WILLIAM MILLER

William Miller

United States Patent Office.

WILLIAM MILLER, OF PHILADELPHIA, PENNSYLVANIA.

Design No. 3,560, dated June 29, 1869.

DESIGN FOR A MEDALLION.

The Schedule referred to in these Letters Patent and making part of the same.

To all whom it may concern:

Be it known that I, WILLIAM MILLER, of Philadelphia, county of Philadelphia, State of Pennsylvania, have originated a new Pictorial Design; and I do hereby declare that the accompanying drawing, and following explanation thereof, form a full, clear, and exact description of the said design.

In the drawing, the central portion of the figure consists of a circular picture or medallion, in which are represented the heads, in profile, of Washington, Lincoln, and Grant.

Surrounding this picture, is a circular border, *a*, composed of circular lines and stars, arranged as clearly shown in the drawing; and in the space between the said border and the central picture, and immediately over the latter, are the words, "*Triumviri Americani*," and, beneath the picture, the words, "*Pater, 1787; Salvator, 1861; Custos, 1869.*"

In the corner-spaces, left between the circular border *a* and the square outer border of the design, are allegorical figures, the two upper of which hold a

wreath over the heads represented in the central picture.

The above design may be produced, in relief, in plaster, bronze, or as a print or photograph, as shown in the drawing, or the ornamental border may serve as a mat, with which to surround the central medallion or picture.

Without, therefore, confining myself to any specific material, or method of producing my design,

I claim a picture, in which the three faces are combined, substantially in the manner described.

I also claim the combination of the above with the border herein described.

In testimony whereof, I have signed my name to this specification, in the presence of two subscribing witnesses.

WILLIAM MILLER.

Witnesses:

JOHN WHITE,
HARRY SMITH.
