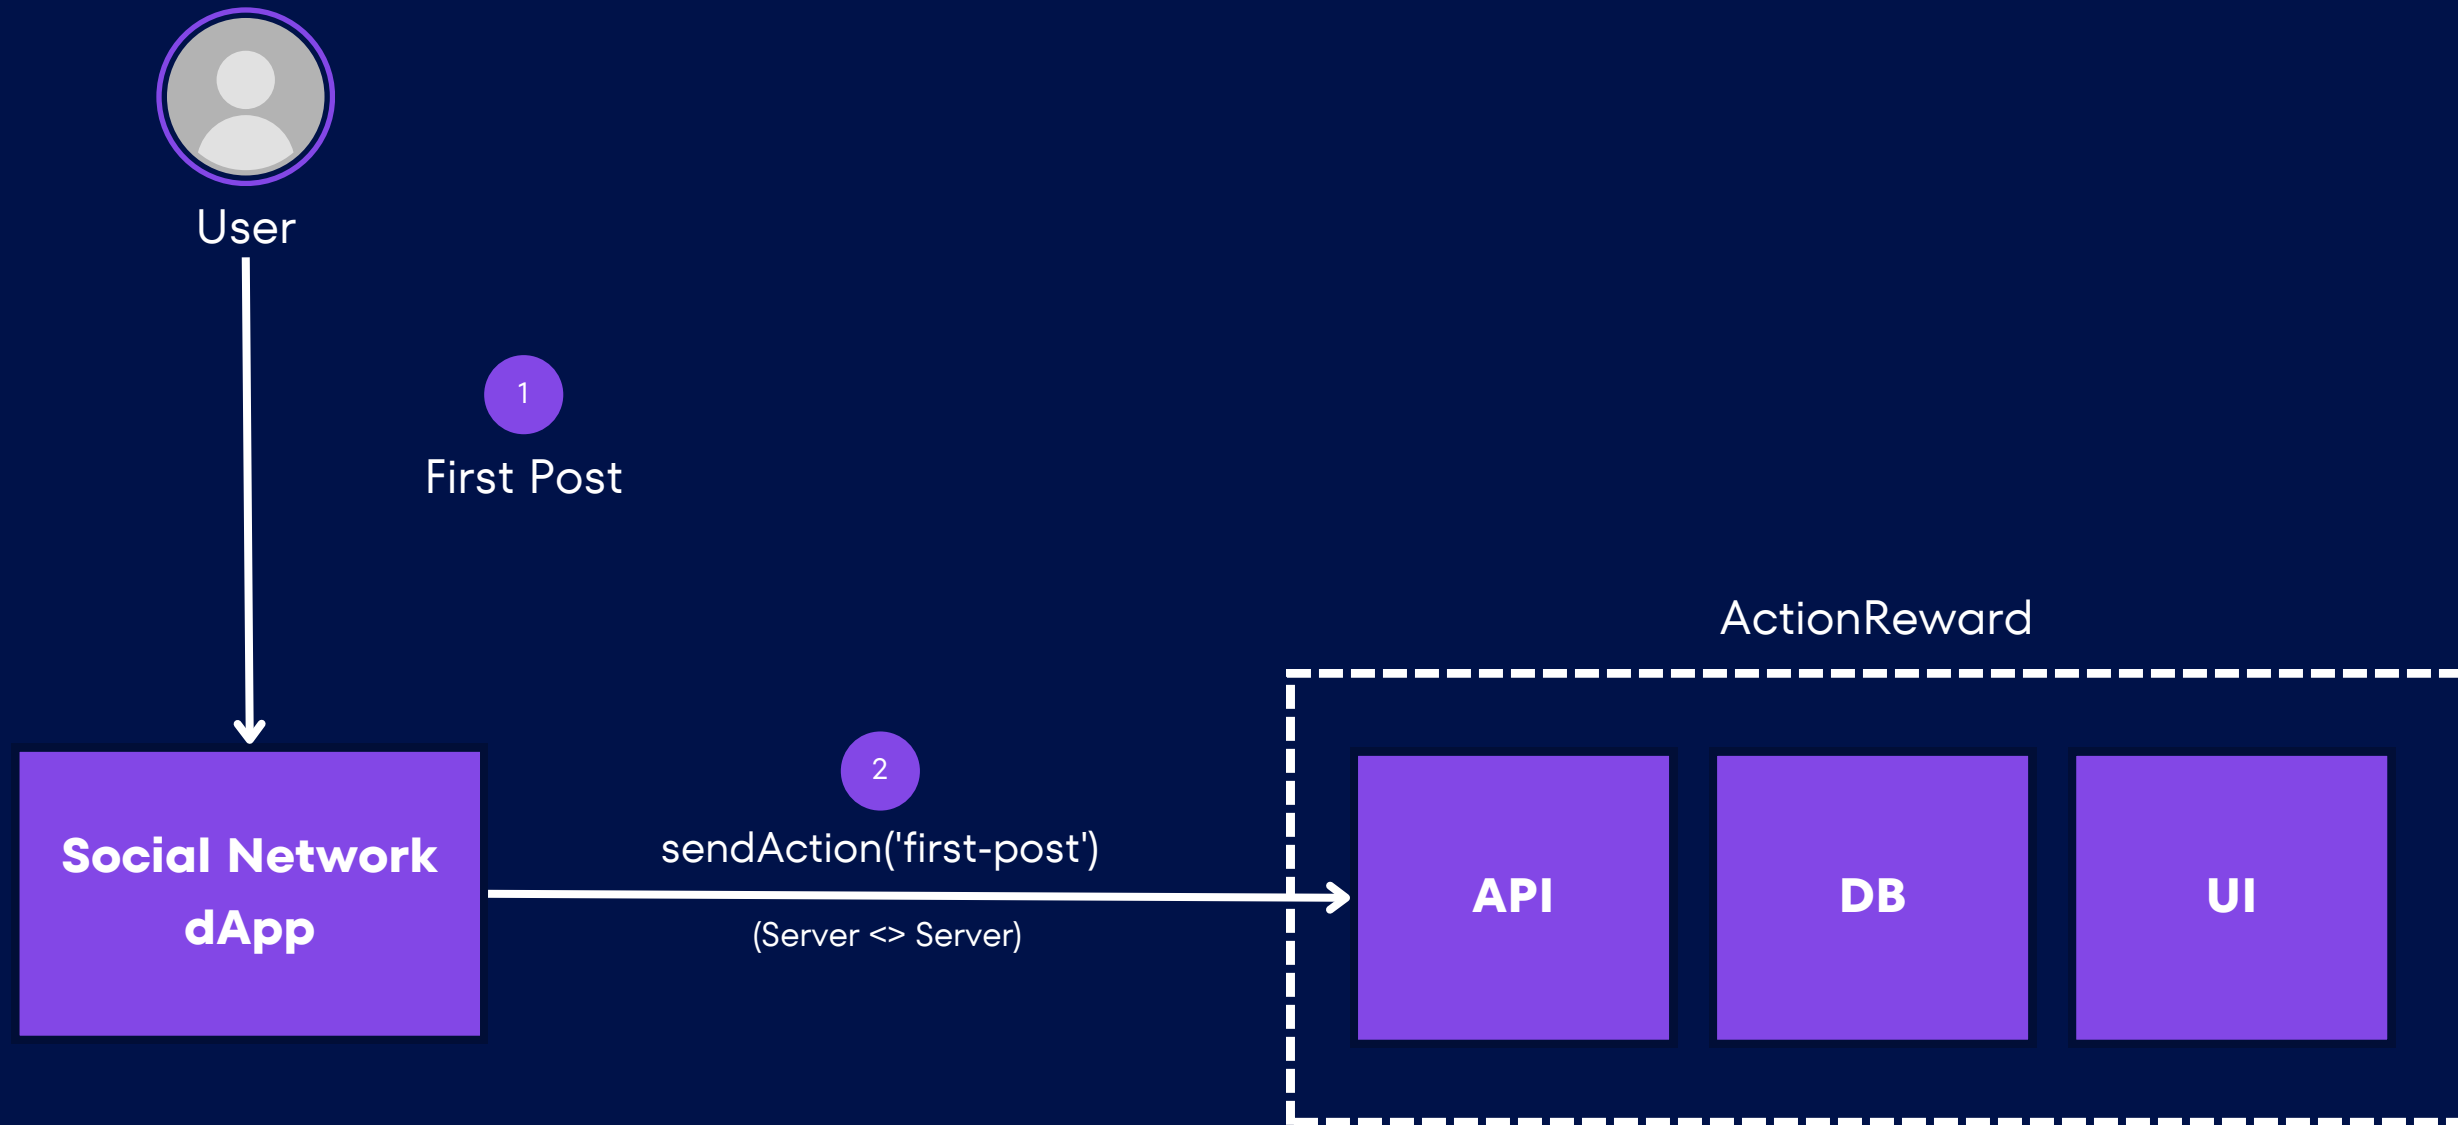

The player can use the certificate to claim rewards

Score > 1500

Thanks!
