54 **Convertible furniture.**

57 A frame (10) has connected thereto a table (12) and a pair of benches (14 and 16) on either side thereof. The table (12) is mounted on telescopic tubes (64) and may be lowered so that the surfaces of the table and benches are generally coextensive to provide a double bed. Prior to lowering the table into the double bed configuration the bench (16) is slid away from the frame (10), and the table (12) pivoted through 180° so that its reverse upholstered side faces upwardly.

The bench (14) may be pivoted downwardly to lie flat with the frame. The table (12) and bench (16) may be pivoted about (25) to lie in the region of the frame, either to be flat therewith or to provide upwardly facing surfaces, for instance for bunk beds.
