(54) **Title:** SYSTEM WIDE TEXT VIEWER

Fig. 1

(57) **Abstract:** A method of magnifying text across a computer operating system platform, the method including the steps of loading a background text viewer process on a computer operating system, the background text viewer process having access to internal operating system messaging relating to text sent to a graphics display driver for presentation to an end-user on a GUI, drawing a text viewer on a portion of the GUI whereby the text viewer and a third party application that displays text are shown on the GUI concurrently, intercepting text originating from the third party application and sent to the graphics display driver, the interception performed by the background text viewer process, selecting a substring of intercepted text associated with an end-user focus on the third party application and displaying the substring on the text viewer according to end-user defined settings.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F 3/14; G06F 3/048; G09G 5/36; G06F 15/00; G09G 5/00; H04B 1/40

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: magnify, text, viewr, intercept, display, draw

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
