The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view showing a first image in a sequence according to the claimed design;

FIG. 2 is a front view of a second image in the sequence thereof;

FIG. 3 is a front view of a third image in the sequence thereof;

FIG. 4 is a front view of a fourth image in the sequence thereof; and,

FIG. 5 is a front view of a fifth image in the sequence thereof.

The appearance of the transition is sequential from FIG. 1 through 5. The process or period in which an image transitions to another image forms no part of the claimed design. The longer-incremented broken lines illustrate an electronic device, and the intermediate-length broken lines illustrate a display screen or portion thereof.
