INCOMPLETE SEARCH			
The Search Division considers that the present application, or one or more of its claims, does/do not comply with the EPC to such an extent that a meaningful search into the state of the art cannot be carried out, or can only be carried out partially, for these claims.

EPC FORM 1503 03 82 (P04007)

Claim(s) searched completely:
2-8

Claim(s) searched incompletely:
1

Reason for the limitation of the search:

Present claim 1 relates to a detergent composition comprising a retrograded starch degrading enzyme defined by reference to the following parameter :

P1 : retrograded starch index (ReSI) below 4% (pref. below 3%).

The use of this parameter in the present context is considered to lead to a lack of clarity within the meaning of Article 84 EPC. It is impossible to compare the parameter the applicant has chosen to employ with what is set out in the prior art. The lack of clarity is such as to render a meaningful complete search impossible. Consequently, the search has been restricted to enzymes mentioned in claim 3 and in the description at pages 7-10.
