✳✳✳This bracelet must be connected to the phone twice✳✳✳

Step 1: Open "FitCloudPro "APP--"OK, Allow"--"Add A DEVICE"--Find **BW327** and choose--Done

Scan code to view operation video

19:50 ⌄

Bind Bracelet

After binding the bracelet, the data can be analyzed more clearly on the APP.

Search Now

Add device

BW327

During this connection process, there will be a prompt to ask whether to open the notification and open permission request confirmation. Please make sure to confirm the open notification reminder and allow all permissions. (If not authorized, it will affect the information reminder and address book and other functions)

**Step 2.** **Connect the Bluetooth Call function**

⚠️ Note: Only after this connection can you play music and answer calls

1. Swipe Right on the standby interface of the bracelet, the first item. As shown in the picture below left. Turn on the Bluetooth play & call switch

Turn on the switch on the wristband
The bracelet enters the state to be connected

Click to turn on the Bluetooth playback and Bluetooth call switch

Show not connected

To be connected, the interface is grayed out

2. After confirming that the call function is turned on,After connecting to the device with the bluetoot of "Audio_327" on the phone-Settings-Bluetoot-(At this time, the communication interface of the left swipe on the standby interface of the bracelet shows green), you can make calls and play music through this bracelet's Bluetooth.

Connected state
The interface is displayed in green

1. If you don't want to connect through this bracelet due to environment or personal privacy, you can manually turn on/off this function, as shown in the right picture.
(This switch only turns off Bluetooth call and Bluetooth playback, and does not affect the other functions, such as heart rate)

Can be closed manually
Call icon is gray

****Every time the bracelet is turned off/restarted or restored to factory settings, the call function is turned off by default. Please turn it on manually in the drop-down menu.

2. If the wristband is disconnected from the phone for more than 2 minutes due to the distance, in order to ensure the battery life, the wristband will automatically close the connection with the phone. At this time, May need to manually reconnect call bluetooth.

Open and close once

To be connected, the interface is grayed out

Due to different phone models, you may need to manually click connect in the phone. settings-Bluetooth

3. If you answer or make a call on the mobile phone, if you need to return to the bracelet, you must manually switch to the bracelet on the mobile phone
As shown in the picture below right.

Switch back to Audio_327 on the bracelet

Why the watch can't receive the message notification?

Please make sure that the mobile phone Bluetooth is turned on, the FitCloudPro APP is turned on, and the bracelet is always connecting to the mobile phone Bluetooth !

NOTE:
If the phone is not locking or the software (whatapp, SMS, facebook...) is logging in the computer, the smart watch will not push messages for reduce power consumption and disturbing. Please allow all the notification permission(WhatsApp, Facebook, Twitter, Phone, SMS.) at the FitCloudPro APP

Since Android mobile phone background will automatically clean up the App which not commonly used, it will cause the watch connection to drop and no longer push the message.
1.Make sure turn on message push in FitCloudPro setting.
2.Make sure the message can be displayed in mobile phone's notification bar,message notification is pushed by reading the phone notification bar,the watch can't get notification if the message push closed in mobile phone setting .

XIAOMI

Setting-apps-permissions-Autostart-open the FitCloudPro

HUAWEI

Setting-apps&services-app launch-open the FitCloudPro

SAMSUNG

"Smart Manager "- find the "Auto-Run Application" option, --enter the "Auto-Start Application" setting interface - open the auto-start setting program.

⚠ ****If the notification still cannot be displayed, please try to reset the watch, or reinstall the APP.**
