(57) **CLAIM**

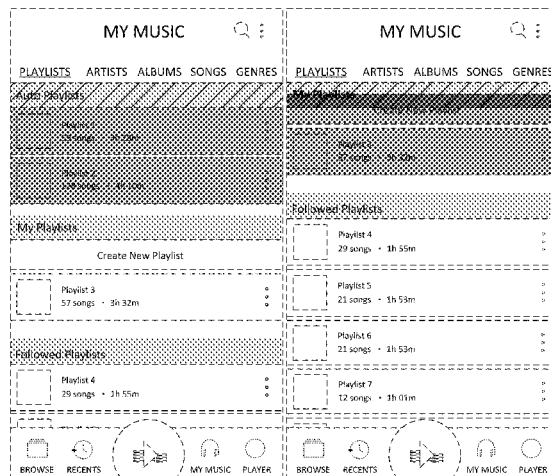

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in a sequence for a display screen or portion thereof with animated graphical user interface showing our new design; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; FIG. 4 is a fourth image thereof; FIG. 5 is a fifth image thereof; FIG. 6 is a sixth image thereof; and, FIG. 7 is a seventh image thereof.

The appearance of the animated image on the display screen sequentially transitions between the images shown in FIGS. 1-7. The process in which, and the period during which, one image transitions to another image forms no part of the claimed design. The outermost broken line illustrates a display screen and the remainder of the broken lines illustrate portions of the animated graphical user interface. None of the broken lines form part of the claimed design.
