UNITED STATES PATENT OFFICE

100,877

DESIGN FOR A CUTTING BLADE

Morgan Parker, Katonah, and John Wood Brooks Ladd, Chappaqua, N. Y., assignors to Bard-Parker Company, Inc., Danbury, Conn., a corporation of Connecticut

Application June 17, 1935, Serial No. 57,301

Term of patent 14 years

To all whom it may concern:

Be it known that we, Morgan Parker and John Wood Brooks Ladd, citizens of the United States and residents of Katonah and Chappaqua, respectively, both in the county of Westchester and State of New York, have invented a new, original, and ornamental Design for a Cutting Blade, of which the following is a specification, reference being had to the accompanying drawing forming a part thereof, in which

Fig. 1 is a view in elevation of a cutting blade showing our new design, and

Fig. 2 is a view in cross section of the blade on the line 2—2 of Fig. 1, and on an enlarged scale.

The dominant feature of our design resides in a narrow rib extending outwardly from the flat surface of an apertured blade which is otherwise of uniform thickness throughout, the rib forming a straight back edge for the blade and tapering to a point toward the point of the blade.

We claim:

The ornamental design for a cutting blade substantially as shown and described.

In testimony whereof, we have affixed our signatures hereto.

MORGAN PARKER.
J. W. BROOKS LADD.
