Our team of safety experts can partner with you to evaluate the safety of your facility and perform over a dozen services, including Respirator Fit Testing and Logout Tagout. To learn more or to request a safety service, simply scan the adjacent QR code.

HYFLEX® 11-731 CUT-RESISTANT GLOVES
ANSI A2 Cut Level • ANSI Level 3 Abrasion • Polyurethane • 18-Gauge

- HyFlex® 11-731 polyurethane gloves' lightweight 18-gauge liner enhances their flexibility and tactility.
- These safety gloves' light PU coating offers greater dexterity and makes them more abrasion-resistant, for EN level 4 and ANSI level 3 abrasion protection.
- INTERCEPT™ Cut Resistance Technology yarn grant them added lacerations defenses, with EN ISO B/ANSI A2 protection.
- Dirt-masking color treatment on these HyFlex® gloves' coating hides stains and marks, ensuring longer glove life.
- These PPE gloves are also available in vend pack form, for simplified access to personal protection.

Recommended For:

- Assembly & inspection of components.
- Press injection molding.
- Picking, fastening components.
- Final assembly.
- Delivery of parts to production line.
- Applying finish to materials, products.
- Handling incoming goods.

WHICH ANSI CUT LEVEL, WHEN?

Nuisance Cut Hazards

- Small parts assembly
- Electronics assembly
- Quality control inspections

Low Cut Hazards

- Warehousing
- Light material handling
- General labor

Moderate Cut Hazards

- Light metal stamping
- Sheet metal handling
- Construction framing

High Cut Hazards

- Metal stamping
- Recycling & waste sorting
- Oil & gas refinery and extraction

Extreme Cut Hazards

- Meat processing
- Glass manufacturing and installation
- Heavy metal stamping

HYFLEX® 11-644 CUT-RESISTANT GLOVES

ANSI A2 Cut Level • ANSI Level 5 Abrasion • Polyurethane • 13-Gauge

- **Heightened protection:** INTERCEPT™ Cut Resistance Technology helps them achieve EN ISO B/ANSI A2 laceration defenses.
- **Enhanced durability:** Abrasion-resistant gloves' polyurethane coating remains both maneuverable and hard-wearing over time.
- **Improved ergonomics:** Ergonomic fit and low palm weight makes it perfectly comfortable for highly precise operations.
- **Genuine practicality:** HyFlex® 11-644 PPE gloves are also sold in vend pack form, for practical replenishment and re-application in real-world conditions.

Recommended For:

- Press shop operations
- Handling metal sheets & panels.
- Handling parts with sharp, rough edges.
- Seizing structural and machine parts.
- Inspection (picking, checking and marking).
- Cutting glasses, sheets, panels.

HOW DOES WORK GLOVE GAUGE IMPACT FEEL?

What Is Glove Gauge?

A glove's gauge refers to the number of stitches per inch used in the fabric that the shell of the glove is made from. Lower gauge threads are thicker, while higher gauge threads are thinner.

Lower Gauge

Lower gauge gloves are coarser with less dexterity. It won't be difficult to move your hand like in a thicker leather glove, but it may be challenging to pick up small objects while wearing a lower-gauge glove.

Higher Gauge

Higher gauge gloves are softer with better dexterity, making them more comfortable. It will be easier to work with small objects that require fine motor skills while wearing a higher-gauge glove.

SAMURAI GLOVE® CR588MF CUT-RESISTANT GLOVES

ANSI A3 Cut Level • ANSI Level 6 Abrasion • Nitrile Coated • 13-Gauge

Reinforced thumb crotch increases abrasion resistance in vulnerable area

- 13-gauge enhanced Aralene® shell offers bare hand sensitivity, cut resistance, and heat resistance.
- Mach Finish nitrile offers excellent grip in wet and oily conditions.
- Black liner and black coated palm hides dirt to keep a clean appearance.
- Overcast color on hem for identification.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- EN 388 Levels: 3X31C; EN 407 Levels: X1XXXX

This lightweight seamless glove is an outstanding cut-resistant option that features a black 13-gauge Aralene® shell. Aralene® is an enhanced aramid fiber that provides both cut and heat resistance. The shell is enhanced by a black Mach Finish nitrile dipped palm.

CUT PRO® 92721 CUT-RESISTANT GLOVES

ANSI A4 Cut Level • ANSI Level 3 Abrasion • Polyurethane • 21-Gauge

The MCR Safety Cut Pro® series offers various cut protection levels and materials for your protection. The 92721 cut-resistant work glove is made with a 21-gauge HyperMax® shell and features extreme dexterity! It also provides good abrasion and puncture resistance, making it the perfect glove for demanding jobs. The 92721 has a black polyurethane palm and fingertip coating that easily hides dirt and grime.

- Comfortable and easy to wear.
- Cut, abrasion, and puncture resistant.
- Excellent dexterity.
- Ultra-lightweight protection.
- 21-Gauge HyperMax® Shell.
- OEKO-TEX® certified – free from harmful substances.
- Black PU Palm.
- DMFa <10ppm.

