(54) Title: METHODS FOR ASSAYING T-CELL DEPENDENT BISPECIFIC ANTIBODIES

FIG. 8

(57) Abstract: The present invention provides a cell-based assay for measuring T cell activation mediated by a T cell -dependent bispecific antibody (TDB). In some aspects, the assay is useful for detecting a TDB in a composition, quantitating the amount of TDB in a composition, determining the potency and/or specificity of a TDB, or determining if a population of cells expresses a target antigen. Compositions and kits are also contemplated.
