[57] **CLAIM**

The ornamental design for an indirect light fixture, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of the indirect light fixture;
FIG. 2 is an end view of the indirect light fixture, both ends being identical;
FIG. 3 is a bottom view of indirect the light fixture;
FIG. 4 is a side view the of indirect light fixture, both sides being identical;
FIG. 5 is a side view of a second embodiment of the light fixture design; and,
FIG. 6 is a side view of a third embodiment of the light fixture design.
The second and third embodiments differ from the first embodiment only by the surface pattern on the top side panel. The top of the fixture is hidden in use and is unornamented.
The light fixture is broken away to indicate indeterminate length.
