TABLE OF CONTENT

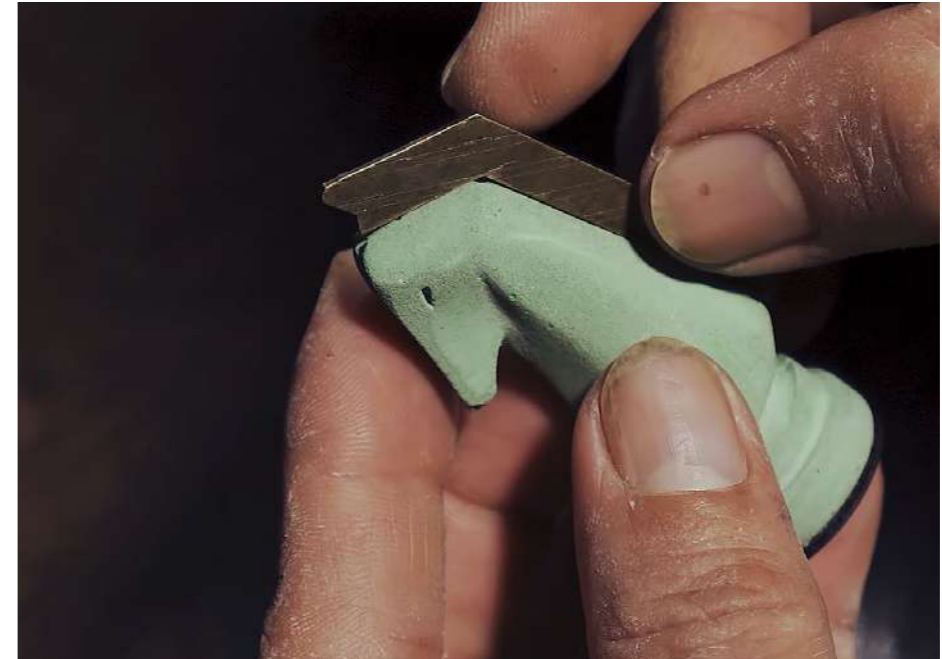

OUR STORY

Maztermind was founded by Vietnamese designers, artisans, and gamers with a passion for recreating familiar traditional board games. From designing raw materials to crafting high-quality pieces, our team put their hearts and soul into designing meaningful aesthetics and accentuating the human connection.

