[57] **CLAIM**

The ornamental design for wiring grommet, as shown and described.

**DESCRIPTION**

FIG. 1 is an exploded view of a wiring grommet according to my new design and shows the sleeve and cap components of the sleeve;

FIG. 2 is a top plan view of the sleeve component;

FIG. 3 is a front side elevation view of the sleeve component, right, left and rear side elevation views thereof being the same as the front elevation view;

FIG. 4 is a bottom plan view of the sleeve component;

FIG. 5 is a top plan view of the cap component of the wiring grommet;

FIG. 6 is a front elevation view of the cap component;

FIG. 7 is a bottom plan view of the cap component;

FIG. 8 is a rear elevation view of the cap component;

FIG. 9 is a left side elevation view, a right side elevation view of the cap component being a mirror image of the left side elevation view;

FIG. 10 is a top plan view of the wiring grommet fully assembled;

FIG. 11 is a left side view of the wiring grommet fully assembled with the right side, and rear views being mirror images thereof and with the front view being a mirror image except for the lines denoting the tab; and, FIG. 12 is a bottom plan view of the wiring grommet fully assembled.

The sleeve and cup of the wiring grommet are shown separately for clarity of illustration.
