(54) Title: AIR CONDITIONER AND AIR CONDITIONING SYSTEM

(57) Abstract: The present application relates to an air conditioner with a humidifier and an air conditioning system. The air conditioner (30) has a main body (31) comprising an air inlet and an air outlet, and a heat exchanger (33) within the main body. A drain pan (38) receives a lower end of the heat exchanger (33) to collect condensate that is formed on a surface of the heat exchanger (33). A fan (24) assembly within the main body (31) suctions indoor air. A humidifying module within the main body comprises a discharge cell (10) that ionizes water through in-water discharging, where the humidifying module comprises a humidifying device (26) formed of a ceramic material and partly immersed in water collected in a drain pan (38).

INTERNATIONAL SEARCH REPORT

International application No. PCT/KR 2008/003887

A. CLASSIFICATION OF SUBJECT MATTER

IPC8: F24F 3/14 (2006.01); F24F 6/12 (2006.01); F24F 13/22 (2006.01)

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC8: F24F, F25B, F28D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) EPODOC, WPI, Espacenet, GOOGLE

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X A	JP 2005-90832 A (Kawase Koichi) 07 April 2005 (07.04.2005) paragraphs 1-39 (of English MT) and figure 1.	1-4,10-13,15-18 5-9,14

See patent family annex.

- * Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
