A MORE EFFICIENT & PRODUCTIVE SHOP

Our expert metalworking team can partner with you to evaluate your approach to any application and improve cycle times, set-up, and productivity. Plus, we stock a wide variety of metalworking fluids and sump products to ensure you get what you need, fast. To request support or product selection assistance, simply scan the adjacent QR code.

UNPARALLELED VALUE & PERFORMANCE: WHY CHOOSE BLUE CHIP?

A&M Industrial's exclusive and thoroughly expanded Blue Chip line of machining fluids provides you an alternative to high-priced competitor brands, without requiring you to compromise on quality or performance.

Each fluid was developed by working closely with our industry-experienced technical and product support teams, who provided insights into application requirements and equipment trends that not only informed each fluid's development, but also pushed the envelope. The resulting fluids have been formulated to provide the exceptional and balanced performance today's industrial machines and applications demand.

Blue Chip Machining Fluids have been engineered to:

- Protect your machines and equipment: meets or exceeds industry ISO Standards
- Enable smooth, trouble-free performance
- Provide extended life and longer lubrication intervals
- Reduce cost and waste

Contact the A&M Industrial Team for help choosing the right Blue Chip solution for your facility or application.

INCREASE COOLANT LIFE & YOUR RETURN ON INVESTMENT: **SCHEDULE A FLUIDS & SUMP ASSESSMENT TODAY!**

Your coolant and machining fluids are the lifeblood of your shop. A&M Industrial's expert team can work with you to:

- Identify the fluids best-suited for your applications
- Provide recommendations that extend coolant & sump life
- Identify and document potential cost savings
- Help you trouble-shoot and resolve existing fluid and sump issues
- Educate employees on efficient coolant management

**WE CAN HELP YOU CREATE A HEALTHIER,
MORE PRODUCTIVE & PROFITABLE SHOP.

WAY OILS

Formulated For Use In The Slide Ways Of Planers, Grinders, Horizontal Boring Machines, Shapers, Jig Borers & Milling Machines

- Formulated to eliminate “stick-slip” a lubrication problem in slow moving, heavily loaded, slides and ways.
- EP and anti-wear protection.
- Non-corrosive to ferrous and non-ferrous metals.
- Fully approved for use in Cincinnati Milacron machining centers.

Applications:

- Slides and ways of machine tools.
- Lathes, planners, shapers, grinders, drills, and tapping machines.
- Lightly loaded gear sets with spur, bevel, spur bevel, spiral bevel, and herringbone gears.
- Plain and anti-friction bearings and chain.

CLEAR WAY OILS

Environmentally Friendly Food Grade Slideway Lubricants

Approved under H-1 Specifications for incidental contact with food.
Complies with FDA food contact guidelines.

- Formulated to provide superior lubrication for industrial ways and any application where an adhesive tacky “clean” lubricant is required.
- Sulfur free. Helps control and limit bacteria growth in machine sumps.
- Excellent candidate for industrial slideways that require environmentally qualified products.

FOOD CONTACT-SAFE SOLUTIONS

EP GEAR OILS

Heavy Duty EP (Extreme Pressure) Gear Lubricants

Gear lubricants (GL-4) formulated for use in industrial gear sets, bearings, circulating systems and gear reducers.

- Protect gears and bearings by providing excellent load carrying capability, water demulsibility, oxidation stability and corrosion resistance.
- Excellent oxidation resistance and thermal stability.
- Exceptional performance in high load and/or extreme temperature operations.

Applications:

- Enclosed gear sets calling for EP Gear Oil.
- Gear sets with spur, bevel, spur bevel or herringbone gears.
- Plain and anti-friction bearings and chain drives.
- Manual transmissions and gear reducers calling for EP Gear Oil.
- Bath, splash, circulating or mist systems.
- General plant lubrication where EP performance is needed.

- Provides sludge and deposit control.
- Rust and corrosion protection for all system components.
- Excellent water separation and demulsibility.
- Excellent anti-foam and rapid air release.

Applications:

- Recommended for applications calling for rust and oxidation inhibited oils.
- A myriad of assorted industrial applications: hoists, electric motor bearings, machine tools, etc.
- Gear sets calling for AGMA RO Oil.
- Gas, steam and hydraulic turbines.
- Air compressors.
- Industrial bearings.
- Circulating systems.

AW HYDRAULIC OILS

General Purpose Hydraulic Fluids

These general purpose hydraulic fluids formulated with refined paraffinic base oils to provide excellent anti-wear protection, oxidation and corrosion inhibition, as well as foam and aeration suppression.

