

POLLINATOR PANIC!

1

Click on any bee to add it to the garden

Below each bee is their cost

Use your Bee Bucks to buy bees

You earn more for every flower a bee pollinates!

2

Select a flower by tapping it then click in the garden to plant that flower

3

These are progress bars each color relates to each bee species

4

These are challenge cards, each challenge event that passes will effect your garden differently

START

Then press start and watch your bees take flight!

Extra Tips:

Each species of bee pollinates a different group of flowers

A diverse pollinator community (generalists and specialists) is stronger and better able to cope with challenges

Every time a bee collects pollen and nectar you earn more Bee Bucks so place as many flowers and bees in your garden as possible each round

The challenge events are based on

The Four P's

Pesticide

Makes plants toxic to bees

Pathogens

Microorganisms which can make bees sick

Parasites

Pesky organisms that feed on bees!

Poor Nutrition

Lowered immunity due to poor diet
