(54) Title: GENERATING GROUP BASED INFORMATION DISPLAYS VIA TEMPLATE INFORMATION

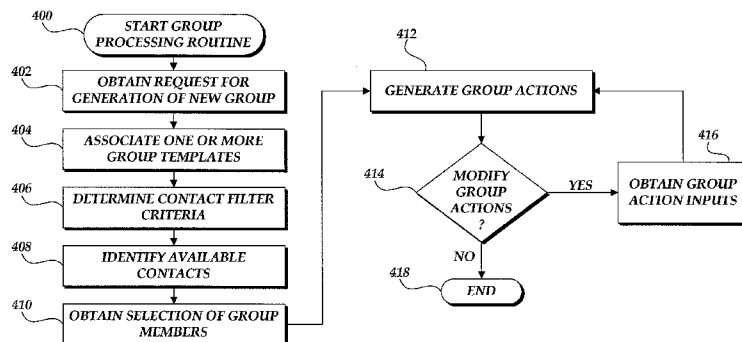

Fig.4.

(57) Abstract: A system, method and computer-readable medium are provided for the generation of group-based information processing service utilizes one or more group-based information templates and contact processing information to determine a set of available contacts and applications or other executable components for inclusion in group-based information. The determination of the contacts or applications or other executable components may be completed automatically without requiring user interaction. Alternatively, at least some portion of the process may require, or provide for, at least some user interaction for the selection or management of the contacts or applications or other executable components included in group-based information.

A. CLASSIFICATION OF SUBJECT MATTER**G06Q 50/00(2006.01)i**

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06Q 50/00; G06F 15/16; G06F 15/173; H04M 3/42; H04L 9/00

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: Information, Group, Template
