Authorization Key
Access ID/Client ID: ljalsjdfljkahlkdfljlksdjflj
Access Secret/Client Secret: **********
Cloud Authorization IP Allowlist
To improve security, you can set up a list of IPs that can legally access Tuya's data centers through the IP whitelist function. Requests from source IPs that are not in this list will be rejected.
SaaS Development Framework
We recommend that you quickly build IoT solutions based on Tuya's open-source SaaS Development Framework.
