(54) Title of the Invention: **Method for correcting a 3D measurement of a spherically mounted retroreflector on a nest**
Abstract Title: **Method for correcting a 3D measurement of a spherically mounted retroreflector on a nest**

(57) A method for measuring a spherically mounted retroreflector (SMR) placed on a kinematic nest with a 3D coordinate measurement device like a laser tracker, the method accounting for the radius of the SMR and for the support axis direction of the nest.
