

REPORT OF PUBLIC OPINION SURVEY

PROCEDURES

This survey was conducted by telephone on October 11, and 12, 2022. Calls were made from a list of voters who voted in the last two general elections. We completed a total of 500 interviews for this congressional survey.

Party breakdown was based on the past voter turnout within the 2nd Congressional District. Among all voters in this category, 55% were republicans, 30% were democrats, and 15% were "other". The other category contains voters self-described as libertarian, independent, no declaration, etc.

The results of this survey are confidential between JCS and the Patrick Schmidt for Congress Committee. Any release of the information within this report is strictly the prerogative of the Schmidt campaign.