- Long-life protection up to 5,000 hours.
- Premium anti-wear hydraulic oil inhibits rust, corrosion and oxidation.
- Remains stable when exposed to moisture and at extreme temperatures.
- Demulsifying additive to help separate water rapidly.

Applications:

- For applications requiring long lubricant service life.
- For applications requiring a premium anti-wear fluid such as in turbines, pumps, machine tools, gear drives, circulating oil systems, oil mist systems, etc.

SPINDLE OILS

Light Viscosity Spindle Oils Formulated For Lubrication Of High Speed & Machine Tool Spindle Bearings

- Formulated to provide outstanding protection against rust and oxidation while demonstrating good lubricity.
- Reduces sludge, varnish and deposit formation.

Applications:

- Designed for use in all types of spindle bearings, including high-speed spindle bearings.
- Fully compatible with elastomer materials used for static and dynamic seals, such as nitrile, silicone and fluorinated (e.g. Viton) polymers.

595P CUTTING OIL

Contains Anti-Weld & Lubricity Agents To Meet The Most Severe Machining Operations

595P is light colored, premium quality non-staining, anti-misting cutting oil. It contains anti-weld and lubricity agents to meet the most severe machining operations. Since it is non-staining, it is ideal for use on copper and its alloys.

- Will not stain yellow metals.
- Provides best in class surface finishes.
- No active sulfur.
- Chlorine-free.
- Anti-misting properties.

APPLICATIONS:

Cutting	Tapping
Drilling	Threading
Internal Grinding

LPS **TAPMATIC® #1 GOLD CUTTING FLUID**
Great For All Metals, Including Aluminum

- Does not contain water, solvents, or inactive fillers.
- Reduces cutting torque and improves cutting efficiency.
- Does not contain chlorinated solvents or chlorinated paraffins.
- Requires less product usage than traditional cutting fluids.
- Increases tool life and improves surface finish.
- For all metals including aluminum.
- Excellent for tapping applications.

APPLICATIONS:	
Boring	Milling
Broaching	Reaming
Drilling	Threading
Engraving	Turning
Facing	Sawing

LPS **EDGE LUBE CUTTING FLUID**
High-Efficiency Lubricant That Extends Grinding Wheel, Saw Blade & Belt Life

The grease-less, dry-to-the-touch lubricant that penetrates quickly and displaces moisture to get parts up and running at max efficiency. Specially formulated to combat build-up, it's even safe for delicate mechanisms. Removes carbon build-up from surfaces and is safe on paint, fabric, and most plastics.

- Low toxic, biodegradable, low odor.
- Extends grinding wheel life.
- Does not contain any hazardous chemicals.
- Eliminates heat build-up and belt loading.
- Excellent for belt, wheel or disc grinding, and sawing applications.
- Biodegradable, solid, white, waxy bar.
- Recognized by the USDA BioPreferred™ program.
- Water rinsable.
- Safe on all metals.

PORTABLE REFRACTOMETER

0 ~ 32% • Suitable For Water-Based Coolant

- Quickly measure the concentration of coolant.
- Refer to the refraction factor of coolant, for example: the refraction factor of grinding emulsion is 2.1, the reading value is 6%, so the actual concentration is $(2.1 \times 6\%) = 12.6\%$

SCAN TO LEARN HOW TO USE A REFRACTOMETER TO MEASURE COOLANT CONCENTRATION

SPECIFICATIONS:

Measuring Range:	0~32%
Graduation:	0.20%
Dimensions:	27mm x 40mm x 160mm
Weight:	175g

←INSIZE→

DIGITAL REFRACTOMETER

0 ~ 50% • Suitable For Water-Based Coolant

- Quickly measure the concentration of coolant, sugar solution, juice and drinks.
- Two measurement modes: single measurement and automatic average multiple measurement.
- Two units: brix and refractive index.
- Refer to the refraction factor of coolant, for example: the refraction factor of grinding emulsion is 2.1, the reading value is 6%, so the actual concentration is $(2.1 \times 6\%) = 12.6\%$.
- Automatic power off.

SPECIFICATIONS:

Measuring Range:	0~50% (1.3330~1.4200RI)
Accuracy:	0.20% (± 0.0003 RI)
Resolution:	0.1% (0.0001RI)
Dimensions:	121mm x 58mm x 25mm

WAYNE PRODUCTS MINI-SKIMMER COGGED BELT OIL SKIMMERS

- Mini-Skimmer drive envelope is tiny and portable – fits in the palm of your hand.
- PVC Splash guard to prevent liquid intrusion.
- Collects up to a gallon of oil per hour.
- Works in temperatures up to 120°F.
- Reinforced belt lasts longer with no slippage on the drive pulley.
- Powder-coated tail pulley is secured with Stainless Steel stabilizer bar.
- Corrosion-resistant, glass-filled nylon drive pulley.
- 10' Long, 16 Gauge, three-prong power cord.
- Easily mounts with two simple nuts and bolts (provided).
- One year manufacturer's warranty.

