ZORBENT SUPER ABSORBER - 16X MORE EFFECTIVE THAN CLAY ABSORBENTS

One Cubic Foot

Perfect for transportation, schools, industrial, automotive, and construction applications, Zorbent is a great absorbent powder that can be used on any hydrophobic or hydrophilic liquid regardless of the viscosity (do not use on Hydrofluoric Acid). Using Zorbent for all your absorption needs greatly reduces expenses and space needed to keep absorbents. Zorbent is lighter and more effective than many other forms of absorbents.

- Absorbs 16 times more than clay absorbents.
- Encapsulates hazardous waste: absorbs all liquids, including oils, water, acids/bases (note: if Zorbent is used to absorb a hazardous waste, it must be disposed of as a hazardous waste).
- Dust Free: reduces mess and skin/eye contact.
- Reduces and eliminates odors: naturally produces a cleaner smelling environment.
- Leaves spill surface clean and dry: leaves no residue.
- Absorbs 8-10 times its weight: reduces space needed for storage.

PRO-TIP:

10 lbs. of Zorbent replaces 190 lbs. of clay material!

Ultra-light Zorbent Super Absorber weighs just 5 lbs. per Cubic Foot, is non-flammable, and retains 99.8% of VOC on EPA TCLP list.

This lightweight natural mineral minimizes labor, reduces work injury risk and costs, reduces disposal costs, and requires drastically less storage space in your facility!

PEAT SORB HYDROCARBON ABSORBENT

Two Cubic Feet

- **Multi Functional** - Peat Sorb will work with the full range of oil based products from crude oil, gasoline, PCB's, coal tars, fatty acids, hydrocarbon based inks and will solidify and absorb resins.
- **Effective Anywhere** - Peat Sorb will work to absorb oils on land and in water as it floats in water and will not absorb water, only the oil on the water.
- **Non-Leaching** - Oil absorbed does not leach out and is naturally degraded, making it acceptable for use in lined land fills which can handle Class 1 waste.
- **Non-Abrasive** - Safe for use around machinery.
