54 **Head protection cap for bleaching and colouring hair.**

57 A close fitting head protection cap (1) for use in the bleaching and colouring of selected hair. The cap is formed of one or more layers including an elastic polymeric layer (30) and has a number of apertures (10) formed through the layer(s) so that selected hair can be drawn through for treatment. The cap (1) overcomes the problem of unwanted colouring which occurred with the prior art methods by preventing treatment solution from contacting non-selected hair.