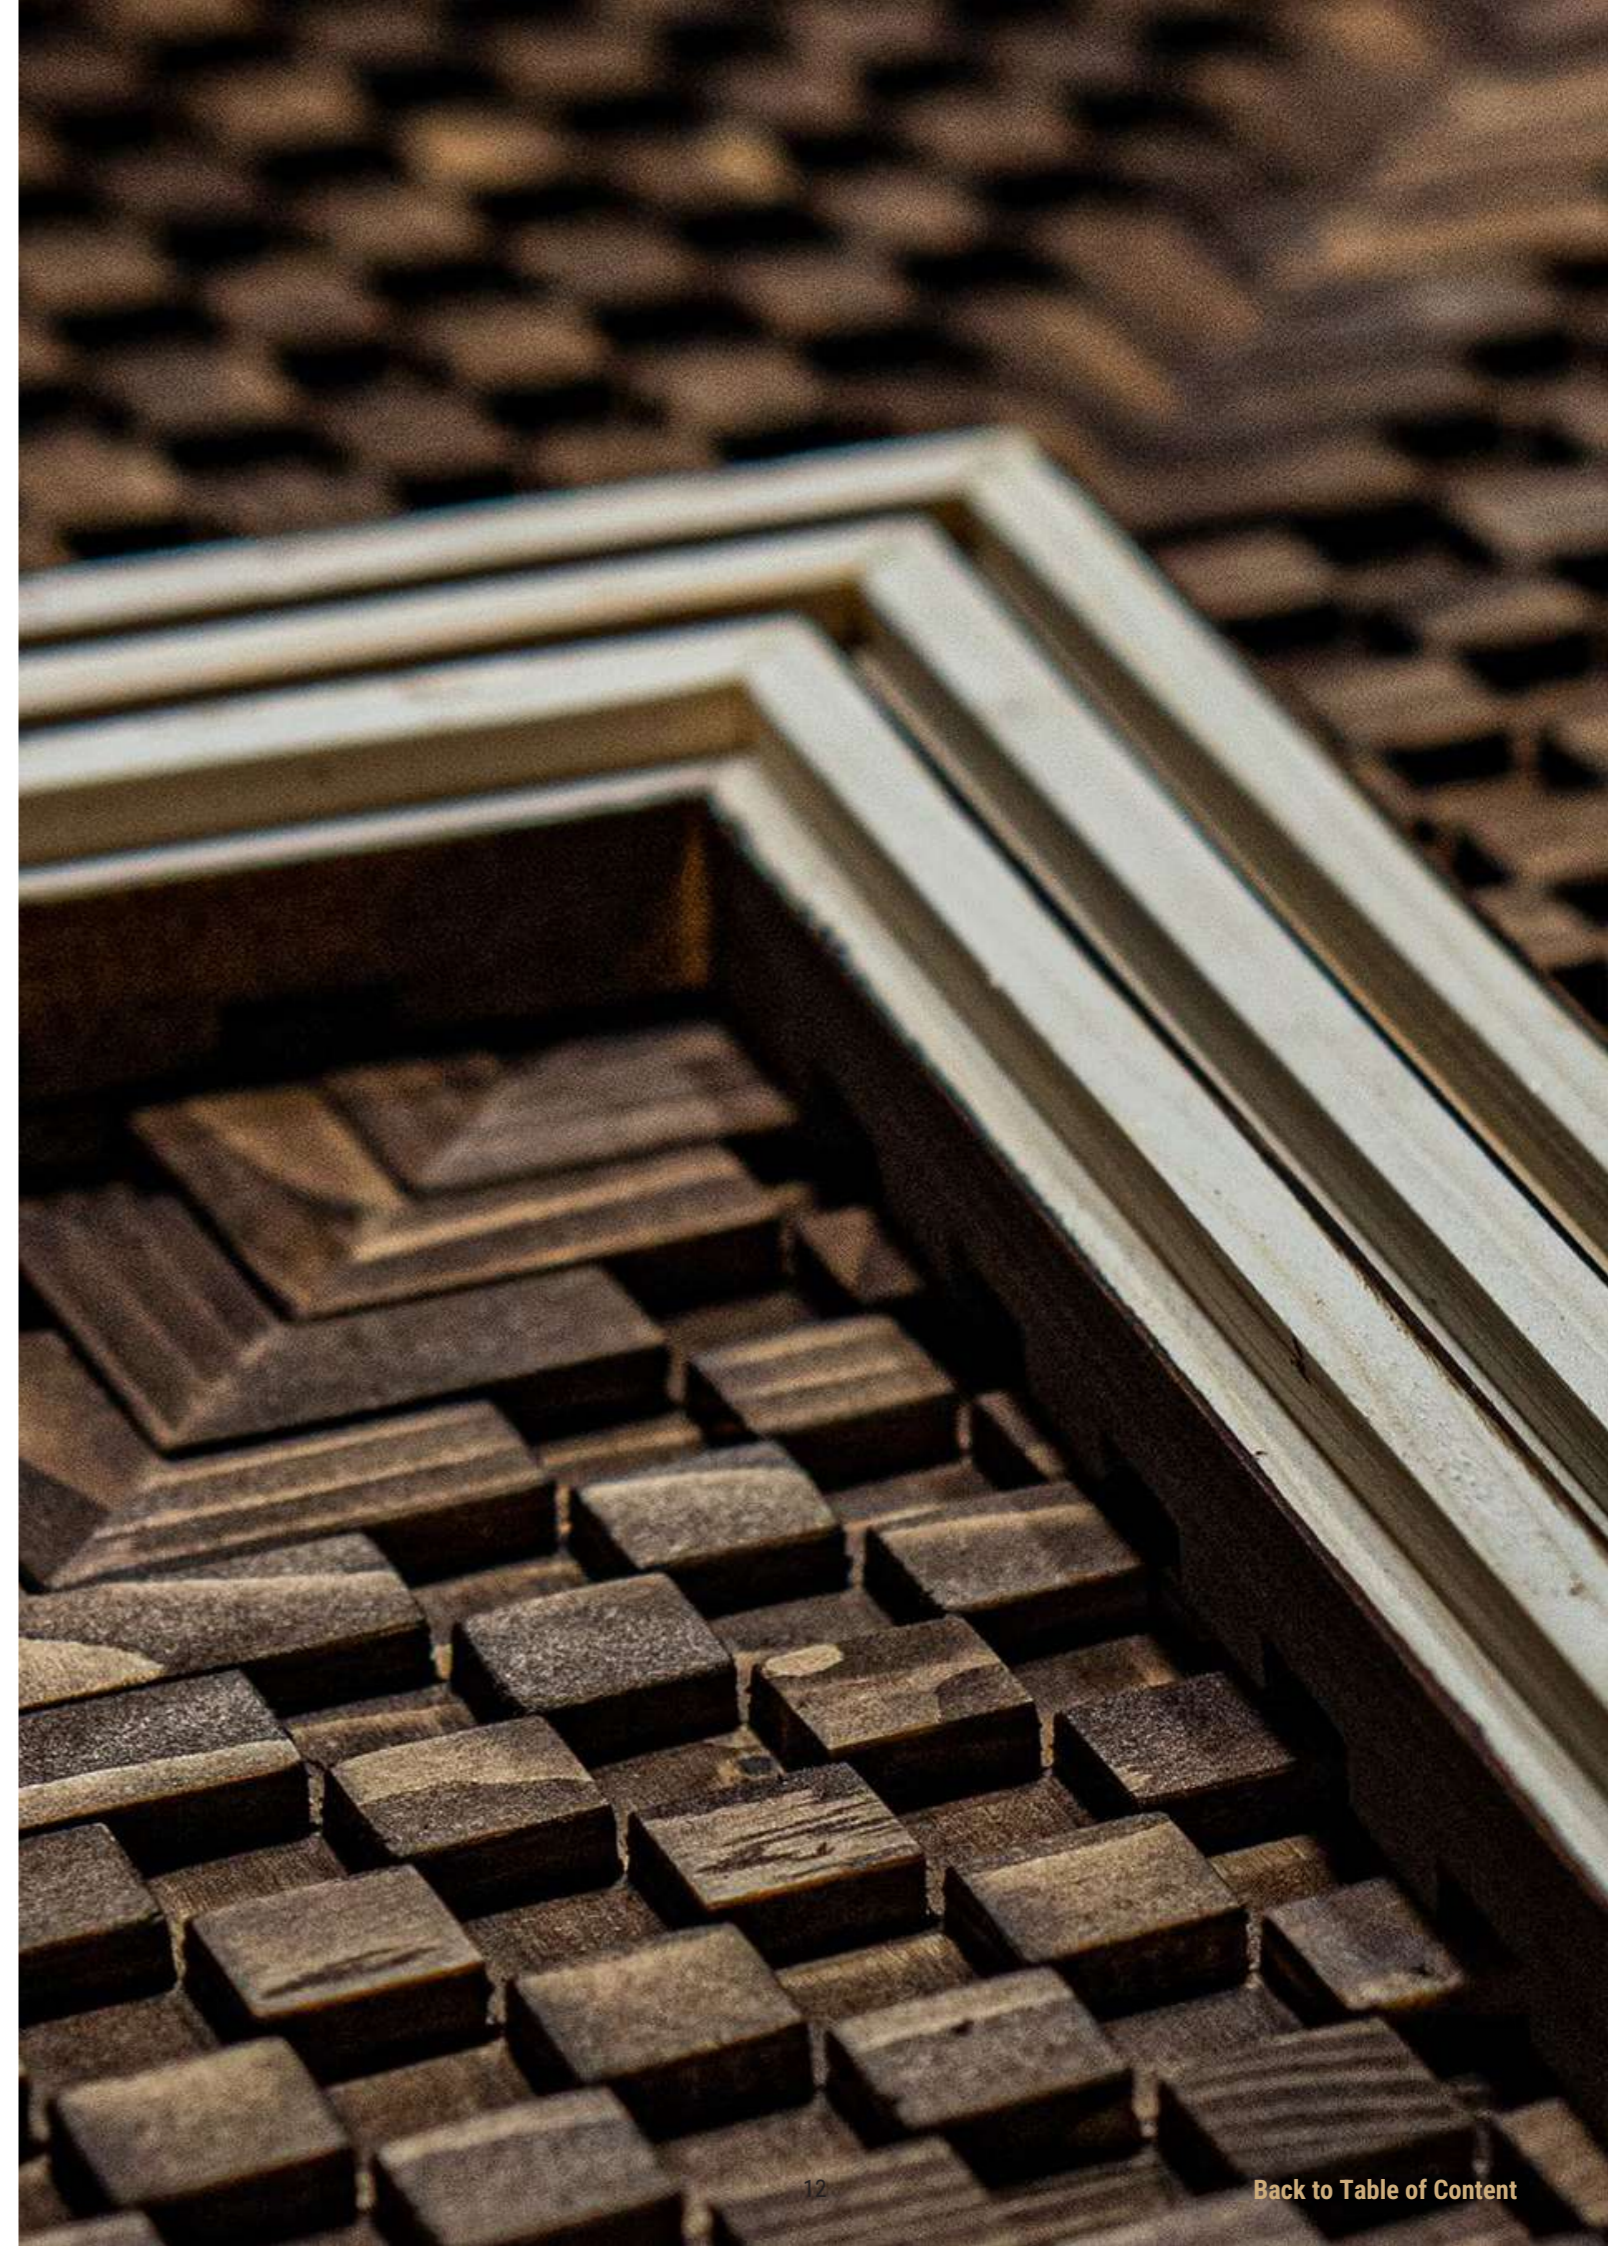

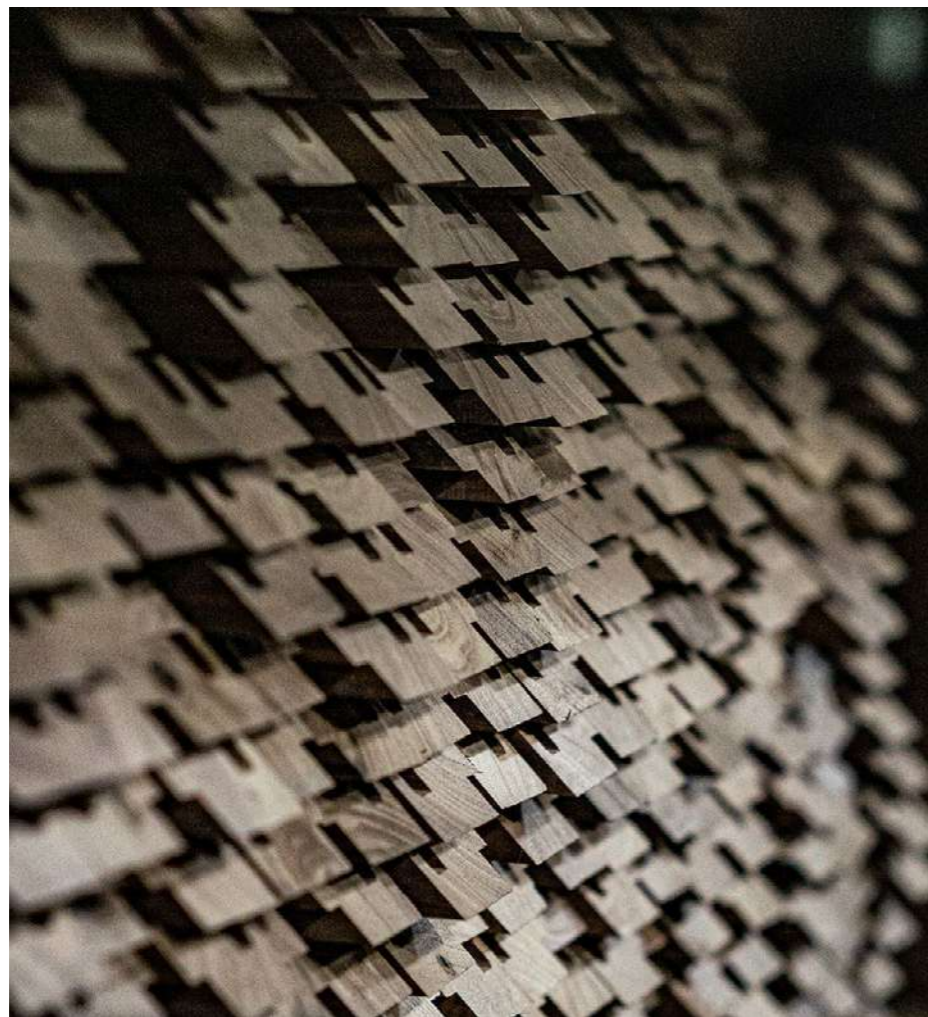

Using MIXED MATERIALS

Lasting beauty and building longevity are the reasons why we utilize different materials in the aesthetic design of a game. Through sustainable