(57) **CLAIM**

What is claimed is the ornamental design for a communication device display with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a communication device display screen with a graphical user interface. FIG. 2 is a second embodiment thereof; and, FIG. 3 is a third embodiment thereof. The largest rectangular outline in broken and solid outline shows a display screen. All broken lines outside the display screen show a device. All broken lines within the display screen show portions of the graphical user interface. None of the aforementioned broken lines form any part of the claimed design.
