(57) **CLAIM**

The design for a display panel with graphical user interface for skin age determination, as shown and described.

DESCRIPTION

FIG. 1 is a first embodiment of a display panel with graphical user interface for skin age determination; FIG. 2 is a first embodiment of a display panel with graphical user interface for skin age determination; and, FIG. 3 is a first embodiment of a display panel with graphical user interface for skin age determination. The broken line showing of a display panel with graphical user interface for skin age determination is included for the purpose of showing portions of the article which form no part of the claim.

1 Claim, 3 Drawing Sheets
