(57) **CLAIM**

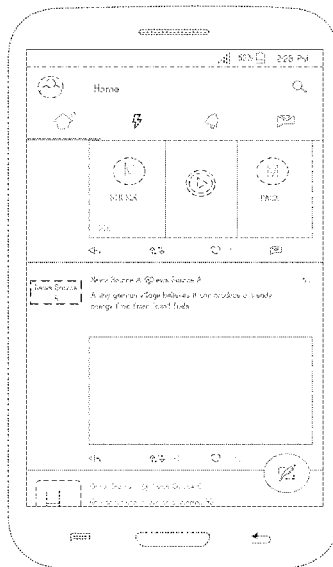

The ornamental design for a display screen with graphical user interface for moments in a social media application, as shown and described herein.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for moments in a social media application, showing the new design.

The rectangular broken line in the drawings represents a display screen that form no part of the claimed design. The broken lines outside the display screen show an electronic device and form no part of the claimed design. All other broken lines inside the display screen show portions of the graphical user interface and form no part of the claimed design.