G-TEK® POLYKOR® 16-564 CUT-RESISTANT GLOVES

ANSI A4 Cut Level • ANSI Level 3 Abrasion • Polyurethane • 13-Gauge

Recommended For:

- Maintenance and Repair Operations.
- High Dexterity Handling, Assembly and Sorting of Small to Medium Parts and Materials.
- Shipping, Receiving and Packaging.

- Seamless construction offers increased comfort and breathability.
- PolyKor® blended shell is lightweight and provides excellent dexterity, tactile sensitivity, and cut resistance.
- Polyurethane coatings take on the surface properties of the glove liner providing a tactile grip in dry and slightly oily conditions, ideal for applications that require dexterity for precise handling.
- Knit Wrist helps prevent dirt and debris from entering the glove.
- Color coded hems for easy size identification.
- 100% Silicone Free.

SAMURAI GLOVE® CR921 SALT-AND-PEPPER TOUCH SCREEN CUT-RESISTANT GLOVES

ANSI A4 Cut Level • ANSI Level 3 Abrasion • Foam Nitrile • 21-Gauge

These cut-resistant gloves have a 21-gauge salt-and-pepper seamless Tuffalene® Platinum UHMWPE shell. Our innovative Tuffalene® Platinum offers extra comfort, protection, and durability – free from glass fibers or metal enhancements to achieve this level of cut protection. This uniquely crafted material is cooler and provides a more comfortable user experience while also retaining a puncture resistance comparable to enhanced fibers. Gloves made with Tuffalene® Platinum last longer than enhanced gloves due to the inherent abrasion resistance of the fiber construction. Because Tuffalene® Platinum gloves are constructed without metal or glass fibers, particles of these fibers do not contaminate other materials during handling. The palm is coated in black foam nitrile. Features touch screen compatible fingers and a knit wrist cuff to prevent gloves from slipping. Anti-static/Electrostatic compliant for use in an ESD protected area.

- Component materials comply with FDA regulations for food contact.
- 21-gauge ultra-lightweight Tuffalene® Platinum UHMWPE shell offers bare hand sensitivity and cut resistance, free from glass fibers or metal enhancements.
- Foam nitrile provides excellent dry, wet, and oily grip with breathability.
- Overcast color on hem for easy size identification.
- Touch screen compatible fingertips.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- Anti-static/Electrostatic compliant.
- EN 388 Levels: 3341C.
- Meets ANSI/ISEA 105-2016 standard.

SAMURAI GLOVE® CR921 HIGH VISIBILITY CUT-RESISTANT GLOVES

ANSI A7 Cut Level • ANSI Level 5 Abrasion • Nitrile Coated • 18-Gauge

A&M TOP SELLER

These Cut-Resistant gloves have an 18-gauge high-visibility green seamless Tuffalene® UHMWPE/rPET shell. The rPET (recycled polyester) fiber utilizes reprocessed PET plastic bottles and helps to reduce 17.64 grams of carbon dioxide emission per pair. The black Xtreme Foam Technology nitrile-coated palm provides abrasion resistance. The gloves feature a reinforced thumb crotch, touch screen compatible fingertips, and a knit wrist for a secure fit.

- Ultra-light 18-gauge Tuffalene® UHMWPE/rPET shell offers bare hand sensitivity, cut resistance, and top-of-the-line dexterity.
- Made with rPET (recycled polyester) fiber which utilizes reprocessed PET plastic bottles as an environmentally conscious method to help reduce carbon dioxide emissions. This process helps to reduce 17.64 grams of carbon dioxide emission per pair.
- Nitrile coated palm is breathable and provides abrasion resistance.
- Highly-flexible Xtreme Foam Technology (XFT) finish is breathable and enhances grip in a wide variety of conditions.
- Reinforced thumb crotch increases abrasion resistance in vulnerable area.
- Touch screen compatible fingertips.
- Overcast color on hem for easy size identification.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- EN 388 Levels: 4X42F
- Meets ANSI/ISEA 105-2016 standard.

Protects all the way to the knuckle

**CUT PRO® SLEEVE 92180VT**

ANSI A5 Cut Level • ANSI Level 3 Abrasion • Bi-Polymer • 13-Gauge • Hi-Visibility Orange

The 92180VT Cut Pro® cut-resistant arm sleeve features hi-visibility cut protection made with soft and comfortable HyperMax® fiber. A 13-gauge knitting pattern allows for excellent breathability and coolness on hot summer days or environments. The bicep portion of the sleeve features a unique reinforced hook and loop sleeve band that will easily adjust for a more personal fit. Upper and lower sleeve cuffs and thumb slots are hemmed for extended durability.

- 13-gauge seamless knit HyperMax® yarn.
- 18" cut-resistant sleeve.
- Elastic wrist: hemmed upper and lower sleeve cuffs and thumb slot.
- Upper arm adjustable hook & loop strap.
- Size: one size fits most.
