(54) Title: PROCESSING DEVICE, METHOD AND COMPUTER PROGRAM FOR DETECTING A CERTAIN COMPUTER COMMAND

(57) Abstract: The invention provides a processing device for detecting a certain computer command in a string of characters representing a uniform resource identifier, the certain command comprising a predefined command header, the command header being followed by a command name from a plurality of predefined command names. The processing device comprises a determiner 201 for determining whether the string of characters comprises the predefined command header, the determiner being further configured to determine whether a sub-string of characters following the command header comprises the command name if the string of characters comprises the predefined command header and a provider 203 for providing the predefined command header and the command name if the command header comprises a command name as the certain computer command.

A. CLASSIFICATION OF SUBJECT MATTER
INV. G01C21/00 G06F9/45

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
G06F G01C

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

* Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *G* document member of the same patent family