MSB-A Skimmer Packages Include:

- (1) Skimmer unit with 10' cord, chute, and drive pulley attached.
- (1) Stabilizer bar.
- (1) Belt.
- (1) Tail pulley.
- (1) Instructions packet with mounting hardware.
- Accessories: (1) timer, (1) GFCI, and (1) 2' discharge hose.

WAYNE PRODUCTS MINI-SKIMMER STAINLESS STEEL BELT OIL SKIMMERS

Mini-Skimmers with stainless steel belts are for harsh industrial environments like chemical plants and machinery production. The most reliable Stainless Steel oil skimmer is great on an ultrasonic cleaner or in other parts washing applications. If you will be using your Mini-Skimmer in hot, acidic, or alkaline fluids, go with these stainless steel oil skimmer belts.

Model MSB-B comes with the same durable motor you can always expect on a Mini-Skimmer, a stainless steel tail pulley can handle the toughest environments, and a UHMW bearing-grade scraper to minimize wear on the belt. We have four standard, stocked stainless steel belts – reach lengths of 8”, 12”, 18”, or 24”. Longer reach Stainless Steel belts (up to 10 feet) are usually available for long reach applications.

- Mini-Skimmer drive envelope is tiny and portable – fits in the palm of your hand.
- PVC Splash guard to prevent liquid intrusion.
- Collects up to a gallon of oil per hour.
- Works in temperatures up to 220°F.
- Reinforced belt lasts longer with no slippage on the drive pulley.
- Stainless Steel tail pulley is secured with Stainless Steel stabilizer bar.
- Corrosion-resistant, glass-filled nylon drive pulley.
- 10' Long, 16 Gauge, three-prong power cord.
- Easily mounts with two simple nuts & bolts (provided).
- One year manufacturer's warranty.

Skimmer Packages Include:

- (1) Skimmer unit with 10' cord, chute, and drive pulley attached.
- (1) Stabilizer bar.
- (1) Belt.
- (1) Tail pulley.
- (1) Instructions packet with mounting hardware.

MINI-SKIMMER R.S.
The Oil Skimmer For Small CNC Machines

The Mini-Skimmer R.S. is the smallest unit in our oil skimming family. Named after our founder, Mini-Skimmer R.S. has an anodized aluminum housing and a cogged polyurethane belt that has become the industry standard. Mini-Skimmer R.S. is an oil skimmer for small CNC machines that is ideal for intermittent skimming or recreational machining. Easily control when your Mini-Skimmer R.S. is in operation with its convenient on/off switch.

The latest addition to their expanding line of high-quality oil skimmers, Mini-Skimmer R.S. comes with mounting fasteners, a discharge hose, and is constructed with corrosion-proof materials. Despite its small size, Mini-Skimmer R.S. still collects a quart of oil per hour. No Assembly Required – Mini-Skimmer R.S. ships fully assembled. Just plug it in, flip the switch, and you're skimming.

SKIMERATOR® FLOATING OIL SKIMMER SYSTEM
The Original Skimerator®

CLEAN & GREEN! The original SKIMERATOR® is our floating tank oil skimming system, which skims contaminating oils and aerates coolant so your CNC machine can perform at peak efficiency while extending coolant life – saving you time and money! The SKIMERATOR® uses no filters or consumables and is easily assembled and installed.

WHY BUY A SKIMERATOR®?

- The Original SKIMERATOR® floating oil skimmer system not only skims but aerates coolant in 2 stages, reducing bacteria and rancidity to eliminate odors and keep workers healthy.
- SKIMERATOR® has a green, translucent tank that allows the user to closely monitor skimmed oil levels via easy-to-read measuring lines.
- Our SKIMERATOR® oil skimmer pump system extends your coolant life by up to 50%, reducing your operating costs and environmental impact.
- SAVE TIME, MONEY, AND COOLANT IN AN ECO-FRIENDLY WAY.

