(54) Title of the Invention: Pump device and flow control system
Abstract Title: Pump device and flow control system

(57) A fluid delivery device (100) includes a pump (190), a fluid chamber (129) having an inlet (123) and two or more exits (126) wherein each of the exits (126) from the fluid chamber (129) are equidistant from the inlet (123) such that product pumped through the fluid chamber (129) may flow through each of the exits (126) at an equivalent rate.
