(21) Appl. No.: **29/303,559**

The ornamental design for a vehicle rear bumper cover, shown and described.

(22) Filed: **Feb. 12, 2008**

DESCRIPTION

(30) **Foreign Application Priority Data**

The vehicle rear bumper cover is styled independently of adjacent vehicle panels. To the extent that any feature lines are illustrated, they are intended to illustrate the crest and valley of the feature and are not necessarily sharp bends in the part. Shading is used to illustrate the curvature of the part and not color. Areas shown in or sounded by broken lines are not claimed. Any functional features of the vehicle rear bumper cover are not claimed. Views are orthogonal projections unless otherwise noted. The various views are not necessarily to scale in order to better illustrate the design.