ABANAKI Clean our World[®] TUBETASTIC![™] TUBE OIL SKIMMER

The Abanaki TubeTastic![™] oil skimmer can be used on machining centers with little or no access to the coolant sump from above. This unit can skim oil from chip conveyors or even totally enclosed machining centers. The TubeTastic![™] can be easily mounted on the side of virtually any machining center coolant sump. By use of an existing opening or by making a small access cutout, the collector tube runs through the surface of the coolant and collects the unwanted oils. The oil then flows out the discharge tube into any waste oil container for easy disposal.

ABANAKI Clean our World[®] OIL BOSS[®] MAGNETIC MOUNT TRAMP OIL SKIMMER 115V/60 HZ

The Oil Boss[®] is an innovative tool for keeping coolant free of oil. The patent-pending design allows for easy visual inspection of your coolant's condition; and will also help extend tool and coolant life. It decreases loss of production and maintenance time. Plus, it allows for easy cleaning of various sumps or tanks around any plant or shop due to its portability and magnetic base. The Oil Boss[®] has a small footprint that reduces the amount of clutter on the shop floor.

ABANAKI Clean our World[®] COOLANT MINTS[™] SUMP DEODORIZING TABLETS

Use one tablet for 25 Gallons of fluid. Repeat treatment once per week to prevent the recurrence of odors. Tablets should not be placed in an area where they will not get buried in chips or sediment. Place where circulation occurs.

- Eliminates coolant odors by neutralizing hydrogen sulfide gases.
- Not a perfume.
- Contains no formaldehyde.
- Safer and less expensive than biocides.
- 15 tablets per tube.
- No disposal problems.
- Safe to handle and easy to use.

15 TABLET PACKAGE
MFR #CMINTS
A&M ITEM #6426027

\$49.00

- Works in machining center sumps with little or no overhead space.
- 110v continuous duty fan cooled motor.
- Capacity: 1.5 gallons/hour
- Standard tube lengths of 8", 12", 18", 24" and 30" available.

- Magnetic base allows for installation anywhere in the shop.
- Complete reversibility prevents hoses and cords from getting tangled.
- Lightweight and portable.
- Oil is easily collected and discharged making removal clean and easy.
- Requires no floor space.
- No tubes, mops, disks, or belts or wear out. The filtration media is easily washed out and reused.
- Pick up hard-to-remove oils that conventional skimmers leave behind.

MIGHTY MINI® BELT OIL SKIMMER

12" Diameter Disk

The stainless steel Mighty Mini® is a compact belt skimmer designed for parts washers and machine tool coolant sumps. With its large discharge trough and small operating space, the Mighty Mini® fits almost anywhere. The stainless steel construction resists rust and corrosion in harsh environments. Its pull out trough makes for easy cleaning and dual wipers make for extra efficiency. With its durable stainless steel construction, it is built to give long lasting performance.

- Capacity: 1 gallon/hour
- Spring loaded stabilizer bar.
- Sealed shaft for longer motor life.
- Removable trough for easy cleaning.
- Fan cooled gear motor.
- Integrated 24 hour timer.
- 3' clear discharge hose and clamp;
- 8' grounded power cord with plug.
- Stainless steel construction.

LIL' BLUE™ OIL SKIMMER WITH 1" WIDE BASE TO BOTTOM BELT

110V 60CYC

The economical solution to remove unwanted oil in coolant sumps and machining centers! Removes one gallon or more of medium weight oil per hour. Use it almost anywhere...even through a 2" dia. bunghole in a drum. Use it here today, there tomorrow. Weighs only 6 pounds, installs in seconds and runs on 110 v. power. Constructed of tough engineered polymer and includes long life fan-cooled motor.

- Capacity: 1 gallon/hour
- Spring-loaded stabilizer bar.
- 8-foot grounded power cord w/plug.
- Removable trough for easy cleaning.
- Engineered polymer base and housing.
- 3-foot clear discharge hose and clamp.
- Fan-cooled motor.

MIGHTY DISK™ TRAMP OIL SKIMMER

12" Diameter Disk

The inexpensive way to remove unwanted tramp oils from coolants and parts washers, but with all the quality that you expect from Abanaki! Removes up to 1-1/2 gallons of oil or more of medium weight oil per hour. Use it almost anywhere a flat surface is available for mounting. Weighs less than 10 pounds, installs in no time, and runs on 110V power.

- 12" diameter disk has a 4" reach.
- 110V continuous duty fan cooled motor.
- 1/2" thick disk rated to 160°F.
- Compact size allows use on most flat surfaces.
- Sealed shaft prevents oil contamination.
- Capped troughs & wiper standoffs prevent drips.
- Boomerang blades wipe more oil off disk.
- Weighs less than 10 pounds.
- Comes complete out of the box & ready to work.
