[57] CLAIM

The ornamental design for a shovel blade, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a shovel blade showing my new design.

FIG. 2 is a side elevational view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a sectional view thereof taken along the line 4-4 in FIG. 1; and

FIG. 5 is a fragmentary top plan view of a shovel blade showing a second embodiment of my new design, the sole difference being in the specific shape of the blade. The characteristic feature of my design resides in the specific configuration and location of the three raised corrugations or chisel bars located vertically along the face of the shovel blade.

The broken lines in the drawing are for illustrative purposes only.