design and material selection, we try to minimize all adverse effects on the natural environment while creating one of a kind experience that's functionally suited to your lifestyle.

THE ART *of* CRAFTSMANSHIP

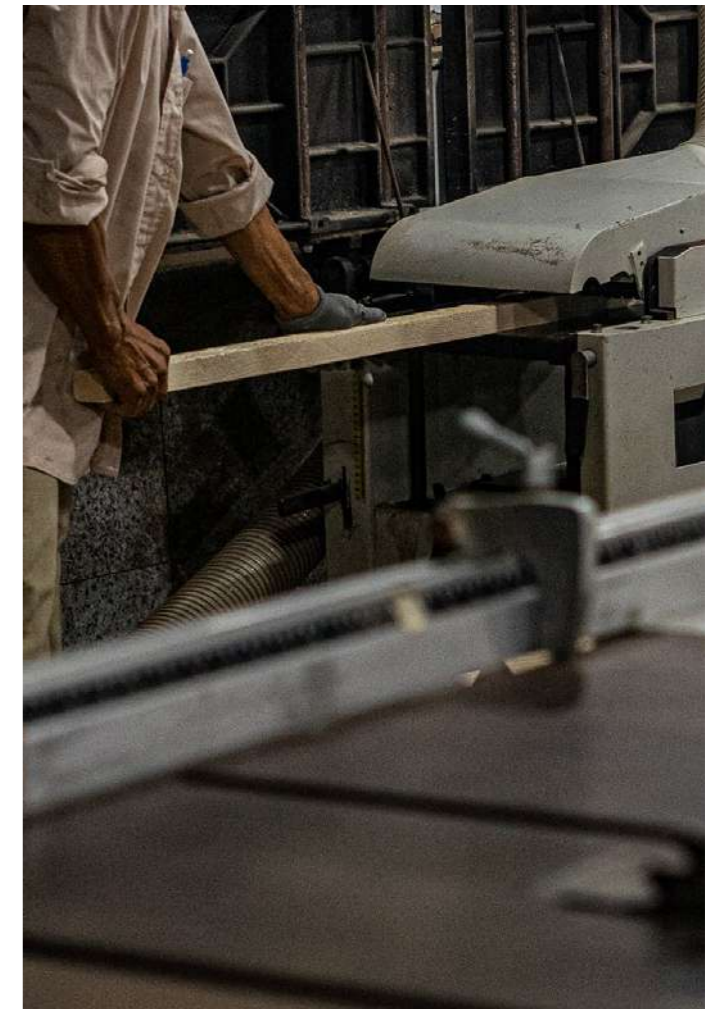

From the soul of designers to the hands of craftsmen in a small corner of Vietnam, we take great pride in designing meaningful aesthetics and renovating your all-time favorite board games.

Every single step is done meticulously by skilled hands, which means every single piece is individually unique.

As a team of more than 70 artisans working at the factory in Binh Chanh district, we craft all the stages of the production, from molding to honing.

HANOI POLY

**SIGNATURE
COLLECTION**
