Introduction

Each year the ministry publishes a population list of all Alberta municipalities based on the most recent municipal census or latest federal census. This list contains municipal census population figures submitted to Alberta Municipal Affairs as of September 1 of the current year, in accordance with Sections 57 and 604 of the [Municipal Government Act](#) and the Determination of Population Regulation. Municipalities completing their own census must follow mandatory requirements as specified in the [Determination of Population Regulation \(63/2001\)](#) and the [Municipal Census Manual](#). In most instances where a municipal census was conducted, the municipal census count would supersede the federal census count.

Conducting a municipal census is at the discretion of the municipality. Most municipalities rely on the information provided by the federal census prepared by Statistics Canada once every five years. The most recent federal census was completed in 2016 and will be released in February of 2017.

This publication also contains the population counts for all First Nation Reserves and all Métis Settlements in Alberta. The population counts for First Nation Reserves were obtained from [Alberta Aboriginal Relations](#).

2016 Alberta Municipal Affairs Population List

For most municipalities, only “usual residents” are included in their population counts. The shadow population counts are included with the usual resident count if the municipality has received approval from the Minister of Municipal Affairs prior to conducting a census. The list of municipalities that undertook a shadow population count are included in [page 14](#).
