5.8 abcd some words here, the sentence ends now

6.1 xyz a few words here, this is also fine

6.2 This paragraph happents to be more than 200 characters long, but gets cut off at around 240 characters. I need all the characters/words to be included – not excluded, so I can run functions on the output. Right now the regular expressions are not running on the text foll (just repeating the text) This paragraph happents to be more than 200 characters long, but gets cut off at around 240 characters.
