j.estrada49@icloud.com

Sonora, MEX

I'm a Software Engineer with knowledge in Object-Oriented Programming, Design Patterns, Data Structures, and Databases. I have experience building Web Applications on Laravel, React, Angular, and IONIC frameworks. Also, I've been a leader in Development Teams, where I actively collaborated in different stages of the Software Development Life Cycle. At college, I offered mentorship to other students through the PASA Program.

EXPERIENCE

E-Commerce Developer

LANIX Internacional

Nov 2021 — Present

EDUCATION

B.S. in Software Engineering, GPA 97

Universidad Estatal de Sonora

Aug 2017 — May 2021

Mentor of other students through the PASA Program (Academic Support and Follow-up Program).

B.S. in Communication

Universidad de Sonora

Aug 2013 — Dec 2015

PROJECTS

LANIX E-Commerce

PHP JavaScript Laravel Eloquent MySQL Bootstrap PayPal

I joined a started project to migrate from a corporate website into an e-commerce, and helped LANIX sell electronics direct to consumer. I made unit testing on the integration of PayPal APIs to ensure the security of payments and correct processing of sales into our own database and ERP, redesigned with Bootstrap, advanced Eloquent queries, and more.

Personal Website & Portfolio

SPA PWA React JavaScript SASS Analytics Firebase

Single Page Application built in React to showcase my design and coding projects, demonstrate some skills, and extend my personal information. According to Lighthouse report, my website achieved 100% scores at Performance, Accesibility, Best Practices, SEO, and got the PWA badge.

* Feel free to explore these and other projects on my **portfolio** and **github** account, some of them are private to the organizations and I can only show you the live version.

CERTIFICATIONS

- Oct 2021. "Becoming a Node.js Developer" issued by LinkedIn Learning
- Aug 2021. "Diplomado en Desarrollo Web y Móviles" issued by UES
- Jul 2021. "APIs and Microservices" issued by freeCodeCamp
- Apr 2021. "JavaScript Algorithms and Data Structures" issued by freeCodeCamp
- Oct 2020. " Web Applications for Everybody Specialization" issued by Coursera

SKILLS

Languages & Frameworks

JavaScript, Node.js, PHP, Laravel, React, Angular, IONIC, Bootstrap, Express.

Databases

- SQL (MySQL, SQL Server, PostgreSQL)
- ORM (Eloquent)
- No-SQL (MongoDB, Firestore)

Other Skills

- Web Applications
- Single Page Applications
- Progressive Web Applications
- RESTful APIs
- Postman
- Microservices
- Web Design
- Responsive Web Design
- Mobile First Design
- CSS pre-processor (SASS)
- Package Managers (Composer, NPM)
- Version Control (Git, Github)
- Scrum

SOFT SKILLS

- Autodidact
- Leadership
- Organized
- Priorization
- Collaborative
- Committed
- Active listening
- Critical thinking
- Creative

LANGUAGES

- Spanish (Native)
- English (IELTS 4.5)
